The War Against the Professions Judith J. Slater,David M. Callejo Pérez,Stephen M. Fain,2008-01-01 The modern American university has for more than a century been the frontier where those who aspired to social and economic advancement ventured Initially the guides for the aspirants were the professors who having earned the trust of both the general public and practitioners provided the necessary foundation for entry into the profession It was understood that what took place in the academy was an introductory experience as all professions require some form of supervised practical
