focus of much attention the eighteenth century has largely been neglected Utopian Imagination and Eighteenth Century Fiction combines these major areas of interest interpreting some of the most fascinating and innovative fictions of the period and locating them in a continuing tradition of utopian writing which stretches back through the Renaissance to the Ancient World Beginning with a survey of the recurrent topics in utopian writing power structures in the state money food sex the role of women birth education and death the book brings together canonical eighteenth century texts countaining powerful utopian elements such as Robinson Crusoe Gulliver s Travels and Rasselas and less familiar works to examine the reworking of these topics in a new context The unfamiliar texts including Gaudentio di Lucca are described in detail to give students an idea of relevant material across a broad area A section is devoted specifically to women writes an area which has become the focus of attention The mixture of texts provides a useful cross reference for students tackling the subject from various perspectives and the comprehensive bibliography provides a valuable tool for those with general or specific interests

Approaching its subject both contextually and comparatively George Gissing and the Woman Question reads Gissing s novels short stories and personal writings as a crux in European fiction s formulations of gender and sexuality The collection places Gissing alongside nineteenth and twentieth century authors as diverse as Paul Bourget Ella Hepworth Dixon May Sinclair and Theodore Dreiser theorizing the ways in which late Victorian sexual difference is challenged explored and performed in Gissing s work In addition to analyzing the major novels essays make a case for Gissing as a significant short story writer and address Gissing s own life and afterlife in ways that avoid biographical mimetics The contributors also place Gissing s work in relation to discourses of subjectivity and intersubjectivity identity public space class and labour especially literary production Increasingly viewed as a key chronicler of the late Victorian period s various redefinitions of sexual difference Gissing is here recognized as a sincere uncompromising chronicler of social change [Making Gender, Culture, and the Self in the Fiction of Samuel Richardson](#) Bonnie Latimer, 2016-05-13 Proposing that Samuel Richardson s novels were crucial for the

construction of female individuality in the mid eighteenth century Bonnie Latimer shows that Richardson s heroines are uniquely conceived as individuals who embody the agency and self determination implied by that term In addition to placing Richardson within the context of his own culture recouping for contemporary readers the influence of Grandison on later writers including Maria Edgeworth Sarah Scott and Mary Wollstonecraft is central to her study Latimer argues that Grandison has been unfairly marginalised in favor of Clarissa and Pamela and suggests that a rigorous rereading of the novel not only provides a basis for reassessing significant aspects of Richardson s fictional oeuvre but also has implications for fresh thinking about the eighteenth century novel Latimer s study is not a specialist study of Grandison but rather a reconsideration of Richardson s novelistic canon that places Grandison at its centre as Richardson s final word on his re envisioning of the gendered self
