The Scientific Case Against Scientific Creationism Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles The Bible and the Holographic Universe Cynthia C. Findley, Teacher Edition includes complete student text review questions vocabulary and answer keys The Conflict of the Ages is a Multi Part exploration of History Science and ancient Literature This first installment covers the concepts of God time Creation physics cosmology and specifics about each day of Creation We make comparisons with ancient sources to see where they agree with the Scriptural account We reference classic and modern scientific views exposing errors preconceptions presuppositions and falsehoods taught as fact by the mainstream scientific community God is the first witness and the Bible the first eyewitness account of beginnings and origins Other ancient documents contain at least some truths and parallel accounts

The Science of Sacred Scripture Shema, 2012-10-22 Our creator finally provides the actual details of his design in the long sort after Theory of Everything Now our eyes finally open to fully understand the world which we have studied The tribes and so called races of man have all been given pieces of this massive puzzle When put together it weaves a tapestry of one beautiful story The bible provides the structure the Africans provide a first person account Native Americans hold vital elements the Aztecs tell us the thoughts of God and his expectations for his designs Asian theology focuses on living today and Christianity takes us to a new tomorrow But no story could be complete without the details the process used the illusive How for this we thank the final seers of science The bible tells us that to achieve the design of man God cursed man to become weaker naked to have pain during labor and the entire event is triggered in the process of eating Geneticist confirm that the genetic mutations which transformed man are weaker muscles a narrower pelvic cavity a significant loss of body hair and a redesign in the jaw muscles which allows the brain to grow much larger than other primates From this we discover that what science refers to as a genetic mutation is considered a biblical curse And from this every curse from those relating to incest and over eating are connected to mutations From the weaving of the universe to the wiring of the brain every question you've ever asked about life and death and who we are is finally answered
