Psychoanalytic Versions of the Human Condition Paul Marcus, Alan Rosenberg, 1998-08 What is psychoanalysis Whereas there was once a time when proponents of mainstream psychoanalysis could point to the preeminence of Freud's drive theory and the version of the human condition associated with it man as seeking pleasure in an erotically tinged universe contemporary psychoanalysis is a fractured and contentious discipline in which competing theories share little more than the basic concepts of unconscious mental processes repression and transference Taking the complexities ambiguities and contradictions engendered by psychoanalysis over the past several decades as an encouraging point of departure rather than as evidence of the dissolution of the psychoanalytic tradition Psychoanalytic Versions of the Human Condition makes explicit how within each major theory a particular story about the nature of the world and what it means to be human decisively shapes how the clinician conceptualizes individual psychopathology and approaches treatment A chorus of voices that both challenges and reaffirms the theory and practice of psychoanalysis Psychoanalytic Versions of the Human Condition asks urgent questions about the politics of psychoanalytic knowledge and about how the profession is situated and operates in our contemporary culture Whether Freudian Jungian Kleinian Kohutian Lacanian or hybrid the clinician will find this book a useful guide to understanding how each theory's philosophy of life infuses clinical work

Jean Rhys at "World's End" Mary Lou Emery, 2014-01-30 The Caribbean Islands have long been an uneasy meeting place among indigenous peoples white European colonists and black slave populations Tense oppositions in Caribbean culture colonial vs native white vs black male conqueror vs female subject supply powerful themes and spark complex narrative experiments in the fiction of Dominica born novelist Jean Rhys In this pathfinding study

Mary Lou Emery focuses on Rhys's handling of these oppositions using a Caribbean cultural perspective to replace the mainly European aesthetic moral and psychological standards that have served to misread and sometimes devalue Rhys's writing. Emery considers all five Rhys novels beginning with *Wide Sargasso Sea* as the most explicitly Caribbean in its setting in its participation in the culminating decades of a West Indian literary naissence and most importantly in its subversive transformation of European concepts of character. From a sociocultural perspective she argues persuasively that the earlier novels *Voyage in the Dark*, *Quartet*, *After Leaving Mr Mackenzie* and *Good Morning Midnight* should be read as emergent Caribbean fiction written in tense dialogue with European modernism. Building on this thesis she reveals how the apparent passivity, masochism or silence of Rhys's female protagonists results from their doubly marginalized status as women and as subject peoples. Also she explores how Rhys's women seek out alternative identities in dreamed of magically realized or chosen communities. These discoveries offer important insights on literary modernism, Caribbean fiction and the formation of female identity.

Passions, Persons, Psychotherapy, Politics Andrew Samuels, 2014-11-13 Andrew Samuels is one of the best known figures internationally in the fields of psychotherapy, Jungian analysis, relational psychoanalysis and counselling and in academic studies in those areas. His work is a blend of the provocative and original together with the reliable and scholarly. His many books and papers figure prominently on reading lists in clinical and academic teaching contexts. This self-selected collection *Passions, Persons, Psychotherapy, Politics* brings together some of Samuels' major writings at the interface of politics and therapy thinking. In this volume he includes chapters on the market economy, prospects for eco psychology and environmentalism, the role of the political Trickster, particularly the female Trickster, the father relations between women and men and his celebrated and radical critique of the Jungian idea of the feminine principle. Clinical material consists of his work with parents and on the therapy relationship. The book concludes with his seminal and transparent work on Jung and anti-Semitism and an intriguing account of the current trajectory of the Jungian field. Samuels has written a highly personal and confessional introduction to the book. Each chapter also has its own topical introduction written in a clear and informal style. There is also much that will challenge the long held beliefs of many working in politics and in the social sciences. This unique collection of papers will be of interest to psychotherapists, Jungian analysts, psychoanalysts and counsellors as well as those undertaking academic work in those areas.

Like Subjects, Love Objects Jessica Benjamin, 1995-01-01 In this important book a well known psychoanalyst and feminist makes a case for what she calls gender heterodoxy, a highly original view of the similarities and differences between the sexes and in the process illuminates aspects of love, sexuality, aggression and pornography.
