The Economic Performance Index (EPI) Mr. Vadim Khramov, Mr. John Ridings Lee, 2013-10-23 Existing economic indicators and indexes assess economic activity but no single indicator measures the general macro economic performance of a nation state or region in a methodologically simple and intuitive way This paper proposes a simple yet informative metric called the Economic Performance Index EPI The EPI represents a step toward clarity by combining data on inflation unemployment government deficit and GDP growth into a single indicator In contrast to other indexes the EPI does not use complicated mathematical procedures but was designed for simplicity making it easier for professionals and laypeople alike to understand and apply to the economy To maximize ease of understanding we adopt a descriptive grading system In addition to a Raw EPI that gives equal weights to its components we construct a Weighted EPI and show that both indexes perform similarly for U S data To demonstrate the validity of the EPI we conduct a review of U S history from 1790 to 2012 We show that the EPI reflects the major events in U S history including wars periods of economic

prosperity and booms along with economic depressions recessions and even panics Furthermore the EPI not only captures official recessions over the past century but also allows for measuring and comparing their relative severity Even though the EPI is simple by its construction we show that its dynamics are similar to those of the Chicago Fed National Activity Index CFNAI and The Conference Board Coincident Economic Index CEI International Economics Dennis R. Slavery and Racism in American Politics, 1776-1876 Michael C. Thomsett, 2020-01-17 From the very inception of the United States few issues have been so divisive and defining as American slavery Even as the U S was founded on principles of liberty independence and freedom slavery advocates and sympathizers positioned themselves in every aspect of American influence Over the centuries the characterization of early American figures legislation and party platforms has been debated The author seeks to clarify often unanswered or ignored questions about notable figures sociopolitical movements and their positions on slavery From early legislation like the Fugitive Slave Law of 1793 to Reconstruction and the rise of the Ku Klux Klan this book explores some of America's most controversial moments Spanning the first American century it offers a detailed chronology of slavery and racism in early U S politics and society *Entrepreneurship, the New Economy and Public Policy* Uwe Cantner, Elias Dinopoulos, Robert F. Lanzillotti, 2005-12-12 Silicon Valley is the most salient example of high tech industrial clusters Public policymakers throughout the world would like to learn the secrets of Silicon Valley in order to build their own high tech economies The existing literature on industrial clusters which traces back to Marshall 1920 focuses on the way in which firms benefit from locating in a cluster it suggests that once a cluster comes into existence it tends to reinforce itself by attracting more firms However a more important question is how to reach this critical mass in the first place In contrast to the literature evidence suggests that entrepreneurs rarely move when they establish high tech start ups Cooper and Folta 2000 This contradicts the notion that location choice analyses lead entrepreneurs to a high tech cluster A high tech industrial cluster such as Silicon Valley is characterized by concentrated entrepreneurship Following Schumpeter we emphasize the fact that the appearance of one or a few entrepreneurs facilitates the appearance of others Schumpeter 1934 We propose an agent based computational model to show how high tech industrial clusters could emerge in a landscape in which no firms existed originally The model is essentially a spatial version of the Nelson Winter model Boundedly rational agents are scattered over an explicitly defined landscape Each agent is endowed with some technology which determines his firm's productivity if he has

one During each period of time an agent with no rm would make a decision as to whether he wants to start one This decision is mostly affected by the behavior of his social contacts who are all his neighbors **From Physics to Econophysics and Back: Methods and Insights** Siew Ann Cheong,Takayuki Mizuno,Wei-Xing Zhou,Gabjin Oh,Anirban Chakraborti,Damien Challet,2022-07-06 *Subject Catalog* Library of Congress,1980 Going Broke Stuart Vyse,2018-08-01 First published in 2008 Stuart Vyse s Going Broke described the epidemic of personal debt that existed in the years leading up to the Great Recession and anticipated the home mortgage crisis that started it Ten years later a fully updated new edition tackles personal savings and debt in the post recession era of economic recovery *The Science of Economic Development and Growth: The Theory of Factor Proportions* C.C.
