Pivotal Voices, Era of Transition Rigoberto Gonzalez, 2017-09-14 *Pivotal Voices: Era of Transition* gathers Rigoberto Gonzalez's most important essays and book reviews, many of which consider the work of emerging poets whose identities and political positions are transforming what readers expect from contemporary poetry. A number of these voices represent intersectional communities such as queer writers of color like Natalie Diaz, Danez Smith, Ocean Vuong, and Eduardo C. Corral, and many writers such as Carmen Gimenez Smith and David Tomas Martinez have deep connections to their Latino communities. Collectively, these writers are enriching American poetry to reflect a more diverse panoramic and socially conscious literary landscape. Also featured are essays on the poets' literary ancestors including Juan Felipe Herrera, Alurista, and Francisco X. Alarcón, and speeches that address the need to leverage poetry as agency. This book fills a glaring gap in existing poetry scholarship by focusing exclusively on writers of color and particularly on Latino poetry. Gonzalez makes important observations about the relevance, urgency, and exquisite craft of the work coming from writers who represent marginalized communities. His insightful connections between the Latino, African American, Asian American, and Native American literatures persuasively position them as a collective movement critiquing, challenging, and reorienting the direction of American poetry with their nuanced and politicized verse. Gonzalez's inclusive vision covers a wide landscape of writers opening literary doors for sexual and ethnic minorities.

Teaching Literature and Medicine Anne Hunsaker Hawkins, Marilyn Chandler McEntyre, 2016-01-01 Both the actualities and the metaphorical possibilities of illness and medicine abound in literature, from the presence of tuberculosis in Franz Kafka's fiction or childbed fever in Mary Shelley's *Frankenstein* to disease in Thomas Mann's *Death in Venice* or in Harold Pinter's *A Kind of Alaska* from the stories of Anton Chekhov and of William Carlos Williams, both doctors, to the poetry of nurses derived from their contrasting experiences. These are just a few examples of the cross-pollination between literature and medicine. It is no surprise then that courses in literature and medicine flourish in undergraduate curricula, medical schools, and continuing education programs throughout the United States and Canada. This volume in the MLA series *Options for Teaching* presents a variety of approaches to the subject. It is intended both for literary scholars and for physicians who teach literature and medicine or who are interested in enriching their courses in either discipline by introducing interdisciplinary dimensions. The thirty-four essays in *Teaching Literature and Medicine* describe model courses, deal with specific texts, authors, and genres, list readings widely taught in literature and medicine courses, discuss the value of texts in both medical education and the practice of medicine, and provide

bibliographic resources including works in the history of medicine from classical antiquity **Milton among Spaniards**
