developmental strategy It also reveals the imminent results of these efforts by presenting examples of how bourgeois values permeated into all spheres of socio cultural life from family life to literature in the late Ottoman Empire The text examines how the interplay between Western European economic theories and the traditional Muslim economic cultural setting paved the way for a new synthesis of a Muslim capitalist value system shedding light on the emergence of capitalism as a cultural and an economic system and the social transformation it created in a non Western and more specifically in the Muslim Middle Eastern institutional setting This book will be of great interest to scholars of modern Middle Eastern history economic history and the history of economic thought Ethical Teachings of Abū Hāmid al-Ghazālī Sami Al-Daghistani,2021-02-26 This book studies the interplay of economic philosophy and moral conduct as reflected in the writings of one of the most renowned scholars in Islamic history Ab mid Mu ammad ibn Mu ammad al Ghaz l d 1111 As is well known Im m al Ghaz l nicknamed the proof of Islam contributed immensely to Islamic theology philosophy and Sufism or Islamic mysticism ta awwuf Strikingly enough al Ghaz l also made seminal contributions to the field of economic thought but this contribution has been largely neglected although al Ghaz I dedicated many chapters to what he considered just and Shar a based economic conduct in Muslim society This book aims to analyse and revive al Ghaz l s understudied contribution to economic thought by emphasizing his economic philosophy and its correlation between Shar as moral law and the tradition of ta awwuf as well as to situate his thought within the context of modern economic theories Methodology of Islamic Economics Necmettin Kizilkaya, 2019-11-05 In its pursuit to equip the reader with a basic knowledge of Islamic economics this book divulges the micro foundations of the discipline and highlights the predominant schools of thought that exist in the field It explains in simple terms what Islamic economics entails and how it can be studied as a science in relation to the Holy Quran the Sunnah and the Islamic intellectual tradition based on these two sources The book familiarizes the reader with knowledge of the basic maxims of the discipline It then establishes the arguments that are presented by the proponents of religion based economics specifically Islam and apprises readers about the aforementioned schools as they exist A number of chapters consider the dimension of the dilemmas the discipline is facing and the chronological progress of the field is reviewed hence providing a comprehensive overview of the topic The book deals with the issues about the origins of Islamic economics the basic methodological questions the use of the opportunities offered by figh in the methodological discussions and the main problems arising from the encounter with other cultures and civilizations It offers practical solutions despite the differing schools of thought not unlike the development of conventional Economics where radical differences between Keynesian Classical and Monetarist approaches existed It concludes by incorporating some of the finest works that explain to the reader how Islamic economics may progress as a discipline This guide will provide both students and researchers in Comparative Economic Studies Islamic Economics and Islamic Finance with an essential overview of the field
