Reyes, 2015-01-28 I m pretty sure you re familiar with the adage A minute on the lips forever on the hips That quote always kept running in my mind every time I savored and enjoyed a delicious meal To rub out the feelings of guilt I always made it a point to burn most of the calories I consumed by going to the gym and follow a detoxing program Don t get me wrong there s nothing wrong with eating per se However it s quite scary to think that most foods that are served to us every day are foods that are laden with fat salt sugar preservatives and are oftentimes lacking in vitamins and nutrients that are essential to the body s needs not to mention the pesticides that are sprayed on vegetables and fruits The sad truth is that the food and agricultural industry were able to manipulate the taste and look of food by incorporating additives and flavor enhancers to make it more appealing to the public However consuming these enhanced foods everyday might pose dangers to our health Not having the conscious effort of eating healthy food and having poor eating habits a diet that contains too much cholesterol trans fat saturated fats and sugar could cause deadly diseases In fact according to statistics the top leading causes of death worldwide are non communicable diseases which are one way or the other related to unhealthy eating Table of Contents Introduction Chapter 1 Berries Chapter 2 Chia Seeds Chapter 3 Beans Chapter 4 Quinoa Chapter 5 Broccoli Chapter 6 Spinach Chapter 7 Avocado Chapter 8 Nuts Chapter 9 Orange and Lime Chapter 10 Fish Chapter 11 21 Superfood Recipes Conclusion Unlock the Science of Longevity and Vitality: How to Stay Healthy, Energized, and Perform at Your Best Silas
