Fertility Faith The Ethics Of Human Fertilization:

Fertility and Faith Brendan McCarthy, 1997 In this thorough and original analysis Brendan McCarthy highlights the unclear moral basis of the laws governing human fertilization techniques and establishes a convincing foundation for a Christian approach

Documents of the Christian Church Henry Bettenson, Chris Maunder, 2011-09-29 This selection of writings from the most important moments in the history of Christianity has become established as a classic reference work providing insights into 2000 years of Christian theological and political debate While retaining the original material selected by Henry Bettenson Chris Maunder has added a substantial section of more recent writings These illustrate the Second Vatican Council the theologies of liberation Church and State from Thatcher's Britain to Communist Eastern Europe Black feminist and ecological theology ecumenism and inter faith dialogue The emphasis on moral debate in the contemporary churches is reflected in selections discussing questions about homosexuality divorce AIDS and in vitro fertilization amongst other issues This further expanded fourth edition brings the anthology up to date with a new section looking at issues facing the twenty first century churches This includes extracts exploring the churches responses to questions of social justice international politics trade and debt environmental change and technological development New material also covers the global growth of Christianity the progress of Christian unity and mission in multi faith and postmodern societies

Soul of the Embryo David Albert Jones, 2004-12-01 We are delighted to announce that this book has been short listed for the prestigious Michael Ramsey prize for the best in theological writing For more information please visit www.michaelramseyprize.org.uk A radical examination of the Christian tradition relating to the human embryo and how this relates to the debate today In recent years the moral status of the human embryo has come to the fore as a vital issue for a range of contemporary ethical debates concerning the over production freezing and discarding of embryos in IVF concerning the use of spare embryos for scientific experimentation and finally concerning the prospect of producing clone embryos These debates have involved not only general philosophical arguments but also specifically religious arguments Many participants have attempted to find precedent from the Christian tradition for the positions they wish to defend It is therefore extraordinary that until *The Soul of the Embryo* there has been no significant work on the history of Christian reflection on the human embryo Here David Albert Jones seeks to tell the story of this unfolding tradition a story that encompasses many different medical moral philosophical and theological themes He starts by examining the understanding of the embryo in the Hebrew Scriptures then moves through early Christianity and the Middle Ages to the Reformation and beyond Finally Albert Jones considers the application of this developed tradition to contemporary situation and questions which contemporary Christian view or views are best regarded as authentic developments of the tradition and which should be regarded as alien to the tradition

the Perplexed Agneta Sutton, 2008-08 A new Guide for the Perplexed title providing an examination of bioethics that will couple Christian and philosophical perspectives ThirdWay , 1997-06 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture *Clinical Infertility and In Vitro Fertilization* Botros R M B Rizk, Hassan N Sallam, 2012-06-15 This manual is a comprehensive guide to the causes and treatment of infertility Beginning with a section on male and female physiology the text then discusses various causes of infertility such as hypothalamic pituitary dysfunction endometriosis male factors the cervical factor and unexplained infertility The final section explores assisted reproductive technology including In Vitro Fertilisation IVF cryopreservation of embryos intra cytoplasmic sperm injection ICSI and fertility preservation in female cancer patients A final chapter presents ethical moral and religious issues Authored by recognised specialists in the USA Europe and Egypt this book contains more than 400 clinical and scientific images and illustrations to depict different conditions and surgical techniques **Ethics Of In Vitro Fertilisation** Tony Dyson, 1994-12-01 Our Choices is a series which introduces specific subjects of concern and controversy within Christian ethics to a wide variety of readers Each subject is approached at a serious level but technical language is avoided The books should be useful in introductory seminary programmes in programmes for congregational development and also to individuals seeking information and guidance within their Christian life On 25th July 1978 Louise Brown the first test tube baby was born This event captured the public imagination and made the ethical issues surrounding artificial fertilization and embryology impossible to ignore In this text Tony Dyson examines the religious and moral implications for the individual and for society of this and other reproductive technologies Faith and Fertility Eric Blyth, Ruth Landau, 2009 Faith and Fertility is a comprehensive collection of essays by academics and faith leaders The reader is introduced to the cultural and religious understanding of fertility as it is practised among diverse international faith traditions Each chapter is written in an accessible style outlining each faith s history core beliefs and values **Medically Assisted Conception** Institute of Medicine and National Research Council, Institute of Medicine, Committee on the Basic Science Foundations of Medically Assisted Conception, 1989-02-01 This book results from a study by a committee of the Institute of Medicine and the National Research Council s Board on Agriculture The committee examined the scientific foundations of medically assisted conception and developed an agenda for basic research in reproductive and developmental biology that would contribute to advances in the clinical and agricultural practice of in vitro fertilization and embryo transfer The volume also discusses some barriers to progress in research and ways of lowering them and explains the scientific issues important to ethical decision making

Source Book in Bioethics Albert R. Jonsen, Robert M. Veatch, LeRoy Walters, 1999-09-07 Government agencies and commissions courts and legislatures have during the past several decades produced reports rendered decisions and passed laws that have both defined the fundamental issues in the field of bioethics and established ways of managing them in our society Providing a history of these key bioethical decisions this Source Book in Bioethics is the first and only comprehensive

collection of the critical public documents in biomedical ethics including many hard to find or out of print materials Covering the period from 1947 to 1995 this volume brings together core legislative documents court briefs and reports by professional organizations public bodies and governments around the world Sections on human experimentation care of the terminally ill genetics human reproduction and emerging areas in bioethics include such pivotal works as The Nuremberg Code The Tuskegee Report and In the Matter of Baby M as well less readily available documents as The Declaration of Inuyama the Council for International Organizations of Medical Sciences statement on genetic engineering and The Warnock Committee Report on reproductive technologies from the United Kingdom Three eminent scholars in the field provide brief introductions to each document explaining the significance of these classic sources This historical volume will be a standard text for courses in bioethics health policy and death and dying and a primary reference for anyone interested in this increasingly relevant field

Infertility, medical and social choices. , Alister E. McGrath and Evangelical Theology Sung Wook Chung, 2003 Alister McGrath is one of the premier evangelical theologians of our day In this book leading evangelical scholars including Gabriel Fackre John Frame William Abraham Gerald Bray and Clark Pinnock use McGrath's work as a lens through which to offer a contemporary assessment of evangelical theology The volume sets McGrath in context and argues that a dynamic brand of evangelical theology such as what his thinking represents is necessary for the evangelical wing of the church to be semper reformanda always reforming Chapters focus on the essence identity strengths weaknesses and future of evangelical theology offering a snapshot of a movement in transition

Medicine, Health Care, & Ethics John F. Morris, 2007-04 From its earliest beginnings the Catholic Church has cared for the sick and dying of the world as an extension of the healing ministry of Jesus As a natural consequence Catholics have regularly addressed moral issues relating to health care long before the term bioethics was coined Beginning with a deeply nuanced holistic understanding of the human person as their foundation Catholic scholars have developed a person centered ethic with which to approach ethical dilemmas that is understandable and defensible in the light of natural human reason yet which is compatible with the teachings and doctrine of the Church emphasizing the harmony of faith and reason within the Catholic moral tradition Medicine Health Care and Ethics adds to this rich tradition with a collection of contemporary essays that represent the very best efforts of current Catholic scholarship in the field of health care and medical ethics The book begins with an introductory section that explains the basic foundations of the personalist approach to ethics and its development within Catholic thought The remaining parts of the book address timely topics such as artificial reproduction contraception abortion euthanasia genetic engineering stem cell research cloning and health care reform Each author brings a fresh perspective and a wealth of knowledge on these issues that will benefit Catholics as well as non Catholics With general overviews for each section and topic specific bibliographies to guide further study this volume is designed to provide a greater understanding and deeper appreciation of the Catholic perspective on health care and medicine for both newcomers and seasoned students

of bioethics alike In today s culture of pluralism and diversity the Catholic tradition has much wisdom to contribute to society s consideration of contemporary problems in medicine and health care This collection of essays is offered in the spirit of open and honest dialogue for all who are seeking to understand that tradition ABOUT THE EDITOR John F Morris associate professor of philosophy at Rockhurst University has published numerous articles on the subject of medical ethics In addition to Morris contributors to the volume are Benedict M Ashley O P Gregory R Beabout John Berkman Clarke E Cochran Catherine Green John F Kavanaugh S J William E May Kevin O Rourke O P Michael D Place Jeanne Schindler and Brendan Sweetman PRAISE FOR THE BOOK Morris intends his book to be used as a supplementary text for courses in bioethics and by members of hospital ethics committees A number of the volume s features recommend it for these audiences Each of the 5 parts of the book has an introduction that is informative lucid and relatively comprehensive These introductions offer an overview of the issue or issues addressed by the essays and briefly describe each presentation Unlike so many collections of multiauthored essays this volume s offerings are consistent in quality and are accessible to the readers for whom they are intended Finally each part of the book concludes with a short but helpful bibliography for further reading or research These qualities of the book recommend it not only for the audiences for which it is intended but also for all educated laypersons clergy and health care professionals who are interested in learning more about a Catholic approach to a variety of controversial issues in bioethics In all likelihood readers will also come away with some valuable insights and wisdom contained in the Catholic tradition and will acquire a better appreciation of the contribution of Catholic voices to debates in bioethics The excellent section introductions and the high quality of each of the essays make this volume a must for anyone wishing to better understand a traditional Catholic approach to bioethics Ronald P Hame **Medical Ethics** Kevin D. O'Rourke, 2011-04-13 In a single convenient resource this revised and updated edition of a classic text organizes and presents clearly the documents of the Catholic Church pertaining to medical ethics Introductory chapters provide the context for interpreting the Church s teachings and theological values guiding the reader in how to apply the teachings to particular ethical dilemmas and helping the reader to understand the role of conscience within the Catholic tradition The teaching of the Church in regard to health care ethics is pertinent not only for health care professionals and students but for all who are concerned about the common good of society Medical Ethics examines specific teachings of the Church on over seventy issues in clinical and research ethics including abortion AIDS artificial insemination assisted suicide cloning contraception euthanasia gene therapy health care reform organ donation and transplantation organizational ethics stem cells surrogate motherhood and withholding and withdrawing life support O Rourke and Boyle bring this fourth edition up to the present day by incorporating recent papal documents regarding the social aspects of health care assent to Church teaching and the 2008 papal instruction Dignitas personae an extremely influential document that illuminates such controversial dilemmas as prenatal adoption frozen embryos and genetic diagnosis Marginalized Reproduction Lorraine Culley, Nicky Hudson, Floor

van Rooij, 2012-05-16 Worldwide over 75 million people are involuntarily childless a devastating experience for many with significant consequences for the social and psychological well being of women in particular Despite greater levels of infertility and strong cultural meanings attached to having children little attention has been paid politically or academically to the needs of minority ethnic women and men This groundbreaking volume is the first to highlight the ways in which diverse ethnic cultural and religious identities impact upon understandings of technological solutions for infertility and associated treatment experiences within Western societies It offers a corrective to the dominance of the narratives of hegemonic groups in infertility research The collection begins with a discussion of fertility prevalence and access to treatment for minorities in the West and considers some of the key methodological challenges for social research on ethnicity and infertility Drawing on primary research from the US the UK Eire Germany the Netherlands and Australia the book then turns the spotlight onto the ways in which minority status and cultural and religious mores might impact on the experience of infertility and assisted reproductive technologies It argues that more equitable access to culturally competent assisted conception services should be an essential component of a transformatory politics of infertility Third Party Assisted Conception Across Cultures Eric Blyth, Ruth Landau, 2004 First published in 2003 Routledge is an imprint of Taylor Francis an informa company Pregnancy and Birth Claire Williams, 2024-08-30 Pregnancy is a period of time that institutes great change in the lives of those who are pregnant Regardless of whether a pregnancy concludes with the birth of a live child or not there are experiences that are common for many people who are pregnant Yet as a site of theological reflection pregnancy is underrepresented This landmark book seeks to begin the conversation within theology about pregnancy the positive and negative experiences and the potential for pregnancy to be understood theologically Chapters consider a number of avenues in this exploration from early pregnancy loss to trauma in labour from adoption to the end of reproductive years at the onset of menopause Throughout this book seeks to understand the resources that theology brings to the experiences of pregnancy as well as the situations of oppression and underrepresentation that currently exist Allowing for intersections of race parenting childlessness and disability this book approaches pregnancy from different theological perspectives in order to complexify the theological response and engagement as well as produce constructive resources for both the academy and the church Contributors include Chine McDonald Julie Gittoes Margaret Kamitsuka and Rachel Muers Infertility Counseling Sharon N. Covington, Linda Hammer Burns, 2006-10-16 Infertility Counseling A Comprehensive Handbook for Clinicians 2nd edition is a comprehensive multidisciplinary textbook for all health professionals providing care for individuals facing reproductive health issues It is the most thorough and extensive book currently available for clinicians in the field of infertility counseling providing an exhaustive and comprehensive review of topics It addresses both the medical and psychological aspects of infertility reviewing assessment approaches treatment strategies counseling for medical conditions impacting fertility third party reproduction alternative family building and post infertility counseling issues Each
