Feminism And Political Theory

Cass R. Sunstein

Feminism And Political Theory:

Feminism and Political Theory Judith Evans, 1986 Conference papers political theory women UK womens rights womens organizations political participation Bibliography *Reconstructing Political Theory* Mary Lyndon Shanley, Uma Narayan, 1997 In this volume a companion to *Feminist Interpretations and Political Theory* Penn State 1991 edited by Mary Lyndon Shanley and Carole Pateman leading feminist theorists rethink the traditional concepts of political theory and expand the range of problems and concerns regarded as central to the analysis of political life Written by well known scholars in philosophy political science sociology and law the book provides a rich interdisciplinary account of key issues in political thought While some of the chapters discuss traditional concepts such as rights power freedom and citizenship others argue that topics less frequently discussed in political theory such as the family childhood dependency compassion and suffering are just as significant for an understanding of political life The Introduction shows how such diverse topics can be linked together and how feminist political theory can be elaborated systematically if it takes notions of independence and dependency public and private and power and empowerment as central to its agenda **The Disorder of Women** Carole Pateman, 1989 Carole Pateman is one of the leading political theorists writing today This wide ranging volume brings together for the first time a selection of her work on democratic theory and feminist criticism of mainstream political theory The volume includes substantial discussions of problems of democracy citizenship and the welfare state including the largely unrecognized difficulties surrounding women s participation The inclusion of essays from both a mainstream and feminist perspective provides concrete examples of the differences between these two approaches to democracy to questions of consent and political obligation and to the relationship between the private and public spheres This scholarly and highly challenging work will be of interest to students and researchers in political theory political science women s studies and sociology **Nietzsche, Feminism, and Political Theory** Paul Patton, 1993 A collection of twelve outstanding essays applyin g Nietzsche s work to current debates in feminist and political theory It focuses on the way that Nietzsche has become an essential point of referenc e for postmodern ethical and political thought Feminism and Political Theory Political Studies Association of the United Kingdom Annual Conference, 1986 Conversations with Feminism Penny A. Weiss, 1998-03-19 Applying the idea of conversation broadly Penny A Weiss offers a collection of essays that are either constructed dialogues letters or discussions about voice and silencing Conversation emerges as both a theory and a method of feminist political inquiry and practice The most vocal participants in Weiss conversations are historical political thinkers both within the Western canon Plato Aristotle Machiavelli Rousseau and beyond its confines Astell Coopers Wollstonecraft de Pizan Other figures appear as well from Anita Hill and U S Supreme Court justices to the author s own students and children Conflicts between feminists and anti feminists frame some essays while others represent debates within feminism This unique collection is unified by a commitment to dialogue as a part of feminist ethics strategy and pedagogy and builds upon

the belief that a conversational approach does not preclude disagreement or contrasting stories but requires them

Conversations With Feminism is an important book for students and scholars of political theory philosophy and women s studies

Revisioning The Political Nancy J Hirschmann,2018-03-05 Feminist scholars have been remaking the landscape in political theory and in this important book some of the most important feminist political theorists provide reconstructions of those concepts most central to the tradition of political philosophy The goal is nothing less than the construction of a blueprint for a positive feminist theory Many of these papers are completely new others are extensions of important earlier work two are reprints of classic papers The result is a progress report on the continuing feminist project to re envision traditional political theory As such it constitutes essential reading not only for feminist thinkers but also for traditional philosophers and political theorists who will need to come to terms with these contemporary critiques and re readings

Feminism and Political Theory Judith Evans,1986 This important critique of the major schools of western political theory provides a feminist dimension to contemporary political analysis It covers a wide range of issues relating to political theory and women s studies This book fills a large gap in political theory and will be essential reading for all political scientists From different feminist perspectives the authors reappraise and reconstruct political science in terms of a powerful new critique Individual chapters consider the development of feminist thought in history and analyse the place occupied by women s issues in contemporary political theory Conflicts within traditional Marxist as well as New Right ideologies are highlighted by a feminist analysis that reveals how the distinction between public and private spheres in traditional political theory has marginalized women This work examines the fundamental question of whether it is merely the content or the essential methods and tools of political analysis that need to be reassessed

Feminist Interpretations and Political Theory Carole Pateman,Mary Lyndon Shanley,1991 This volume brings together exciting and provocative new feminist readings of famous classic and contemporary texts from Plato to Habermas The collection also includes examinations of the writings of Mary Wollstonecraft and Simone de Beauvoir that are usually excluded from the works conventionally held to comprise Western political thought The essays raise fundamentally important questions about the significance of sexual difference in the great works of political theory and draw attention to neglected arguments and silences in the texts No single feminist view of either the texts or the theoretical way forward informs these essays A wide diversity of feminist approaches and theoretical frameworks are represented forming a rich variety of interpretations and argument about such questions as the patriarchal construction of central political categories the relation between public and private life and the problem of equality and difference including differences among women This refreshing and stimulating collection will be indispensable for students of political thought and offers all those interested in the connection between the classic writings and current political discussions as accessible introduction to feminist argument

Configurations of Masculinity Christine Di Stefano,2019-07-15 In this pathbreaking book Christine Di Stefano offers a new perspective on the dimension of gender in

modern political thought in order to elucidate what is specifically masculine in political theory Attempting to clear some conceptual space for feminist political theory Di Stefano provides innovative readings of Hobbes Marx and J S Mill The impact of feminism on political concepts and debates Georgina Blakeley, Valerie Bryson, 2024-06-04 Many feminists have engaged with the man made concepts and approaches of traditional political analysis to produce an increasingly sophisticated and wide ranging body of thought The starting point of this book is the belief that such work is not simply something for the girls rather it has profound and complex implications without which our understanding of political processes and ideas would be impoverished This book provides an accessible overview and assessment of the impact of recent feminism by bringing together leading feminist and pro feminist political theorists and analysts to focus on key concepts such as rationality citizenship democracy and democratisation development and empowerment Each chapter takes a malestream concept and examines both the critical debates around it and feminist reactions critiques It then analyses the significance and implications of feminism for the concept considers whether it can simply be extended to include women or whether it should be radically transformed or even abandoned and assesses whether feminist input has become part of the mainstream debate or remains marginalised

Feminist Political Theory Valerie Bryson, 1994 **Women in Political Theory** Diana H. Coole, 1993 This book Looks at how misogyny and western political thought were intertwined in their origins and how this relationship has worked itself out through the classic texts of traditional and modern political thory In this revised edition the analysis of these texts is accompanied by a new introduction and conclusion which bring the debates on this topic up to date The concluding chapter examines contemporary feminist theory by discussing pooststructuralist and postmodernist themes which allows for a reappraisal of the critical perspecti *Feminism & Political Theory* Cass R. Sunstein, 1990-01 This volume collects some of today s most original and important work at the intersection of feminism and political theory A representative and wide ranging set of readings on feminist political thought the authors provide large scale critiques and in some instances reconstructions of important strains in political thought including notions of equality rights based justice and contract theories The fourteen essays are organized around four major themes The Question of a Different Voice Care Justice and Rights Equality and Inequality in Politics and Elsewhere Coercion versus Consent Public versus Private and Sexuality and Trust and Responsibility

Gender, Class, and Freedom in Modern Political Theory Nancy J. Hirschmann, 2009-04-11 In *Gender Class and Freedom in Modern Political Theory* Nancy Hirschmann demonstrates not merely that modern theories of freedom are susceptible to gender and class analysis but that they must be analyzed in terms of gender and class in order to be understood at all Through rigorous close readings of major and minor works of Hobbes Locke Rousseau Kant and Mill Hirschmann establishes and examines the gender and class foundations of the modern understanding of freedom Building on a social constructivist model of freedom that she developed in her award winning book *The Subject of Liberty Toward a Feminist Theory of Freedom* she makes in her new book another original and important

contribution to political and feminist theory Despite the prominence of state of nature ideas in modern political theory Hirschmann argues theories of freedom actually advance a social constructivist understanding of humanity By rereading human nature in light of this insight Hirschmann uncovers theories of freedom that are both more historically accurate and more relevant to contemporary politics Pigeonholing canonical theorists as proponents of either positive or negative liberty is historically inaccurate she demonstrates because theorists deploy both conceptions of freedom simultaneously throughout their work

Gender and Political Theory Mary Hawkesworth, 2019-03-05 Western political theory typically incorporates certain assumptions about sex and gender as natural unvarying and pre political This book critically examines these assumptions and shows how recent scholarship undermines the illusion that bodies exist outside politics and beyond the reach of the state Leading political theorist Mary Hawkesworth s cutting edge intersectional account demonstrates how popular conceptions of human nature public and private citizenship liberty the state and injustice relegate women people of color sexual minorities and gender variant people to inferior status despite constitutional guarantees of equality before the law Hawkesworth argues that traditional political theory has contributed to the perpetuation of pernicious forms of injustice by masking the state s role in the creation of subordinated and stigmatized subjects The book draws insights from critical race feminist postcolonial queer and trans theory to give a compelling original and highly readable introduction to historical and contemporary debates on gender and political theory for students

Symposium on Feminism and Political Theory Symposium on Feminism and Political Theory, 1989

Gender in Political Theory Judith Squires, 2013-05-28 This wide ranging and accessible book provides a thorough overview of the key debates in gender and political theory

Modern Political Theory and Contemporary Feminism Jennifer Ring, 1991-09-07

The Subject of Liberty Nancy J. Hirschmann, 2009-01-10 This book reconsiders the dominant Western understandings of freedom through the lens of women s real life experiences of domestic violence welfare and Islamic veiling Nancy Hirschmann argues that the typical approach to freedom found in political philosophy severely reduces the concept s complexity which is more fully revealed by taking such practical issues into account Hirschmann begins by arguing that the dominant Western understanding of freedom does not provide a conceptual vocabulary for accurately characterizing women s experiences Often free choice is assumed when women are in fact coerced as when a battered woman who stays with her abuser out of fear or economic necessity is said to make this choice because it must not be so bad and coercion is assumed when free choices are made such as when Westerners assume that all veiled women are oppressed even though many Islamic women view veiling as an important symbol of cultural identity Understanding the contexts in which choices arise and are made is central to understanding that freedom is socially constructed through systems of power such as patriarchy capitalism and race privilege Social norms practices and language set the conditions within which choices are made determine what options are available and shape our individual subjectivity desires and self understandings Attending to the ways in which contexts construct us as subjects of

liberty Hirschmann argues provides a firmer empirical and theoretical footing for understanding what freedom means and entails politically intellectually and socially

Uncover the mysteries within Crafted by is enigmatic creation, **Feminism And Political Theory** . This downloadable ebook, shrouded in suspense, is available in a PDF format (*). Dive into a world of uncertainty and anticipation. Download now to unravel the secrets hidden within the pages.
