through whose work the artistry of inkstone making achieved unprecedented refinement between the 1680s and 1730s The Social Life of Inkstones explores the hidden history and cultural significance of the inkstone and puts the stonecutters and artisans on center stage     **The Economics of Taste** Gerald Reitlinger,1963     *The rise and fall of the picture market, 1760-1960* Gerald Reitlinger,1964     The Economics of Taste Gerald Reitlinger,1961     **Foreign Currency Volatility and the Market for French Modernist Art** David Challis,2021-08-04 Foreign Currency Volatility and the Market for French Modernist Art examines how the collapse of the French franc in the decades following the First World War activated powerful push and pull economic forces that compelled French art collectors to monetise their collections while simultaneously elevating the purchasing power of international art collectors These factors are shown to have played a significant and previously under recognised role in the large scale translocation of French modernist art that radically accelerated its commercial and critical reception across the globe and positioned it at the apex of the newly established hierarchy of modern art
