Coming of Age in Academe Jane Roland Martin, 2013-10-28 First Published in 2000 At what price entry Philosopher of education Jane Roland Martin contends that feminist scholars have traded in their idealism for a place in the academy In *Coming of Age in Academe* she looks at the ways that academic feminists have become estranged from women Determining that this is the membership fee the academy exacts on all its members she calls for the academy s transformation Part one explores the chilly research climate for feminist scholars the academic traps of essentialism and aerial distance and the education gap in the feminist text In part two Martin likens the behavior of present day feminist scholars to nineteenth century immigrants to the United States and examines their assimilation into the world of work politics and the professions She finds that when you look at higher education you see what a brutal filter of women it is Part three highlights the academy s brain drain and its containment of women and then proposes actions both great and small that aim at fundamental change In this rousing call to action Martin concludes that the dissociation from women that the academy demands its entrance fee can only be stopped by radically reforming the gendered system on which the academy is based **A Feminist**

Perspective in the Academy Elisabeth Langland, 1981 *Surviving the Academy* Danusia Malina, Sian Maslin-Prothero, 2003-09-02 This text brings together writing and research on feminist experience in academia It covers

issues such as provision of care maternalism in the academy and dynamics of interaction between women in higher education There are challenging and provocative analyses of many questions how large is the gap between rhetoric and reality in HE institutions how do institutions behave towards disabled staff how far is stereotyping still affecting the roles which women play in academia what do women face when they combine motherhood with teaching or studying coping mechanisms and survival tactics are brought under scrutiny and the effect these have on the behaviour of female academics and their interactions with the institution of each other This text should provide insight and evidence for researchers to further develop their own theories and also many starting points for those wishing to undertake their own research Written in collaboration with the Women in Higher Education Network *Doing Feminism* Mary Anderson,1997 This collection of papers from the conference on Revisioning Knowledge and the Curriculum exemplifies the variety of women s studies as a transformative movement Topics covered include feminist reframings of knowledge and the process of teaching and institutional change Anti-feminism in the Academy Veve Clark, Shirley Nelson Garner, Margaret Higonnet, Ketu Katrak,2014-01-27 Contending that the anti feminist backlash in the academy is part of the broader politically correct rhetoric this collection of writers academics and activists is a much needed response to the assault on feminist thinkers and critics in the academy today **The Dissenting Feminist Academy** Gisele Marie Thibault,1987 This book is a general statement about universities and about the universities response to and interaction with feminism From the late nineteenth century to the current decade feminists have confronted the university structure infiltrated it as they have resisted and rejected it Within the parameters of this tension and contradiction feminist scholarship has paradoxically transformed the nature and content of academe while it has fought against the barriers higher education has imposed to both feminist philosophy and to women In this analysis the author explores how such a contradiction was manifested in the mid to late nineteenth century university in the late 1960 s and in the 1980 s in the modern research university in North America She examines how the university as we know it politically economically and socially implements women s subordination through its institutional polity its academic disciplines and its ideological aerobics in promoting the private public spheres Finally the author boldly suggests that the dissent of feminism offers perhaps the greatest and the most plausible alternative both to the ills which beset the contemporary academy and to the future of academe In a word such an academy must be created or face intellectual extinction not just for women but for humanity The Impact of Feminist Research in the Academy Christie Farnham,1987-01-01 *Women's Studies in the Academy* Robyn L. Rosen,2004 Providing a historical framework for understanding how women s studies evolved from women s struggles for access to higher education this book illustrates the impact that feminist perspectives have made in the academy Using the disciplines as its organizing principle the First Edition explores eleven major fields to examine the host of contributions and critiques being made by feminist scholars This book also probes the emergence of women s studies in the late 1960s as an accomplishment of great historical significance and

presents a vast array of readings by feminist scholars over the past 30 years For professionals with a career or interest in women s studies sociology psychology history and or education **Public Feminisms** Carrie N. Baker,Aviva Dove-Viebahn,2023-05-16 The field of feminist studies grew from the U S women s movements of the 1960s and 1970s and has continued to be deeply connected to ongoing movements for social justice As educational institutions are increasingly seeing public scholarship and community engagement as relevant and fruitful complements to traditional academic work feminist scholars have much to offer in demonstrating different ways to inform and interact with various communities In **Public Feminisms From Academy to Community** edited by Carrie N Baker and Aviva Dove Viebahn a diverse range of feminist scholar activists write about the dynamic and varied methods they use to reach beyond the traditional academic classroom and scholarly journals to share their work with the public Part one explores how feminist scholars engage broader audiences through art media and public programming including essays on a public discussion series teaching intersectional feminist analysis of popular films and a podcast from Latina scholars discussing issues of reproductive justice social justice motherhood sexuality race and gender Part two focuses on activism and public education including essays on Take Back the Night and archiving the women s march protests Part three turns to public writing and scholarship including an essay on elevating the perspectives and voices of underrepresented creatives in the film and television industry Part four explores feminist pedagogies for community engagement and for teaching public feminisms Accessible and engaging to a broad range of readers the essays in this volume are a rich resource for scholars and students interested in infusing their academic knowledge into the public sphere With this timely book the editors offer an opportunity to reflect on the meaning and importance of community engagement and highlight some of the important public facing work feminist scholars are doing today Faculty graduate and undergraduate students as well as administrators hoping to increase their schools connections to the community will find this volume indispensable Common Ground Elizabeth G. Peck,JoAnna Stephens Mink,1998-01-01 This examination of feminist collaboration reconceptualizes ideas about creativity cooperation and competition in higher education Everyday Knowledge And Uncommon Truths Linda Christian-smith,2021-11-28 Everyday Knowledge and Uncommon Truths Women of the Academy is a thirteen chapter volume which draws on the life experience and varied backgrounds of academic women from the United States Australia New Zealand and Canada The book addresses a variety of issues pertaining to women s home lives education teaching research writing and activism To provide diverse perspectives on women s experiences of being and knowing in and outside the academy contributors draw on a range of critical approaches derived from feminism poststructuralism postmodernism critical education theory discourse theory and analysis narrative inquiry and life histories Lately there has been considerable interest by women in the academy in a discernment process involving an examination of the historically politically and culturally situated nature of their knowledge of the world their work in the academy and other activities in which they engage These examinations especially in the form of narrative inquiry

life histories and deconstructive language practices such as discourse analysis figure prominently in breaking silences and giving voice to the many tensions that women experience in the academic workplace and other settings

A feminist perspective in the academy : the difference it makes Elizabeth Langland, Walter R. Gove, 1984 Knowing Feminisms Liz Stanley, 1997-03-10

Knowing Feminisms looks at feminism as a vital source of new knowledge and new ways of working throughout a range of disciplines. It also scrutinizes the sometimes highly problematic forms its presence within academia can take. The contributors all well known feminist academics discuss the epistemological and ontological borderlands that feminisms inhabit which although within still remain other to the academy. The book addresses fundamentally important questions such as: Should feminists work within traditional disciplines or abandon them in favour of Women's Studies? Is the idea of feminist pedagogy as empowerment actually one which de-skill? Does the feminist transformation of some academic disciplines signify that these are no longer significant sites of knowledge and/or power? Do the essential organizational features of disciplines and institutions depend upon repressive means or is it possible to transform these according to feminist principles? Are some disciplines and types of institutions particularly resistant to feminist ideas? Is an intellectual home for feminism ever possible or desirable within academia or is critical thinking best done from the margins? Can Women's Studies as an organizational presence within the university encompass dissenting positions on these foundational questions or will it contain and control what can be said and by whom?

Strategies for Resisting Sexism in the Academy Gail Crimmins, 2019-01-23

This book harnesses the expertise of women academics who have constructed innovative approaches to challenging existing sexual disadvantage in the academy. Countering the prevailing postfeminist discourse, the contributors to this volume argue that sexism needs to be named in order to be challenged and resisted. Exploring a complex intersectional and diverse arrangement of resistance strategies, the contributors outline useful tools to resist, subvert and identify sexist policy and practice that can be deployed by organisations and collectives as well as individuals. The volume analyses pedagogical curriculum and research approaches as well as case studies which expose, satirise and subvert sexism in the academy. Instead, embodied and slow scholarship as political tools of resistance are introduced. A call for action against the propagation of sexism and gender disadvantage in the academy, this important book will appeal to students and scholars of sexism in higher education as well as all those committed to working towards gender equality.

Women Writing the Academy Gesa Kirsch, 1993-10-28

Women Writing the Academy is based on an extensive interview study by Gesa E. Kirsch that investigates how women in different academic disciplines perceive and describe their experiences as writers in the university. Kirsch's study focuses on the writing strategies of successful women writers, their ways of establishing authority and the kinds of audiences they address in different disciplinary settings. Based on multiple interviews with thirty-five women from five different disciplines (anthropology, education, history, nursing, and psychology) and four academic ranks (seniors, graduate students, and faculty) before and after tenure, this is the first book to systematically explore the academic context in

which women write and publish While there are many studies in literary criticism on women as writers of fiction there has not been parallel scholarship on women as writers of professional discourse be it inside or outside the academy Through her research for example Kirsch found that women were less likely than their male counterparts to think of their work as sufficiently significant to write up and submit for publication tended to hold on to their work longer than men before sending it out and were less likely than men to revise and resubmit manuscripts that had been initially rejected This book is significant in that it investigates a new area of research gender and writing and in doing so brings together findings on audience authority and gender Doing Feminisms in the Academy ,2021 Feminist Activism in Academia Ellen C. Mayock,Domnica Radulescu,2014-01-10 The eleven essays making up this book unite scholars from various disciplines to explore how feminists live survive and thrive in academia The pieces investigate innovative ways that women academics occupy the space of the Academy as real living bodies while resisting being judged devalued or valued on the basis of their biological bodies Specific themes include abortion rights activism authority in the classroom feminist mentoring the role of women s studies programs division of labor and the role of theater and performance in enacting lasting change
