Modern Language Notes, 1897

Goethe's Visual World Pamela Currie, 2017-07-05 Goethe's ideas on colour and imagery crossed many borderlines those of artistic processes and philosophical aesthetics art history and colour theory together with the science of perception This investigation into his writings ranges across art from Antiquity the Renaissance and the eighteenth century as well as exploring the centrality of these issues to Goethe's literary work Questions find answers but also raise new questions This systematic sequence of essays originally written between 1999 and 2011 appeals to readers in all these separate areas while drawing together their essential coherence

The Idea of World Literature John Pizer, 2006-04-15 Johann Wolfgang von Goethe introduced the concept of Weltliteratur in 1827 to describe the growing availability of texts from other nations Although the term World Literature is widely used today there is little agreement on what it means and even less awareness of its evolution In this wide ranging work John Pizer traces the concept of Weltliteratur in Germany beginning with Goethe and continuing through Heinrich Heine Karl Marx and Friedrich Engels to the present as he explores its importation into the United States in the 1830s and the teaching of World Literature in U S classrooms since the early twentieth century Pizer demonstrates the concept's ongoing viability through an in depth reading of the contemporary Syrian German transnational novelist Rafik Schami He also provides a clear methodology for World Literature courses in the twenty first century Pizer argues persuasively that Weltliteratur can provide cohesion to the study of World Literature today In his view traditional World Lit classes are limited by their focus on the universal elements of literature A course based on Weltliteratur however promotes a more thorough understanding of literature as a dialectic between the universal and the particular In a practical guide to teaching World Literature by employing Goethe's paradigm he explains how to help students navigate between the extremes of homogenization on the one hand and exoticism on the

other learning both what cultures share and what distinguishes them Everyone who teaches World Literature will want to read this stimulating book In addition anyone interested in the development of the concept from its German roots to its American fruition will find *The Idea of World Literature* immensely rewarding Politics in German Literature Beth Bjorklund, Mark E. Cory, 1998 New readings of a variety of works in German literature taking as a theme the conflict between the aims of politics and literature The essays presented here invite reflection on a considerable sweep of German literature with representation from the medieval period to the present day A common focus on politics appropriately a subject of deep concern to Professor Ryder unites the articles written from the perspective of American Germanists European wars and revolutions political divisions and attempts at unification and periods of emancipation or persecution are viewed through the illuminating lens of literature the tension between aesthetic and ideological goals between the aims of literature and politics informs the works chosen for analysis and the conflict between the certainties of politics and the ambiguities of literature becomes evident in these new readings of both familiar and less well known works BETH BJORKLAND is Professor of German at the University of Virginia MARK E COREY is Professor of German at the University of Arkansas Contributors HORST LANGE PAUL MICHAEL L TZELER RICHARD T GRAY MARGARET E WARD RONALD HORWEGE BETH BJORKLUND DAVID CHISHOLM MICHAEL W JENNINGS DAVID SCRASE RAY WAKEFIELD MARKE CORY MICHAEL MORTON
