Feminism Confronts Homo Economicus Martha Fineman, Terence Dougherty, 2005 Drawing on the latest thinking in the fields of feminist legal theory critical legal studies and feminist economics the essays critique the notion that legal and policy decision should be made solely through the lens of economics *Ethics, Law and Society* Nicky Priaux, Anthony Wrigley, 2017-07-28 This key collection brings together a selection of papers commissioned and published by the Cardiff Centre for Ethics Law Society It incorporates contributions from a group of international experts along with a selection of short opinion pieces written in response to specific ethical issues The collection addresses issues arising in biomedical and medical ethics ranging from assisted reproductive technologies to the role of clinical ethics committees It examines broader societal issues with particular emphasis on sustainability and the environment and also focuses on issues of human rights in current global contexts The contributors collect responses to issues arising from high profile cases such as the legitimacy of war in Iraq to physician related suicide The volume will provide a valuable resource for practitioners and academics with an interest in ethics across a range of disciplines **Ethics, Law and Society** Jennifer Gunning, 2022-07-30 This key collection brings together a selection of papers commissioned and published by the Cardiff Centre for Ethics Law Society It incorporates contributions from a group of international experts along with a selection of short opinion pieces written in response to specific ethical issues The collection addresses issues arising in biomedical and medical ethics ranging from assisted reproductive technologies to the role of clinical ethics committees It examines broader societal issues with particular emphasis on sustainability and the environment and also focuses on issues of human rights in current global contexts The contributors collect responses to issues arising from high profile cases such as the legitimacy of war in Iraq to physician related suicide The volume will provide a valuable resource for practitioners and academics with an interest in ethics across a range of disciplines *In Defense of Plural Marriage* Ronald C. Den Otter, 2015-05-28 This book outlines the constitutional argument in favor of plural marriage in the United States **Transnational Feminist Politics, Education, and Social Justice** Silvia Edling, Sheila Macrine, 2021-11-18 Written by an international group of feminist scholars and activists the book explores how the rise in right wing politics fundamentalist religion and radical nationalism is constructed and results in gendered and racial violence The chapters cover a broad range of international contexts and offer new ways of combating assaults and oppression to understand the dangers inherent within the current global political and social climate The book includes a foreword by the distinguished critical activist Antonia Darder as well as a chapter by renowned feminist scholar Chandra Talpade Mohanty **Gender Equality** Linda C. McClain, Joanna L. Grossman, 2009-07-31 Examines the persisting inequality between formal commitments to gender equality and equal citizenship *At a Turning Point* Professor Marian Baird, Elizabeth Hill, Sydney Colussi, 2024-02-01 Australia is at a much needed turning point in work care and family policy Australian women families and communities are struggling to manage the complex demands of work and care Rapid social

and demographic change alongside new workplace labour market trends and the aftermath of the COVID 19 pandemic requires a policy revamp that will allow all Australians to work care and be cared for In seven chapters authored by leading scholars in the field At a Turning Point Work care and family policies in Australia provides a comprehensive account of key policy areas that shape the experience of work and care across the life course These include reproductive wellbeing paid parental leave early childhood education and care flexible work elder and disability care and equitable systems of tax and transfer payments At a Turning Point argues that a new social contract that puts gender equality economic security and the well being of carers and those they care for at the centre of policy design is essential to national productivity and prosperity It is the foundation of a good society *Qualitative Freedom - Autonomy in Cosmopolitan Responsibility* Claus

Dierksmeier,2019-01-18 In the light of growing political and religious fundamentalism this open access book defends the idea of freedom as paramount for the attempt to find common ethical ground in the age of globality The book sets out to examine as yet unexhausted ways to boost the resilience of the principle of liberalism Critically reviewing the last 200 years of the philosophy of freedom it revises the principle of liberty in order to revive it It discusses many different aspects that fall under its three main topics the metaphysics of freedom quantitative freedom and qualitative freedom Open societies worldwide have come under increasing pressure in the last decades The belief that politics and markets fare best when guided by the principle of liberty presently faces multiple challenges such as terrorism climate warming inequality populism and financial crises In the view of its critics the idea of freedom no longer offers adequate guidance to meet these challenges and should be partially corrected or even entirely replaced by countervailing values Against the reduction of freedom to the merely quantitative question as to how much liberties individuals call their own this book draws attention to the qualitative concerns which and whose opportunities society should foster It argues that correctly understood the idea of liberty commits us to defend as well as advance the freedom of each and every world citizen **Peacemaking and International Order after**

make up the European Union i The Struggle for Female Suffrage in Europe provides a retelling of the story of how citizenship was gradually coined in Europe from the perspective of women **The Struggle for Female Suffrage in Europe**

,2012-06-07 Whilst scholarship on women s suffrage usually focuses on a few emblematic countries The Struggle for Female Suffrage in Europe casts a comparative look at the articulation of women s suffrage rights in the countries that now make up the political unity in the making we call the European Union The book uncovers the dynamics that were at play in the recognition of male and female suffrage rights and in the definition of male and female citizenship in modern Europe It allows readers to identify differences and commonalities in the histories of women s disenfranchisement and sheds light on the role suffrage has played in the construction of female citizenship in European countries It provides the background against which a new European paradigm of parity democracy is gradually asserting itself *Reworking the Relationship between Asylum and Employment* Penelope Mathew,2012-05-16 Touching on the laws and practices of a wide array of countries around the globe this book examines the extent to which refugees and asylum seekers right to work is protected by international human rights law The book examines a number of key international treaties national constitutions and some foundational cases from national courts in order to make the case that the practise of restricting refugees and asylum seekers access to the labour market is illegal In so doing the author examines some intricate legal questions such as the interpretation of the Refugee Convention s provisions restricting rights to refugees lawfully staying the application of racial discrimination to citizenship distinctions and the ways in which limitations on human rights are applicable in this context The book also looks at some broader philosophical questions such as the meaning of equality and human dignity and the legitimacy of the right to work The book goes on to explore broader debates concerning migration and open borders in order to unpack the fears that drive many countries restrictive measures Readers are invited to consider whether the world would be a better place with more freedom of movement It is a unique stand alone treatment of the subject and includes the Michigan Guidelines on the Right to Work *Reworking the Relationship between Asylum Seekers and Employment* is written in an accessible style that will appeal to academics policy makers practitioners and students It combines a strong black letter approach with a law in context approach that explains why the law takes its current shape and questions current orthodoxy
