**Critical Childhood Studies and the Practice of Interdisciplinarity** Joanne Faulkner, Magdalena Zolkos, 2015-12-14 This book analyzes different figurations of childhood in contemporary culture and politics with a particular focus on interdisciplinary methodologies of critical childhood studies It argues that while the figure of the child has been traditionally located at the peripheries of academic disciplines perhaps most notably in history sociology and literature the proposed critical discussions of the ideological symbolic and affective roles that children play in contemporary societies suggest that they are often the locus of larger societal crises collective psychic tensions and unspoken prohibitions and taboos As such this book brings into focus the prejudices against childhood embedded in our standard approaches to organizing knowledge and asks is there a natural disciplinary home for the study of childhood Or is this field fundamentally interdisciplinary peripheral or problematic to notions of disciplinary identity In this respect does childhood force innovation in thinking about disciplinarity For instance how does the analysis of childhood affect how we think about methodology What role do understandings of childhood play in delimiting how we conceive of our society our future and ourselves How does thinking about childhood affect how we think about culture history and politics This book brings together researchers working broadly in critical child studies but from various disciplines in the humanities and social sciences including philosophy literary studies sociology cultural studies and history in order to stage a conversation between these diverse perspectives on the disciplinary or interdisciplinary character of the child as an object of research Such conversation builds on the assumption that childhood far from being marginal is a topic that is hidden in plain sight That is to say while the child is always a presence in culture history literature and philosophy and is often even a highly charged figure within those fields its operation and effects are rarely theoretically scrutinized but rather are more likely drawn upon surreptitiously for another purpose

mystery of an iconoclast whose influence can be seen in everyone from Jasper Johns to Beyoncé

**The Age of Female Eunuchs** Syed Amanuddin, 1974 , *The Cambridge Guide to Women's Writing in English* Lorna Sage, 1999-09-30 This Guide aims to consolidate and epitomise the re-reading of women's writing that has gone on in the last twenty-five years. This is an opportunity for stock-taking a timely project when so much writing has been rediscovered, reclaimed and republished. There are entries on writers, on individual texts and on general terms, genres and movements, all printed in a single alphabetical sequence. The earliest written documents in medieval English, the visionary writings of Julian of Norwich and Margery Kempe, are covered in an historical and geographical sweep that takes us up to the present day. The book reflects the spread of literacy, the history of colonisation and the development of post-colonial cultures, using and changing the English language. The entries are written by contributors from all the countries covered. The result is a work of reference with a unique feeling for the vitality, wealth and diversity of women's writing.

**The History of British Women's Writing, 1945-1975** Clare Hanson, Susan Watkins, 2017-09-14 This volume reshapes our understanding of British literary culture from 1945-1975 by exploring the richness and diversity of women's writing of this period. Essays by leading scholars reveal the range and intensity of women writers' engagement with post-war transformations, including the founding of the Welfare State, the gradual liberalization of attitudes to gender and sexuality, and the reconfiguration of Britain and the empire in the context of the Cold War. Attending closely to the politics of form, the sixteen essays range across literary, middlebrow and popular genres, including espionage thrillers and historical fiction, children's literature and science fiction, as well as poetry, drama and journalism. They examine issues including realism and experimentalism, education, class and politics, the emergence of second-wave feminism, responses to the Holocaust and mass migration and diaspora. The volume offers an exciting reassessment of women's writing at a time of radical social change and rapid cultural expansion.

**Encyclopedia of Women Social Reformers** Helen Rappaport, 2001-12-06 The first comprehensive guide to women activists from every part of the world, illuminating the broad range of women's struggles to reform society from the 18th century to the present. This two-volume encyclopedia documents the visions, struggles and lives of women who have changed the world. This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe, women who have bravely insisted that the way things are is not the way they have to be.
