Economic Essays ... Edited with Introductory Essay and Notes by E.C.K. Gonner David Ricardo, Sir Edward Carter Kersey GONNER, 1923 Economic Essays David Ricardo, 1923 *Ricardo and the History of Japanese Economic Thought* Susumu Takenaga, 2016-01-22 David Ricardo's theories were introduced in fragments in Japan after the Meiji restoration of 1868 and his work came into prominence late in comparison to other major thinkers figuring in the history of economic thought The book seeks to analyse the studies in Japan from the year 1920 to the end of the 1930s during the time before the outbreak of the Second World War when even the study of classical economics became difficult The book covers different aspects of his works and contains elements which may be interesting to foreign and even Japanese readers today without necessarily coming under the influence of Marx's reading It presents works on Ricardo that are at present wholly unknown to the Ricardo scholars and more generally to the historians of economic thought outside Japan This book is an essential read on the history of economic thought in Japan **A Guide to the Printed Materials for English Social and Economic History, 1750-1850** Judith Blow Williams, 1926 *Economica*, 1924 **The Reception of David Ricardo in Continental Europe and Japan** Gilbert Faccarello, Masashi Izumo, 2014-02-03 This book is a coherent and unique collection of chapters exploring the reception and diffusion of David Ricardo's writings in different languages The book highlights the similarities and differences between them This book seeks to delineate the diffusion of Ricardo's theory in various parts of Europe and Japan While there may have been case studies about the reception of Ricardo's thoughts for several countries there has not yet been a systematic study of the diffusion process under consideration as a whole This book caters to all scholars dedicated to the history of economic thought and to students who are interested to learn about the peculiarities of the evolution of economic theories in different countries This book is the first of its kind with no known predecessor and it aims to shed light on how and why some of Ricardo's writings were picked up and why others were not Given Ricardo's importance in the field of economics the book will be of interest to many The Publishers' Circular and Booksellers' Record, 1923 **The Economic Journal**, 1891 Contains papers that appeal to a broad and global readership in all fields of economics *The Economist*, 1923 *The Athenaeum*, 1906 **Athenaeum and Literary Chronicle** James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1891 The Journal of Education, 1891 **Subject Catalog** Library of Congress, 1965 Clare Market Review, 1920 **Bookseller and the Stationery Trades' Journal**, 1891 **Journal of the Royal Statistical Society** Royal Statistical Society (Great Britain), 1924 Published papers whose appeal lies in their subject matter rather than their technical statistical contents Medical social educational legal demographic and governmental issues are of particular concern The Saturday Review of Politics, Literature, Science and Art, 1891 **Monetarism** K.
