Federalism And Political Restructuring In Nigeria:

Federalism and Political Restructuring in Nigeria Kunle Amuwo, 1998 Twenty essays by four generations of Nigerian scholars are included in this volume the first to examine the historical political economic and comparative dimensions of attempts by the military to restructure the Nigerian federation Evidence is accumulated in support of the book's central thesis that autocratic rule is antipathetic to the sustenance of genuine federal practice and that federal restructuring initiated under the tight control of repressive governments cannot but lead to a situation in which federalism is assaulted if not dismantled It is argued that in such a context the vending of a federal doctrine becomes more or less an exercise in the propagation of false consciousness in the service of power portraying a picture of divided power to hide the reality of undivided power

Governance and Politics in Post-Military Nigeria S. Adejumobi, 2010-12-20 This edited collection is the product of a National Research Working Group NRWG established by Said Adejumobi and supported by the Open Society Initiative for West Africa OSIWA It analyzes the progress made in Nigeria since the return to democratic rule in 1999 and the prospects of democratic consolidation in the country

Federalism and Separatist Agitations in Nigeria Godwin Onu, Al Chukwuma Okoli, 2024-09-17 This book offers a reflection on the tension between federalism and separatist agitations in Nigeria The persistent clamour for restructuring as well as the widespread separatist agitations in the country depicts a moral expression It does so against the backdrop of the prevailing waves of sub nationalist tendencies in different parts of the country including the threat of secession in the South East Considered across the variegated themes that form the thrust of the books are select practical and theoretical insights that are relevant in repositioning the federalist praxis in Nigeria in the interest of national unity and stability The book will come handy to the communities of scholars policy makers and practitioners who are involved in the earnest search for an answer to the federalism dimension of Nigeria's nagging National Question Students and the general reading populace will find the contents of the book quite insightful

Nigeria's Democratic Experience in the Fourth Republic Since 1999 A. Sat Obiyan, Kunle Amuwo, 2013 This book addresses various issues that have arisen in the practice of democracy in Nigeria since 1999 focusing on the Obasanjo years 1999-2007 Nigeria's return to democratic rule has been marked by developments such as the implementation of reforms to address perceived economic problems and corruption The introduction of democracy in the country has also witnessed many challenges including the difficult relationship between some political chief executives and their deputies intriguing intergovernmental relations the rise and resurgence of sub national groups that pose serious threat to the hegemony of the state precarious inter ethnic inter sectional relations attempts to perpetuate the tenure of chief executives through constitutional amendments and developments in electoral politics and conflicts The book provides incisive analysis into these issues

Governance in Nigeria post-1999: Revisiting the democratic 'new dawn' of the Fourth Republic Edited by Romola Adeola & Ademola Oluborode Jegede, 2020-03-06 At the start of Nigeria's Fourth Republic on 29 May 1999 there was great

optimism as to the emergence of a new democratic future representing a significant break from the political undulations of the past Two decades and four presidential epochs later there is a prevalent question as to how well Nigeria has fared in governance and human rights post 1999 This book revisits the democratic new dawn of the Fourth Republic discussing pertinent matters integral to Nigeria s democratic future post 2019 **The Political Economy of Colonialism and Nation-Building in Nigeria** Samuel Ojo Oloruntoba,2021-09-28 This book examines the ways in which colonialism continues to define the political economy of Nigeria sixty years after gaining political independence from the British It also establishes a link between colonialism and the continued agitation for restructuring the political arrangement of the country The contributions offer various perspectives on how the forceful amalgamation of disparate units and diverse nationalities have undermined the realization of the development potential of Nigeria The book is divided into two parts The first part interrogates the political economy of colonialism and the implications of this on economic development in contemporary Nigeria The second part examines nation building governance and development in a postcolonial state The failure of the postcolonial political elites to ensure inclusive governance has continued to foster centrifugal and centripetal forces that question the legitimacy of the state The forces have deepened calls for secession accentuated conflicts and predispose the country to possible disintegration A new government approach is required that would ensure equal representation access to power and equitable distribution of resources **The Changing Forms of Identity Politics in Nigeria Under Economic Adjustment** Cyril I. Obi,2001 The Niger delta region of Nigeria which is at the heart of the country s oil industry has a long history of struggles for self determination dating back to the early years of the 20th century In the 1980s and 1990s these struggles unfolding as they did within the context of military authoritarianism and structural adjustment took the form of widespread agitation for greater control by local communities of the revenues accruing to the Nigerian state from exploration and extraction of oil This study attempts to capture the transformations in ethnic minority identity politics in the oil producing areas of the Niger delta In doing this attention is simultaneously drawn to the factors informing the shift from peaceful agitation to violent protest as well as the dynamic of decay and renewal in the various ethnic minority movements that are active in the delta It is suggested that part of the solution to the crisis in the delta will involve not only a thorough going restructuring of the Nigerian state but also the re orientation of the mode of operation of the giant oil multinationals in order to make them both more sensitive and accountable to the local communities BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Nationalism and Intra-State Conflicts in the Postcolonial World** Fonkem Achankeng,2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated intellectual activists and policy makers from Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one

nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other human groups this book constructs an alternative conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles

The Coming African Hour Luc Sindjoun, 2010 The Coming African hour is not a slogan nor wishful thinking It is a conclusion that derives from an insightful analysis of the current situation pertaining on the continent Several African scholars coming from different regions and academic backgrounds are elaborating ideas and arguments in order to explain the constraints and to illustrate the opportunities The result of that scientific gathering is a book that synthesizes and renews the reflections on development What is at stake is not to be pessimistic or optimistic about Africa The epistemological challenge is to understand what is going on By focusing on converging and diverging African realities on the issues of state civil society gender and development strategies the authors of the book show under which conditions the African hour is coming At that level the commitment for political science meets the commitment for Africa The main success of this book is to overcome the preconceived ideas and self fulfilling prophecies about Africa Here the analysis avoids the trap of indulgence then hope is based on truth Consequently the coming African hour is not inescapable it is as analyzed a possibility that its achievement depends on institutional human political social and economic factors

the enslavement colonization and neo colonization of Africans Nkrumah was concerned by other divisions as well specifically those created by time history nature and above all Africans themselves such as ethnic racial and religious discrimination classism sexism and ageism as well as atavistic and backward traditional practices including tribalism and patriarchy Africa's Many Divides and Africa's Future Pursuing Nkrumah's Vision of Pan Africanism in an Era of Globalization is a collection of papers presented at the first and second Kwame Nkrumah International Conferences This volume contextualizes Nkrumah's pan Africanist agenda within the neo liberal global project and against the backdrop of the current global economic and political ferment

Growing Apart Peter Lewis, 2009-12-11 *Growing Apart* is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America's best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution *Growing Apart* is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book's valuable insights Michael L Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and yet with remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor Bulletin of Indonesian Economic Studies This is a highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis's book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies
