Felton & Fowler's More Best, Worst, and Most Unusual Bruce Felton, Mark Fowler, 1976 **Felton and Fowler's Best, Worst, and Most Unusual** Bruce Felton, Mark Fowler, 1976-10-01 *Felton & Fowler's Best, Worst, and Most Unusual* Bruce Felton, Mark Fowler, 1985-03 **Felton & Fowler's Famous Americans You Never Knew Existed** Bruce Felton, Mark Fowler, 1979 **1,001 Facts that Will Scare the S#*t Out of You** Cary McNeal, 2010-03-18

Fact Chocolate contains the alkaloid theobromine which in high doses can be toxic to humans and in even small amounts can kill dogs parrots horses and cats This means that despite its name the Kit Kat candy bar is not a recommended snack for your kitty cat I wonder how many cats have died because of this confusion Fact The most germ laden place on your toilet isn't the seat or even the bowl it's the handle The solution Don't flush Let the next guy worry about it There are just the facts and then there are just the facts that will frighten the bejeezus out of you And thanks to this little gem of a bathroom book you'll never look at the world the same way again without ever dry heaving a little bit From the sneaky fish that can swim up our genitals to the E coli bacteria lurking in the very water we drink disturbing phenomena are everywhere we turn Educational entertaining and undeniably horrifying this book isn't guaranteed to help you um go to the bathroom but it's certain to make your time there more informed

A Critical History of Hypnotism Saul Marc Rosenfeld, 2008-08-28 Despite more than two centuries of having tacitly recognized its enormous potential utility the phenomenon of hypnosis has always been commonly regarded with outright Fear and Loathing How is it possible that something as beneficial to humanity as hypnosis ever came to be viewed in such a horrible manner I intend to show that the history of hypnotism provides us with the clue to this unfortunate legacy and I've neither spared anyone's feelings nor pulled any punches in this quest to reveal the shamefully appalling level of incompetence and ignorance that has characterized the mis use of this phenomenon since its discovery by Mesmer more than two hundred years ago

Verification and Validation of Complex Systems: Human Factors Issues John A. Wise, V. David Hopkin, Paul Stager, 2013-06-29 Despite its increasing importance the verification and validation of the human machine interface is perhaps the most overlooked aspect of system development Although much has been written about the design and development process very little organized information is available on how to verify and validate highly complex and highly coupled dynamic systems Inability to evaluate such systems adequately may become the limiting factor in our ability to employ systems that our technology and knowledge allow us to design This volume based on a NATO Advanced Science Institute held in 1992 is designed to provide guidance for the verification and validation of all highly complex and coupled systems Air traffic control is used as an example to ensure that the theory is described in terms that will allow its implementation but the results can be applied to all complex and coupled systems The volume presents the knowledge and theory in a format that will allow readers from a wide variety of backgrounds to apply it to the systems for which they are

responsible The emphasis is on domains where significant advances have been made in the methods of identifying potential problems and in new testing methods and tools Also emphasized are techniques to identify the assumptions on which a system is built and to spot their weaknesses

The One Year Book of Did You Know Devotions for Kids Nancy S. Hill, 2002 A collection of interesting and sometimes silly facts that relates to a Bible verse

Essential Shit - Facts That Will Scare the Total Shit Out of You! Cary McNeal, 2012-04-01 Disturbing phenomena are everywhere we turn and this book is jam packed with facts that will truly horrify you but undoubtedly entertain and educate at the same time From the ugly truth about food and drink to the human body exposed to the beastly tales of creatures that outnumber us no subject is off limits Did you know there is a sneaky fish that can swim up your genitals Or that the average human loses 85 000 brain cells each day If not read on there s plenty more where that came from
