The Oxford Handbook of Gender and Conflict Fionnuala Ní Aoláin, Naomi Cahn, Dina Francesca Haynes, Nahla Valji, 2017-12-15 Traditionally much of the work studying war and conflict has focused on men Men commonly appear as soldiers commanders casualties and civilians Women by contrast are invisible as combatants and when seen are typically pictured as victims The field of war and conflict studies is changing more recently scholars of war and conflict have paid increasing notice to men as a gendered category and given sizeable attention to women's multiple roles in conflict and post conflict settings The Oxford Handbook of Gender and Conflict focuses on the multidimensionality of gender in conflict yet it also prioritizes the experience of women given both the changing nature of war and the historical de emphasis on women's experiences Today's wars are not staged encounters involving formal armies but societal wars that operate at all levels from house to village to city Women are necessarily involved at each level Operating from this basic intellectual foundation the editors have arranged the volume into seven core sections the theoretical foundations of the role of gender in violent conflicts the sources for studying contemporary conflict the conflicts themselves the post conflict process institutions and actors the challenges presented by the evolving nature of war and finally a substantial set of case studies from across the globe Genuinely comprehensive this Handbook will not only serve as an authoritative overview of this

The Body and Shame Luna Dolezal, 2015-03-31 The Body and Shame Phenomenology Feminism and the Socially Shaped Body investigates the concept of body shame and explores its significance when considering philosophical accounts of embodied subjectivity Body shame only finds its full articulation in the presence actual or imagined of others within a rule and norm governed milieu As such it bridges our personal individual and embodied experience with the social cultural and political world that contains us Luna Dolezal argues that understanding body shame can shed light on how the social is embodied that is how the body experienced in its phenomenological primacy by the subject becomes a social and cultural artifact shaped by external forces and demands The Body and Shame introduces leading twentieth century phenomenological and sociological accounts of embodied subjectivity through the work of Edmund Husserl Maurice Merleau Ponty Jean Paul Sartre Michel Foucault and Norbert Elias Dolezal examines the embodied social and political features of body shame contending that body shame is both a necessary and constitutive part of embodied subjectivity while simultaneously a potential site of oppression and marginalization Exploring the cultural politics of shame the final chapters of this work explore the phenomenology of self presentation and a feminist analysis of shame and gender with a critical focus on the practice of cosmetic surgery a site where the body is literally shaped by shame The Body and Shame will be of great interest to scholars and students in a wide variety of fields including philosophy phenomenology feminist theory women s studies social theory cultural studies psychology sociology and medical humanities
