Paul Carl Weber

Goethes Interest In The New World:

Goethe's Interest in the New World Walter Wadepuhl, 1934 **Goethe and the English-speaking World** Nicholas Boyle, John Guthrie, 2002 New studies of both Goethe's relationship to the English speaking world and its perception of Goethe and his works Goethe's relations with the English speaking world have been the subject of scholarly investigation ever since his lifetime This volume brings together eighteen articles that provide new points of view a broad range of approaches and new and original findings on this relationship These range from the discussion of applications of recent critical approaches such as chaos theory and Edward Said's Orientalism to Goethean texts through other more empirical contributions that bring to light new material some of it deriving from archives in Weimar relating to Goethe's contact with English culture Other essays involve the reassessment of questions of influence from both sides in the case of Cooper and Goethe some standard assumptions are revised while in the case of Goethe and Edith Wharton and Goethe and George Eliot new comparative ground is broken Close readings of portions of well known texts such as Faust and Wilhelm Meister challenge standard assumptions The analysis of selected recent translations of Goethe's poetry raises perennial questions of cultural transfer while the survey of the role played by some of Goethe's texts in one corner of the English speaking world Dublin is long overdue Nicholas Boyle is Reader in German Literary and Intellectual History Head of the Department of German in the University of Cambridge and Fellow of Magdalene College John Guthrie is College Lecturer in German and Director of Studies in Modern Languages at New Hall Cambridge A History of Endometriosis Ronald Batt, 2011-06-15 The early history of endometriosis is interwoven with the history of adenomyosis since it was not until the mid nineteen twenties that the two conditions were finally separated A History of Endometriosis provides a detailed reconstruction of the progress made in identifying describing and treating the condition we call today endometriosis **Emerson and Goethe** Frederick Burkhardt Wahr, 1915 **The Dispute of the New World** Antonello Gerbi, 2010-06-20 Translated by Jeremy Moyle When Hegel described the Americas as an inferior continent he was repeating a contention that inspired one of the most passionate debates of modern times Originally formulated by the eminent natural scientist Georges Louis Leclerc Comte de Buffon and expanded by the Prussian encyclopedist Cornelius de Pauw this provocative thesis drew heated responses from politicians philosophers publicists and patriots on both sides of the Atlantic The ensuing polemic reached its apex in the latter decades of the eighteenth century and is far from extinct today Translated into English in 1973 The Dispute of the New World is the definitive study of this debate Antonello Gerbi scrutinizes each contribution to the debate unravels the complex arguments and reveals their inner motivations As the story of the polemic unfolds moving through many disciplines that include biology economics anthropology theology geophysics and poetry it becomes clear that the subject at issue is nothing less than the totality of the Old World versus the New and how each viewed the other at a vital turning point in history **Goethe und American** Walter Wadepuhl, 1925 Goethe's Science in the Structure of the Wanderjahre Alfred G. Steer, 2008-07-01

Published in 1979 this study is intended as a continuation of the work of the scholars and previous commentators on Goethe's *Wanderjahre*. While considering the scientific structure it concentrates first on one basic question of form that of the series of narrative insertions and then of necessity on one matter of content that is linked so closely with them that the two are almost inseparable namely the concept of the family as the Urform archetype and metamorphosis of the types of human association. Thus the intention of this book is to contribute to the new and better understanding of the novel and which will it is to be hoped at long last help the work take its place as one of the two crowning masterpieces along with *Faust II* of Goethe's life.

Goethe Gabrielle S. Bersier, Nancy Sanden Boerner, Peter Boerner, 2019-02-15 The German polymath Johann Wolfgang von Goethe is often seen as the quintessential eighteenth century tourist though with the exception of a trip to Italy he hardly left his homeland. Compared to several of his peripatetic contemporaries he took few actual journeys and the list of European cities in which he never set foot is quite long. He never saw Vienna, Paris or London for example and he only once visited Berlin. During the last thirty years of his life he was essentially a homebound writer but his intensive mental journeys countered this sedentary lifestyle and the misconception of Goethe as a traveler springs from the uniquely international influence of his writing. While Goethe's *Italian Journey* is a classic piece of travel writing it was the product of his only extended physical journey. The majority rather were of the mind taken amid the pages of books by others. In his reading Goethe was the prototypical eighteenth century armchair traveler developing knowledge of places both near and far through the words and eyewitness accounts of others. In *Goethe Journeys of the Mind* Nancy Boerner and Gabrielle Bersier explore what it was that made the great writer distinct from his peers and offer insight into the ways that Goethe was able to explore the cultures and environments of places he never saw with his own eyes. **Goethe in Context** Charlotte Lee, 2024-05-31

One of the most prolific and versatile writers of all time Johann Wolfgang Goethe 1749-1832 made an impact that continues to extend far beyond his native Germany. The variety of human questions and experiences treated in his works is arguably without parallel. He also had for his era an unusually long life which spanned the French Revolution the end of the Holy Roman Empire and subsequent reshaping of the German speaking world and the rapid onset of industrial modernity. In thirty seven short essays leading international scholars explore Goethe's life and times his literary works his activity in the realms of art philosophy and natural science his reception of and indeed by other cultures and finally the resonance of his work in our time. The aim of this collection is to open as many windows as possible onto Goethe's wide ranging intellectual and practical activity and to give a sense of his ongoing importance. **Publications of the Modern Language Association of America**

Guthke, 2018-05-24 In this

fascinating collection of essays Harvard Emeritus Professor Karl S. Guthke examines the ways in which for European scholars

and writers of the eighteenth and early nineteenth century world wide geographical exploration led to an exploration of the self Guthke explains how in the age of Enlightenment and beyond intellectual developments were fuelled by excitement about what Ulrich Im Hof called the grand opening up of the wide world especially of the interior of the non European continents This outward turn was complemented by a fascination with the world within as anthropology and ethnology focused on the humanity of the indigenous populations of far away lands an interest in human nature that suggested a way for Europeans to understand themselves encapsulated in Gauguin s Tahitian rumination What are we The essays in the first half of the book discuss first or second hand physical or mental encounters with the exotic lands and populations beyond the supposed cradle of civilisation The works of literature and documents of cultural life featured in these essays bear testimony to the crossing not only of geographical ethnological and cultural borders but also of borders of a variety of intellectual activities and interests The second section examines the growing interest in astronomy and the engagement with imagined worlds in the universe again with a view to understanding homo sapiens as compared now to the extra terrestrials that were confidently assumed to exist The final group of essays focuses on the exploration of the landscape of what was called the universe within featuring among a variety of other texts Schiller s plays The Maid of Orleans and William Tell these essays observe and analyse what Erich Heller termed The Artist s Journey into the Interior This collection which travels from the interior of continents to the interior of the mind is itself a set of explorations that revel in the discovery of what was half hidden in language Written by a scholar of international repute it is eye opening reading for all those with an interest in the literary and cultural history of and since the Enlightenment
