Tullis, 2017-03-01 Comics and childhood have had a richly intertwined history for nearly a century From Richard Outcault s Yellow Kid Winsor McCay s Little Nemo and Harold Gray s Little Orphan Annie to Herg s Tintin Belgium Jos Escobar s Zipi and Zape Spain and Wilhelm Busch s Max and Moritz Germany iconic child characters have given both kids and adults not only hours of entertainment but also an important vehicle for exploring children s lives and the sometimes challenging realities that surround them Bringing together comic studies and childhood studies this pioneering collection of essays provides the first wide ranging account of how children and childhood as well as the larger cultural forces behind their representations have been depicted in comics from the 1930s to the present The authors address issues such as how comics reflect a spectrum of cultural values concerning children sometimes even resisting dominant cultural constructions of childhood how sensitive social issues such as racial discrimination or the construction and enforcement of gender roles can be explored in comics through the use of child characters and the ways in which comics use children as metaphors for other issues or concerns Specific topics discussed in the book include diversity and inclusiveness in Little Audrey comics of the 1950s and 1960s the fetishization of adolescent girls in Japanese manga the use of children to build national unity in Finnish wartime comics and how the animal child hybrids in Sweet Tooth act as a metaphor for commodification Publishers Weekly, 1995 **Revel with a Cause** Stephen E. Kercher, 2010-06-15 We live in a time much like the postwar era A time of

arch political conservatism and vast social conformity A time in which our nation s leaders question and challenge the patriotism of those who oppose their policies But before there was Jon Stewart Al Franken or Bill Maher there were Mort Sahl Stan Freberg and Lenny Bruce liberal satirists who through their wry and scabrous comedic routines waged war against the political ironies contradictions and hypocrisies of their times *Revel with a Cause* is their story Stephen Kercher here provides the first comprehensive look at the satiric humor that flourished in the United States during the 1950s and early 1960s Focusing on an impressive range of comedy not just standup comedians of the day but also satirical publications like MAD magazine improvisational theater groups such as Second City the motion picture Dr Strangelove and TV shows like That Was the Week That Was Kercher reminds us that the postwar era saw varieties of comic expression that were more

challenging and nonconformist than we commonly remember His history of these comedic luminaries shows that for a sizeable audience of educated middle class Americans who shared such liberal views the period s satire was a crucial mode of cultural dissent For such individuals satire was a vehicle through which concerns over the suppression of civil liberties Cold War foreign policies blind social conformity and our heated racial crisis could be productively addressed A vibrant and probing look at some of the most influential comedy of mid twentieth century America Revel with a Cause belongs on the short list of essential books for anyone interested in the relationship between American politics and popular culture
