Reconstructing Political Theory Mary Lyndon Shanley, Uma Narayan, 1997 In this volume a companion to *Feminist Interpretations and Political Theory* Penn State 1991 edited by Mary Lyndon Shanley and Carole Pateman leading feminist theorists rethink the traditional concepts of political theory and expand the range of problems and concerns regarded as central to the analysis of political life Written by well known scholars in philosophy political science sociology and law the book provides a rich interdisciplinary account of key issues in political thought While some of the chapters discuss traditional concepts such as rights power freedom and citizenship others argue that topics less frequently discussed in political theory such as the family childhood dependency compassion and suffering are just as significant for an understanding of political life The Introduction shows how such diverse topics can be linked together and how feminist political theory can be elaborated systematically if it takes notions of independence and dependency public and private and power and empowerment as central to its agenda

Feminist Perspectives on Politics Chris Corrin, 2014-07-10 *Feminist Perspectives on Politics* considers how feminist perspectives have considerably broadened the scope of what is considered political Themes and issues covered range from nineteenth century debates around women s equality and liberation to twentieth century arguments and activities towards gaining a more nuanced understanding of women s differences and diversity Difference remains a key term in contemporary feminisms and the author examines debates engendered from women s liberation politics to open up discussion of Black feminisms lesbian politics and disabled feminist agendas Formal political participation and the impact of women s movement politics are assessed in global comparisons as are the debates surrounding discourses on development and transnational politics and the influence of women at local national and international levels The book will be essential reading for students at all levels across the fields of Politics Women s Studies Sociology History Cultural Studies Political Economy and Development Studies more generally such as in studies concerned with anti racism gender social policy and the history of ideas within educational institutions local government and voluntary organisations

Hooyman, Judith Gonyea, 1995-08-29 Today women find themselves playing an ever increasing role in caring for older family members who are frail developmentally disabled or suffering from serious mental illness While this role of women as caregivers has been documented the actual impact on the lives of women has remained largely unstudied In this volume the authors examine caregiving as a central feminist issue looking at its impact on women socially personally and economically The authors review how changing family structures the changing economy and workforce and the changing health care demands of needy adults have impacted on women's lives They critique existing public and private policies demonstrating a need for fundamental structural changes in social institutions and attitudes to improve the lives of women Finally they propose a social model of care that is oriented toward gender justice recognition of the work of caring and its impact upon women socially personally and economically For students scholars and practitioners in the field of gerontology

The Subject of Care Eva Feder Kittay, Ellen K. Feder, 2003-10-01 All people spend a considerable portion of their lives either as dependents or the caretakers of dependents The fact of human dependency a function of youth severe illness disability or frail old age marks our lives not only as those who are cared for but as those who engage in the work of caring In spite of the time energy and resources material and emotional social and individual that dependency care requires these concerns rarely enter into philosophical legal and political discussions In *The Subject of Care* feminist scholars consider how acknowledgement of the fact of dependency changes our conceptions of law political theory and morality as well as our very conceptions of self Contributors develop feminist understandings of dependency reassessing the place dependency occupies in our lives and in a just social order
