Ecrits De Logique Philosophique:

Ecrits de logique philosophique Bertrand Russell, 1989 De 1897 1919 Bertrand Russell consacra l'essentiel de son attention philosophique la connaissance mathématique Son ambition était tout la fois d'en clarifier la nature et d'en parfaire la rigueur en dégageant ses véritables fondements Dès 1903 il développa dans les Principes de la mathématique sa thèse du logicisme la totalité de la mathématique pure peut être déduite de quelques principes et concepts logiques Mais ce n'est qu'en 1910 que les Principes Mathematica parvinrent en offrir une démonstration précise et détaillée Au cours du travail philosophique destiné à gager par la voie de l'analyse logique les éléments fondamentaux qui devaient servir de socle à la mathématique Russell découvrit en effet une contradiction qui menait son projet dans son essence même Il y chappa grâce à la théorie de la dénotation et sa théorie des types C'est autour d'elles qu'a été constitué ce recueil Centrée sur le thème de la référence et de l'autoréférence il illustre aussi clairement l'origine mathématique de l'atomisme logique et de la réduction de la connaissance philosophique à l'analyse logique dont Russell s'est fait l'ardent avocat J M R

Le concept de non-contemporanéité dans la philosophie d'Ernst Bloch Aníbal Pineda Canabal,2022-04-26 Ce travail consiste en une analyse génalogique du concept de non-contemporanéité *Ungleichzeitigkeit* dans l'œuvre d'Ernst Bloch depuis ses premiers écrits jusqu'à sa fixation terminologique plus ou moins définitive dans *Heritage of Our Times* 1935. Le livre insiste sur le fait que ce concept est inséparable des intuitions majeures de la philosophie de Bloch et trouve sa racine ultime dans son approche ontologique. Il est non contemporain de soi-même, se cherche continuellement et dans sa quête féconde produit constamment de nouvelles déterminations. Le texte suit la trace des occurrences du terme non-contemporanéité et tente d'en cerner l'évolution dans des domaines tels que la philosophie de l'histoire, la philosophie de l'art, la philosophie de la religion, l'ontologie ou la théorie politique de Bloch. Aníbal Pineda Canabal est docteur en philosophie de l'Université catholique de Louvain. Il occupe la chaire de philosophie sociale à l'Institut de philosophie de l'Université d'Antioquia, Medellín, Colombie. This work consists of a genealogical analysis of the concept of non-contemporaneity *Ungleichzeitigkeit* in Ernst Bloch's work from his first writings to its definitive terminological fixation in *Heritage of Our Times* 1935. It insists that this concept is inseparable from the major intuitions of Bloch's philosophy and finds its roots within his ontological approach being non-contemporaneous to itself continually seeking itself and in its fruitful quest constantly producing new determinations. The book traces the occurrences of the term non-contemporaneity and attempts to identify its evolution in fields such as philosophy of history, philosophy of art, philosophy of religion, ontology or Bloch's political theory. Aníbal Pineda Canabal has received a PhD in philosophy from the Catholic University of Louvain. He holds the chair of social philosophy at the Institute of Philosophy of the University of Antioquia in Medellín, Colombia.
