*Women and Gender Issues in British Paganism, 1945-1990* Shai Feraro,2020-06-11 This book explores the ways in which changing views on gender and the place of women in society during

the latter half of the twentieth century affected women's participation and standing within British Paganism. More specifically, it examines how British Wiccans and Wiccan-derived Pagans reacted to the rise of second wave feminism and the Women's Liberation Movement in the UK with a special emphasis on the reception of feminist theory hailing from the USA and to the emergence of feminist branches of Witchcraft and Goddess Spirituality during the 1970s and 1980s. The book draws on primary sources never before analyzed in an academic context and makes a valuable contribution to the growing body of knowledge on gender and religion during the twentieth century as very little research has been conducted on the relations between the history of modern Paganism and that of second wave feminism in the UK.

The collection also includes a useful general introduction which makes the articles accessible to students and helps to define this increasingly important area of study.

*Worlds of Women* Leila J. Rupp, 2020-12-08. *Worlds of Women* is a groundbreaking exploration of the first wave of the international women's movement from its late nineteenth century origins through the Second World War. Making extensive use of archives in the United States, England, the Netherlands, Germany, and France, Leila Rupp examines the histories and accomplishments of three major transnational women's organizations to tell the story of women's struggle to construct a feminist international collective identity. She addresses questions central to the study of women's history: how can women across the world forge bonds, sometimes even through conflict, despite their differences? and questions central to world history: is internationalism viable, and how can its history be written? Rupp focuses on three major organizations that were technically open to all women: the broadly based and cautious International Council of Women founded in 1888; the feminist International Alliance of Women originally called the International Woman Suffrage Alliance founded in 1904; and the vanguard Women's International League for Peace and Freedom which grew out of the International Congress of Women that met at The Hague in 1915. The histories of these organizations and their stories of cooperation and competition shed new light on the international women's movement. They also help us to understand the different but connected story of the second wave of international feminism that emerged from the ashes of World War II.
