Ross, 2015-02-26 Women Poetry and Politics in Seventeenth Century Britain offers a new account of women s engagement in the poetic and political cultures of seventeenth century England and Scotland based on poetry that was produced and circulated in manuscript Katherine Philips is often regarded as the first in a cluster of women writers including Margaret Cavendish and Aphra Behn who were political secular literary print published and renowned Sarah C E Ross explores a new corpus of political poetry by women offering detailed readings of Elizabeth Melville Anne Southwell Jane Cavendish Hester Pulter and Lucy Hutchinson and making the compelling case that female political poetics emerge out of social and religious poetic modes and out of manuscript based authorial practices Situating each writer in her political and intellectual contexts from early covenanting Scotland to Restoration England this volume explores women s political articulation in the devotional lyric biblical verse paraphrase occasional verse elegy and emblem For women excluded from the public political sphere these rhetorically modest genres and the figural language of poetry offered vital modes of political expression and women of diverse affiliations use religious and social poetics the tropes of family and household and the genres of occasionality that proliferated in manuscript culture to imagine the state Attending also to the transmission and reception of women s poetry in networks of varying reach Sarah C E Ross reveals continuities and evolutions in women s relationship to politics and poetry and identifies a female tradition of politicised poetry in manuscript spanning the decades before during and after the Civil Wars

The Complete Poetry of Robert Herrick Tom Cain, Ruth Connolly, 2013-11-21 Robert Herrick has long been one of the best loved of English lyric poets Known through the centuries as the author of Gather ye rosebuds he also wrote as this new edition shows hundreds of songs epigrams and longer poems equally worthy of attention Volume I of this new edition of Herrick s work contains Hesperides Herrick s only published collection As well as the commentary on Hesperides volume II contains the fifty nine surviving manuscript poems which can be firmly attributed to Herrick and on which his reputation was based before 1648 It is an ambitious and original attempt to recover for the first time the history of Herrick s corpus of manuscript poetry and to identify how his poems circulated and who his copyists and readers were By establishing the type of sources to which they had access and the nature and quality of the poems these

sources contained and through the histories of transmission that accompany every poem this volume offers a significant body of evidence that deepens our critical understanding not only of Herrick's poetry but of the mechanics of scribal publication and the culture of reading writing and performing poetry and music in early modern England Where as is often the case a musical setting survives this is also printed along with a commentary on the setting in a form which is designed to encourage the performance of the lyrics      *The Elizabethan Country House Entertainment* Elizabeth Zeman Kolkovich,2016-07-04 This book analyses how country house entertainments facilitated political negotiations rethought gender roles and crafted identities      *The American House Poem, 1945-2021* Walt Hunter,2024-01-11 This book explores the politics of American housing from the perspective of poets Hunter follows the emergence of an American house poem which offers uniquely vivid expressions of the expansion of homeownership as a core tenet of American prosperity and democracy      **God Speed the Plough** Andrew McRae,2002-09-12 An interdisciplinary analysis of the history and literature of the land in early modern England      Country House Discourse in Early Modern England Kari Boyd McBride,2017-07-05 McBride provides new perspectives on the roles of the country house discourse she identifies linking it with a number of larger historical shifts during the time period Her interdisciplinary focus allows her to bring together a wide range of material including architecture poetry oil painting economic and social history and proscriptive literature in order to examine their complex interrelationship revealing connections unexplored in more narrowly focused studies      Nietzsche and Modern Times Laurence Lampert,1993-01-01 This major work by Laurence Lampert provides a new interpretation of modern philosophy by developing Nietzsche's view that genuine philosophers set out to determine the direction of culture through their ideas and that they conceal the radical nature of their thought by their esoteric style From this Nietzschean perspective Francis Bacon and Ren Descartes can be considered the founders of modernity Lampert argues that Bacon's positive claims for science aimed to destroy the dominance of Christianity Descartes continued Bacon's radical program while providing it with the mathematical physics required for its success Far from being solely an epistemological and metaphysical thinker says Lampert Descartes was a master writer whose comic ridicule helped bring down the Church to which he paid lip service Both Bacon and Descartes used the Platonic art of dissimulation to achieve their ends by making their revolutionary aims appear compatible with Christianity Once we recognize Bacon and Descartes as legislators of modern times in a specifically Nietzschean sense we can also see Nietzsche in a new way as the first thinker to have understood modern times and transcended it in a postmodern worldview According to Lampert Nietzsche provides a new foundation for culture a joyous science that reveals the grandeur and purposeless play of the cosmic whole and yet avoids enervating despair or destructive dogmatic belief      **Curiosities and Texts** Marjorie Swann,2010-11-24 A craze for collecting swept England during the sixteenth and seventeenth centuries Aristocrats and middling sort men alike crammed their homes full of a bewildering variety of physical objects antique coins scientific instruments minerals mummified corpses zoological specimens plants

ethnographic objects from Asia and the Americas statues portraits Why were these bizarre jumbles of artifacts so popular In *Curiosities and Texts* Marjorie Swann demonstrates that collections of physical objects were central to early modern English literature and culture Swann examines the famous collection of rarities assembled by the Tradescant family the development of English natural history narrative catalogs of English landscape features that began to appear in the Tudor and Stuart periods the writings of Ben Jonson and Robert Herrick and the foundation of the British Museum Through this wide ranging series of case studies Swann addresses two important questions How was the collection which was understood as a form of cultural capital appropriated in early modern England to construct new social selves and modes of subjectivity And how did literary texts both as material objects and as vehicles of representation participate in the process of negotiating the cultural significance of collectors and collecting Crafting her unique argument with a balance of detail and insight Swann sheds new light on material culture s relationship to literature social authority and personal identity

**The Invention of English Criticism** Michael Gavin, 2015-05-05 Early literary criticism was undisciplined Unlike the staid essays and monographs of later academic scholarship English criticism first appeared in the contentious world of the London theater dramatists and other poets argued about their craft in contending prefaces and dedications and their disputes spilled into the public sphere in pamphlet wars mock epics lampoons and even novels Across these forms criticism was personal political and unconcerned with analysis for its own sake Yet this unruly discourse laid the groundwork both for modern literary criticism and for the discipline of literary studies *The Invention of English Criticism* explores the earliest uses of criticism and the attempts by some to convert a field of literary debate into an archive of useful knowledge Criticism s undisciplined past thus illuminates its contested ambivalent and never fully disciplined present

**Reimagining Constancy in the English Civil Wars** Rachel Zhang, 2024-09-30 *Reimagining Constancy in the English Civil Wars* exposes writers reliance on conservative language during one of the most radical periods of English history In case studies of both familiar genres country house poem love lyric epic and understudied ones emblem book prose romance it shows how the conservative language of constancy was used to justify opposing positions in the period s most pressing controversies including monarchical rule ecclesiastical order Catholicism and England s relationship to the wider world At the same time writers like John Milton Andrew Marvell Hester Pultrey Percy Herbert and others establish the virtue s importance to literary tradition as they use constancy to retain yet reimagine inherited formal structures and strategies This book thus uses women s writing and non canonical texts to highlight cross factional conservatism and international investment in what scholars often describe as the English Revolution

**Hospitality and the Transatlantic Imagination, 1815-1835** Cynthia Schoolar Williams, 2014-05-13 *Hospitality and the Transatlantic Imagination 1815 1835* argues that a select group of late Romantic English and American writers disrupted national tropes by reclaiming their countries shared historical identification with hospitality In doing so they reimagined the spaces of encounter the city the coast of England and the Atlantic itself

**Speaking to You** Natalie Pollard, 2012-08-30

Speaking to You explores the work of four important poets writing post 1960 Don Paterson Geoffrey Hill W S Graham and C H Sisson in order to show how contemporary British poetry's creative handling of addresses to you are key in its interactions with readers critics lovers editors fellow poets and deceased forebears Towers of Myth and Stone Deborah

Fleming, 2015-09-15 In this critical study of the influence of W B Yeats 1865 1939 on the poetry and drama of Robinson Jeffers 1887 1962 Deborah Fleming examines similarities in imagery landscape belief in eternal recurrence use of myth distrust of rationalism and dedication to tradition Although Yeats's and Jeffers's styles differed widely Towers of Myth and Stone examines how the two men shared a vision of modernity rejected contemporary values in favor of traditions some of their own making and created poetry that sought to change those values Jeffers's well known opposition to modernist poetry forced him for decades to the margins of critical appraisal where he was seen as an eccentric without aesthetic content Yet both Yeats and Jeffers formulated social and poetic philosophies that continue to find relevance in critical and cultural theory Engaging Yeats's work enabled Jeffers to develop a related though distinct sense of what themes and subject matter were best suited for poetic endeavor His connection to Yeats helps to explain the nature of Jeffers's poetry even as it helps to clarify Yeats's influence on those who followed him Moreover Fleming argues Jeffers's interest in Yeats suggests that critics misunderstand Jeffers if they take his rejection of modernism as exemplified by Wallace Stevens William Carlos Williams and Ezra Pound as a rejection of contemporary poetry or the process by which modern poetry came into being **Imagining**

**Early Modern Histories** Elizabeth Ketner, Allison Kavey, 2016-07-15 Interpreting textual mediations of history in early modernity this volume adds nuance to our understanding of the contributions fiction and fictionalizing make to the shape and texture of versions of and debates about history during that period Geographically the scope of the essays extends beyond Europe and England to include Asia and Africa Contributors take a number of different approaches to understand the relationship between history fiction and broader themes in early modern culture They analyze the ways fiction writers use historical sources fictional texts translate ideas about the past into a vernacular accessible to broad audiences fictional depictions and interpretations shape historical action and the ways in which nonfictional texts and accounts were given fictional histories of their own intentionally or not through transmission and interpretation By combining the already contested idea of fiction with performance action and ideas ideology this collection provides a more thorough consideration of fictional histories in the early modern period It also covers more than two centuries of primary material providing a longer perspective on the changing and complex role of history in forming early modern national gendered and cultural identities

Literature and Architecture in Early Modern England Anne M. Myers, 2013-01-01 Our built environment inspires writers to reflect on the human experience discover its history or make it up Buildings tell stories Castles country homes churches and monasteries are documents of the people who built them owned them lived and died in them inherited and saved or destroyed them and recorded their histories Literature and Architecture in Early Modern England examines the relationship

between sixteenth and seventeenth century architectural and literary works By becoming more sensitive to the narrative functions of architecture Anne M Myers argues we begin to understand how a range of writers viewed and made use of the material built environment that surrounded the production of early modern texts in England Scholars have long found themselves in the position of excusing or explaining England's failure to achieve the equivalent of the Italian Renaissance in the visual arts Myers proposes that architecture inspired an unusual amount of historiographic and literary production including poetry drama architectural treatises and diaries Works by William Camden Henry Wotton Ben Jonson Andrew Marvell George Herbert Anne Clifford and John Evelyn when considered as a group are texts that overturn the engrained critical notion that a Protestant fear of idolatry sentenced the visual arts and architecture in England to a state of suspicion and neglect

The Royalist Republic Helmer J. Helmers, 2015-01-08 In 1649 Charles I was executed before Whitehall Palace in London This event had a major impact not only in the British Isles but also on the continent where British exiles diplomats and agents waged propaganda battles to conquer the minds of foreign audiences In the Dutch Republic above all their efforts had a significant impact on public opinion and succeeded in triggering violent debate This is the first book length study devoted to the continental backlash of the English Civil Wars Interdisciplinary in scope and drawing on a wide range of sources from pamphlets to paintings Helmer Helmers shows how the royalist cause managed to triumph in one of the most unlikely places in early modern Europe In doing so Helmers transforms our understanding of both British and Dutch political culture and provides new contexts for major literary works by Milton Marvell Huygens and many others
