Israel in Exile Rainer Albertz, 2003 The period of Israel's Babylonian exile is one of the most enthralling eras of biblical history During this time Israel went through its deepest crisis and the foundation was laid for its most profound renewal The crisis provoked the creation of a wealth of literary works such

as laments prophetic books and historical works all of which Albertz analyzes in detail through the methods of social history composition criticism and redaction criticism In addition Albertz draws on extrabiblical and archaeological evidence to illuminate the historical and social changes that affected the various exilic groups Thirty five years after Peter Ackroyd's classic *Exile and Restoration* Albertz offers a new generation of biblical scholars and students an equally important appraisal of recent scholarship on this period as well as his own innovative and insightful proposals about the social and literary developments that took place and the theological contribution that was made Includes chronological table map of the ancient Near East and passage index Publisher *A History of Heterodox Economics* Frederic Lee, 2009-06-02 Economics is a contested academic discipline between neoclassical economics and a collection of alternative approaches such as Marxism radical economics Institutional economics Post Keynesian economics and others that can collectively be called heterodox economics Because of the dominance of neoclassical economics the existence of the alternative approaches is generally not known This book is concerned with the community history of heterodox economics seen primarily through the eyes of Marxian radical economics and Post Keynesian economics Throughout the 20th century neoclassical economists in conjunction with state and university power have attacked heterodox economists and tried to cleanse them from the academy Professor Lee his groundbreaking new title discusses issues including the contested landscape of American economics in the 1970s the emergence and establishment of Post Keynesian economics in the US and the development of heterodox economics in Britain from 1970 to 1996 **A History of Marxian Economics, Volume I** Michael Charles Howard, John Edward King, 2014-07-14 The first volume of this critical history covers the social political and theoretical forces behind the development of Marxian economics from Marx's death in 1883 until 1929 the year marking the onset of Stalin's revolution from above which subsequently transformed the Soviet Union into a modern superpower During these years Marxists in both Russia and Germany found their economic ideas inextricably linked with practical political problems and treated theory as a guide to action This book systematically examines the important theoretical literature of the period including insightful works by political functionaries outside academia journalists party organizers underground activists and teachers in the labor movement presented here as the primary forgers of Marxian economic thought Beginning with Engels's writings this book analyzes the work of leading Marxist economists in the Second International then concludes with a review of the intellectual movements within the Marxian political economy during the 1920s A second volume treating the period from 1929 to the present will follow Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Exiled in East Germany**

Sebastian Pampuch, 2024-04-22 The presence of Africans in the German Democratic Republic is very rarely thought of in connection with the experience of exile. Instead, Africans in the GDR are predominantly viewed through the prism of educational and labor migration. While such research has undoubtedly produced valuable insights, it often fails to adequately account for the implicit Eurocentrism, methodological nationalism, and anti-communist bias inherent in Western knowledge production. This study offers a different approach. Through biographical portrayal, it unfolds the life stories of African freedom fighters who lived in exile in the GDR and ultimately remained in reunified Germany, with the main case study being a Malawian activist who was expelled from East to West Berlin. Recounting his experiences along with those of some South African exiles, chief among them a former medical worker for the ANC's armed wing, the study ethnographically reconstructs the multiple entanglements between the Second and Third Worlds from the vantage point of the politically displaced within the concrete historical contexts of African decolonization, the struggle against the Malawian Banda dictatorship, and the struggle against South African apartheid.
