upscgspedia.com

1. Modern Challenges to Federalism

Climate Change:

- Shared responsibility between Union and states.
- Example: State climate bodies (e.g., Maharashtra's initiatives) work with central policies.

4. Cybersecurity

- Cybercrime transcends territorial boundaries.
- States with higher digital activity face greater risks.
- Union and states need joint policies for data security.

2. Artificial Intelligence (AI)

- AI governance requires harmonized efforts across states and Union.
- Collaboration needed to regulate emerging technologies.

5. Judiciary's Role in Strengthening Federalism

- **Early Interpretations:** Centralization favored in early years (Centripetal Era).
- **Shift to Autonomy:** SR Bommai v. Union of India: Emphasized state powers (Centrifugal Era).

Recent Decisions:

- Governors cannot indefinitely withhold assent to state bills.
- Reinforces representative governance and federal balance.

6. Cooperative vs. Frictional Federalism

Cooperation:

- Union and states work together on shared goals (e.g., climate governance).
- **Friction:** Disagreements drive accountability and better policies. Both collaboration and contestation are vital for federalism's growth.

The Politics of International Economic Law Tomer Broude, Marc L. Busch, Amelia Porges, 2011-03-07 How do politics and international economic law interact with each other Financial crises and shifts in global economic patterns have refocused our attention on how the fingerprints of the visible hand can be seen all over the institutions that underpin the rules of globalization From trade and investment to finance governments are under pressure to enforce resist and rewrite international economic law Lawyers have seldom given enough attention to the influence of politics on law whereas political scientists have had an on again off again fascination with how the law influences relations among states This book leads the way toward filling this interdisciplinary gap through a series of important studies written by leaders in the field on specific problems in international economic relations The book demonstrates a variety of ways in which the international political economic nexus may be researched and understood *Dialogues on Intergovernmental Relations in Federal Systems* Karl Nerenberg, 2011-06-16 In 2005 a Harvard conference honoured Paul Weiler originally from Thunder Bay Ontario who drafted the Notwithstanding Clause of the Canadian Charter of Rights and Freedoms and created the Canada Program at Harvard University Weiler's Notwithstanding Clause saved the floundering constitutional talks that eventually rebuilt Canada upon the Charter of Rights and Freedoms In Part One of this book Weiler lucidly describes his very Canadian legal philosophy spelling out his original intent in drafting the clause Joining Harvard in 1979 he set up a Canada Program that has provided the image of Canada held by many future leaders He reenergized the languishing Mackenzie King Endowment for Canadian Studies and soon Mackenzie King visiting professors were teaching everything from Canadian economics to Canadian aboriginal history After Weiler's address at the 2005 conference past Mackenzie King professors spoke on Canada the second part of this book contains their essays Many discuss constitutional law or politics but discussions range from economic nationalism to water rights Readers interested in what Harvard students learn about Canada will find these essays intriguing Weiler's Canada Program is expansively multidisciplinary and this book is a respectful tribute to both Weiler and to Canada Contributors include Thomas S Axworthy Queen's University Albert Breton Alan Cairns John C Courtney Angela Fraschini John F Helliwell Haifang Huang Richard Johnston Elena Kagan Dean of Harvard Law School Randall Morck University of Alberta Joy Parr Anthony Scott Laurier Turgeon and Paul Weiler **Federalism in a Changing World** Raoul Blindenbacher, Arnold Koller, 2003-04-11 The three principal topics of the conference were federalism and foreign relations federalism decentralization and conflict management in multicultural societies and assignment of responsibilities and fiscal

Local Government and Metropolitan Regions in Federal Countries John Kincaid, Nico Steytler, 2009-07-01 While local government is found in all federal countries its place and role in the governance of these countries varies considerably In some countries local government is considered an essential part of the federal nature of the state and recognized in the constitution as such whereas in others it is simply a creature of the subnational states provinces When referring to local government it is more correct to refer to local governments plural as these institutions come in all shapes and sizes performing widely divergent functions They range from metropolitan municipalities of mega cities to counties small town councils and villages Their focus is either multi purpose in the case of municipalities or single purpose in the case of special districts and school districts What unites these institutions of state is that there is no level of government below them That is also their strength and the source of their democratic claim they are the government closest to the people Political science experts from across the globe examine local governments by drawing on case studies of Australia Austria Brazil Canada Germany India Mexico Nigeria Switzerland Spain South Africa and United States Contributors include Martin Burgi Ruhr University Bochum Luis Cesar de Queiroz Ribeiro Federal University of Rio de Janeiro Jaap de Visser University of Western Cape Habu Galadima University of Jos Sol Garson Federal University of Rio de Janeiro Boris Graizbord National College of Mexico Rakesh Hooja HCM Rajasthan State Institute of Public Administration India Andreas Kiefer European Affairs Office of the Land Salzburg Andreas Ladner Swiss Graduate School of Public Administration George Mathew Institute of Social Sciences India Mike Pagano University of Illinois at Chicago Graham Sansom University of Technology Sydney Franz Schausberger Salzburg University Nico Steytler University of Western Cape Francisco Velasco Caballero Universidad Autónoma de Madrid and Robert Young University of Western Ontario
