Controversies In Criminal Law Michael J. Gorr,2019-04-02 When philosophers have turned their attention to criminal law they have tended to emphasize problems about the criminalization of acts and the justification for the punishment of those who commit such acts But there has been a recent wave of significant and exciting philosophical work on issues surrounding two other topics in criminal law Given the performance of a criminal act what establishes criminal And what should the state be allowed to use in trying to establish liability In this carefully edited volume Michael J Gorr and Sterling Harwood present a generous selection of papers representing the best of this new work Avoiding overly abstract pieces in favor of essays that highlight both the philosophical questions and what actually happens on the street and in the courtroom they have produced a book that is accessible and relevant to the concerns of students Controversies in Criminal law is an innovative and useful contribution to the teaching of philosophy of law and the foundations of criminal justice It will be widely used in philosophy departments law schools and schools of criminal justice **The Ordering of Justice** Patricia M. Baranek,Richard V.

Ericson,1982-01-01 From the point of his arrest through to the final disposition of his case the authors follow the accused as he proceeds through the criminal control system They draw a picture of one who is dependent upon the orders and decisions of the police crown attorney defence lawyer and judge and not a defendant with significant autonomy Substudies conducted under a program of the Centre of Criminology provide empirical material on patrol police detectives crown attorneys and defence lawyers and are complemented by the authors own interviews of accused persons They produce a unique picture of the person who stands accused unlike the official agents who are regular and experienced participants in the criminal process the accused is a one shot player As a dependant he is subject to the orders and decisions of the official criminal control agents he fails to exercise what appear externally as his formal rights because the apparent costs exceed the advantages He complies with police searches fails to remain silent fails to call a third party gives a statement often does not obtain a lawyer routinely accepts his lawyer s advice rarely demands a trial often remains silent in court and very rarely considers an appeal The ordering which the accused meets out of court is reproduced in the public forum of the court Through the display of formal legal rationality there and in the belief that matters could have been a lot worse he experiences the majesty justice and mercy of the criminal process and in turn accords legitimacy to the actions taken against him The authors discuss prospects for changing the criminal process and conclude that the range of reforms that have been advocated and sometimes implemented does not lead to an alteration of the accused s position within the ordering of justice because the system is not truly adversarial Rather it serves the interests of the state in ordering the population as well as professional interests of those who man the system Courts Cassia Spohn,Craig Hemmens,2009 Courts A Text Reader

provides the best of both worlds authored text Sections with carefully selected accompanying Readings that illustrate the questions and controversies legal scholars and court researchers are investigating in the 21st century The articles from leading journals in criminology and criminal justice reflect both classic studies of the criminal court system and state of the art research and often have a policy perspective that makes them more applied less theoretical and more interesting to both undergraduate and graduate students This unique Text Reader is primarily intended for undergraduate and graduate courses on the criminal court system and or judicial processes

BOOK JACKET The Culture of Control David Garland,2024-05-31

The past 30 years have seen vast changes in our attitudes toward crime More and more of us live in gated communities prison populations have skyrocketed and issues such as racial profiling community policing and zero tolerance policies dominate the headlines How is it that our response to crime and our sense of criminal justice has come to be so dramatically reconfigured David Garland charts the changes in crime and criminal justice in America and Britain over the past twenty five years showing how they have been shaped by two underlying social forces the distinctive social organization of late modernity and the neoconservative politics that came to dominate the United States and the United Kingdom in the 1980s Garland explains how the new policies of crime and punishment welfare and security and the changing class race and gender relations that underpin them are linked to the fundamental problems of governing contemporary societies as states corporations and private citizens grapple with a volatile economy and a culture that combines expanded personal freedom with relaxed social controls It is the risky unfixed character of modern life that underlies our accelerating concern with control and crime control in particular It is not just crime that has changed society has changed as well and this transformation has reshaped criminological thought public policy and the cultural meaning of crime and criminals David Garland s *The Culture of Control* offers a brilliant guide to this process and its still reverberating consequences

Public Prosecutors in the United States and Europe Gwladys Gilliéron,2014-04-14 This research examines the role of prosecutors within the United States and in Switzerland and is completed by an overview of the prosecution institutions in France and Germany The research recognizes that despite seemingly very different legal traditions and structures prosecutors in these systems are similar enough that each system might learn from the others Drawing upon the experiences of other nations this research proposes solutions to the problems identified in connection with the position and powers of public prosecutors in the United States Furthermore it outlines the problems related to the increase of prosecutorial power and the lessons the European criminal justice systems surveyed can draw from the experience in the US In terms of methodology this research not only considers formal legal provisions but also systematic structural factors academic literature and statistics revealing how the law and governing principles actually work in practice

The Prosecution of Felony Arrests ,1981 Managing the Pace of Justice ,1981 **Decision Making in Criminal Justice** Michael R. Gottfredson,Don M. Gottfredson,2013-11-11 The study of decisions in the criminal justice process provides a useful focus for

the examination of many fundamental aspects of criminal justice. These decisions are not always highly visible. They are made or dinarily within wide areas of discretion. The aims of the decisions are not always clear and indeed the principal objectives of these decisions are often the subject of much debate. Usually they are not guided by explicit decision policies. Often the participants are unable to verbalize the basis for the selection of decision alternatives. Adequate information for the decisions is usually unavailable. Rarely can the decisions be demonstrated to be rational. By a rational decision we mean that decision among those possible for the decisionmaker which in the light of the information available maximizes the probability of the achievement of the purpose of the decisionmaker in that specific and particular case. Wilkins 1974a 70 also 1969. This definition which stems from statistical decision theory points to three fundamental characteristics of decisions. First it is assumed that a choice of possible decisions or more precisely of possible alternatives is available. If only one choice is possible there is no decision problem and the question of rationality does not arise. Usually of course there will be a choice even if the alternative is to decide not to decide a choice that of course often has profound consequences.

The ^AMoral Order of a Suburb M. P. Baumgartner, 1989-01-26. Surrounding all major cities in the United States are numerous smaller communities collectively known as suburbia. The most popular place of residence in America the suburbs are peaceful and tranquil environments where civility prevails and disturbances of the peace are uncommon. Drawing on research observation and hundreds of in depth interviews conducted during a twelve month study of an affluent New York City suburb M P Baumgartner reveals that the apparent serenity of the suburb is caused by the avoidance of open conflict. She contends that although nonviolence nonconfrontation and tolerance produce a superficial social harmony these behaviors arise from disintegrative tendencies in modern culture transience fragmentation weak family and communal ties isolation and indifference conditions customarily viewed as sources of disorder antagonism and violence. A kind of moral minimalism pervades the suburbs a disorganized social order that with the suburbs rapid growth in America promises to be the moral order of the future. A valuable contribution to the literature on social control this study of conflict management should attract general readers and scholars alike.

Justice for Victims and Offenders Martin Wright, 1996-05-31. This work charts issues and developments affecting victims of crime from the earliest times to the modern day including in particular reparation compensation and the evolution of restorative justice. It takes account of the changes in the 1990s.

Hearings, Reports and Prints of the Senate Committee on the Judiciary United States. Congress. Senate. Committee on the Judiciary, 1978.

Victims and Helpers, 1982 **Quantity and Quality in Economic Research** Theologos Homer Bonitsis, Roy Chamberlain Brown, 2019-01-04. First published in 1997 this volume responded to a current national concern with quality control. Part 1 addresses issues including the US trade deficit international lending to Brazil and the traditional theory of international finance. Part 2 explores topics such as the history of statistics in the West and former East and the haphazard axiomatic methodological basis of traditional econometrics. Finally part 3 consists of 7 papers on applied economics and

finance including predicting the success of takeover bids and an examination of the economic determinants of juvenile crime in New York City

Domestic Violence Eva Schlessinger Buzawa, Carl G. Buzawa, 2003 This edition continues to address the basic questions surrounding domestic violence Virtually all chapters have been rewritten and material has been added on changes in prosecution criteria and on different methods to protect the victim

Homicide, Gender and Responsibility Kate Fitz-Gibbon, Sandra Walklate, 2016-03-22 The crime of homicide has long animated academic debate community concern and political attention The discussion has often centered on the perceived inadequacy of legal responses to homicide questions of culpability and divergent representations of victims and offenders Within this notions of gender responsibility and justice are pivotal This edited collection builds on existing scholarship by examining these concerns not only in the context of the private world of domestic murder but also in the more public world of the state the corporation war and genocide In so doing this book draws from key frameworks of criminological thought legal analysis and empirical evidence to critically examine the relationship between homicide gender and responsibility Bringing together leading international criminology and legal scholars this collection provides a unique contribution to the academic and policy engagement with what is more often than not an ordinary and mundane crime Analysing the crime in a variety of different social contexts alongside an in depth and critical analysis of the interconnections between the ordinary act of lethal violence gender and notions of responsibility this book will be of interest to students scholars and policymakers working in criminology and socio legal studies

The Criminology of Criminal Law William Laufer, 2017-07-05 The Criminology of Criminal Law considers the relation between criminal law and theories of crime criminality and justice This book discusses a wide range of topics including the way in which white collar crime is defined new perspectives on stranger violence the reasons why criminologists have neglected the study of genocide the idea of boundary crossing in the control of deviance the relation between punishment and social solidarity the connection between the notion of justice and modern sentencing theory the social reaction to treason and the association between politics and punitiveness Contributors include Bonnie Berry Don Gottfredson David F Greenberg Marc Riedel Jason Rourke Kip Schlegel Vered Vinitzky Seroussi Leslie T Wilkins Marvin E Wolfgang and Richard A Wright The Criminology of Criminal Law concludes with an analysis of the results of a study on the most cited scholars in the Advances in Criminological Theory series This work will be beneficial to criminologists sociologists and scholars of legal studies Advances in Criminological Theory is the first series exclusively dedicated to the dissemination of original work on criminological theory It was created to overcome the neglect of theory construction and validation in existing criminological publications

courts and corrections *Rape Law Reform* Cassia Spohn, Julie Horney, 2013-11-27 This book evolved from our interest in rape as feminists and as social scientists. As feminists we were concerned about the treatment of rape victims and the attrition in rape cases under traditional rape law and we welcomed legal reforms designed to improve the situation. As social scientists we wondered about the efficacy of legal changes aimed at an inherently resistant court system. We also were curious about the lack of studies examining the impact of these changes; we were particularly surprised to find that no one had attempted to analyze the impact of the reforms in more than one jurisdiction. Convinced that untangling the effects of the reforms from the effects of contextual factors required a multijurisdictional study, we decided to undertake the project. We quickly discovered that evaluating rape law reform in several jurisdictions would be no easy task. We had decided that such an evaluation would require monthly data on the outcome of rape cases before and after the reforms were implemented as well as qualitative data on the attitudes of criminal justice officials toward the reforms. Because states do not generate monthly data on case outcomes, we would have to collect the data ourselves from court records maintained by individual jurisdictions. To obtain an adequate number of cases for the time series analysis, we would have to select our sites from large urban jurisdictions scattered throughout the United States.
