Female Imagination And Modernist Aesthetic:

The Female Imagination and the Modernist Aesthetic Sandra M. Gilbert, Susan Gubar, 1986 First Published in 1986 Routledge is an imprint of Taylor Francis an informa company **The Female Imagination and the Modernist Aesthetic** Sandra M. Gilbert, Susan Gubar, 1986 *Rich and Strange* Marianne DeKoven, 2021-07-13 Like the products of the sea change described in Ariel's song in The Tempest modernist writing is rich and strange Its greatness lies in its density and its dislocations which have until now been viewed as a repudiation of and an alternative to the cultural implications of turn of the century political radicalism Marianne DeKoven argues powerfully to the contrary maintaining that modernist form evolved precisely as a means of representing the terrifying appeal of movements such as socialism and feminism Organized around pairs and groups of female and male signed texts the book reveals the gender inflected ambivalence of modernist writers Male modernists desiring utter change nevertheless feared the loss of hegemony it might entail while female modernists feared punishment for desiring such change With water imagery as a focus throughout DeKoven provides extensive new readings of canonical modernist texts and of works in the feminist and African American canons not previously considered modernist Building on insights of Luce Irigaray Klaus Theweleit and Jacques Derrida she finds in modernism a paradigm of unresolved contradiction that enacts in the realm of form an alternative to patriarchal gender relations

these women's love poetry Placing their work in the context of subcultures nested within national culture Nina Miller explores the tensions that make this literature so rewarding for contemporary readers A poetry of intimate expression it also functioned powerfully as public assertion The writers themselves were high profile embodiments of femininity the local representatives of New Womanhood within their male centered subcultural worlds Making Love Modern captures the literary lives of these women as well as the complex subcultures they inhabited Harlem the Village and glamorous Midtown In the end the book is as much a study of modernist New York as of women's love poetry during modernism

Prospects and Impediments of Feminist Monolithism Rosalyn Mutia, 2021-02-01 This book reads mid twentieth century poetry by British American and Sub Saharan women to postulate the desirability and possibility of feminist monolithism It shows that there is a remarkable consistency in the themes and aesthetic preoccupations of poets widely separated from each other by both geographical space and historical epochs which highlights that there are pertinent cross cutting trends in women's poetry which could be exploited as a basis for monolithism The text identifies the main tenets of feminism as recognition of women's oppression and a determined effort through concerted strategies to resist and thwart this oppression and to navigate women out of peripheral positions into positions of power By showing that these tenets are uniformly present in the poetry of very different women it posits this uniformity as a stable ground on which feminist monolithism could be constructed without glossing over existent differences between and among women
