Félix Guattari Franco Berardi Bifo, 2008-11-05 Felix Guattari Thought Friendship and Visionary Cartography by Franco Berardi Bifo originates in the author's close personal acquaintance with Felix Guattari's writings and political engagement in

the context of Berardi Bifo's activism in Italian autonomist politics and his ongoing collaboration with Guattari in the 1970s and 1980s. This biography gains distinction from its keen insight into Guattari's political practice and from a precise understanding of how this practice relates to the theoretical and conceptual aspects of Guattari's writings alone and with Gilles Deleuze. Thanks to an approach at once personal and theoretically well informed, Bifo's biography provides a clear and accessible introduction to Guattari's works. This edition also includes a critical introduction and a 2005 interview with Bifo on a range of topics relating Guattari's works to the current political conjuncture.

The Architecture of Psychoanalysis

Jane Rendell, 2017-03-01 In this thought provoking book Jane Rendell explores how architectural space registers in psychoanalysis. She investigates both the inherently spatial vocabulary of psychoanalysis and ideas around the physical setting of the psychoanalytic encounter with reference to Sigmund Freud, D.W. Winnicott and Andre Green. Building on the innovative writing methods employed in *Art and Architecture* and *Site Writing*, she also addresses the concept of architecture as social condenser, a Russian constructivist notion that connects material space and community relations. Tracing this idea's progress from 1920s Moscow to 1950s Britain, Rendell shows how interior and exterior meet in both psychoanalysis and architectural practice. Illuminating a novel field of interdisciplinary enquiry, this book breathes fresh life into notions of social space.

Avatar and Nature Spirituality Bron Taylor, 2013-08-14 *Avatar and Nature Spirituality* explores the cultural and religious significance of James Cameron's film *Avatar* (2010), one of the most commercially successful motion pictures of all time. Its success was due in no small measure to the beauty of the Pandora landscape and the dramatic heart wrenching plight of its nature venerating inhabitants. To some audience members the film was inspirational, leading them to express affinity with the film's message of ecological interdependence and animistic spirituality. Some were moved to support the efforts of indigenous peoples who were metaphorically and sympathetically depicted in the film to protect their cultures and environments. To others the film was politically, ethically or spiritually dangerous. Indeed the global reception to the film was intense, contested and often confusing. To illuminate the film and its reception, this book draws on an interdisciplinary team of scholars, experts in indigenous traditions, religious studies, anthropology, literature and film, and post colonial studies. Readers will learn about the cultural and religious trends that gave rise to the film and the reasons these trends are feared, resisted and criticized, enabling them to wrestle with their own views not only about the film but about the controversy surrounding it. Like the film itself, *Avatar and Nature Spirituality* provides an opportunity for considering afresh the ongoing struggle to determine how we should live on our home planet and what sorts of political, economic and spiritual values and practices would best guide us.
