Staebus, 2021-12-29 A view of accounting as a practical activity a service function whose value depends on its adaptation to the environment in which it serves is a good place to start this book originally published in 1996 While arts such as music and drama can be said to serve human needs their development presumably cannot be explained primarily by reference to the economic features of their environments By contrast an economic service function such as accounting develops in response to economic features of its environment The objective of this book is to stimulate interest in explaining the
