Undoubtedly Contributions to the Masculinity Complex in Women is an underrated paper This may be due to its not being published in English until 1924 well after Freud introduced the term masculinity complex into his own writings However Van Ophuijsen s paper was originally presented to the Dutch Psycho Analytical Society much earlier on 23rd June 1917 It was published in German the same year and in Dutch the following year The term masculinity complex is in fact van Ophugsen s invention and Freud acknowledges his debt in his 1919 paper A Child is Being Beaten It is also in the present paper that various manifestations and possible consequences of penis envy are first clearly expressed just as the libidinal investment in the virile erogenous zone is linked to the attachment to the mother This last point is particularly important and Freud will later appeal to it in explaining the phallicism of the little girl The material van Ophuijsen draws on derives from five case studies of obsessional women One of the cases who is here simply referred to as H is subsequently discussed by Jeanne Lampl de Groot in her 1928 paper Evolution of the Oedipus Complex in Women a discussion Freud alludes to in his Female Sexuality of 1931 The analysand was referred to Lampl de Groot because of difficulties encountered in the transference to a male analyst It is also worth noting that van Ophuijsen takes her to be an obsessional while Lampl de Groot diagnoses hysteria Van Ophuijsen s starting point concerns one aspect of the theory of penis envy namely that it derives from the sense a woman has of having been injured in infancy through no fault of her own and hence she will blame her mother for having brought her into this world as a woman instead of a man This matches some character types encountered in analysis van Ophuijsen conjectures He also points out that this turning against the mother is as with the castration complex founded on a belief in the possibility of possessing the penis The difference between the castration and masculinity complexes is that the sense of guilt attached to the former is absent from the masculinity complex in which on the other hand what predominate are the sense of having been wronged and accompanying bitterness and reproaches Moreover the term is intended to connote the presence of a form of rivalry with men rather than the presence of any overt masculine characteristics Finally one should note the connection between the masculinity complex and the urethral erotism which van Ophuijsen explains in terms of a regression to the auto erotic stage later tackled by other analysts such as Karen Homey

Jacques Lacan and the Other Side of Psychoanalysis Justin Clemens, Russell Grigg, 2006-05-23 Articles by noted Lacanian psychoanalysts and scholars discussing issues that emerge in Lacan s Seminar XVII newly translated that import fields of psychoanalysis philosophy political theory cultural studies and literary studies

Reading Lacan s Écrits: From 'Signification of the Phallus' to 'Metaphor of the Subject' Stijn Vanheule, Derek Hook, Calum Neill, 2018-10-09 The crits was Jacques Lacan s single most important text a landmark in psychoanalysis which epitomized his aim of returning to Freud via structural linguistics philosophy and literature Reading Lacan s crits is the first extensive set of commentaries on the complete edition

of Lacan's critics to be published in English. An invaluable document in the history of psychoanalysis and one of the most challenging intellectual works of the twentieth century, Lacan's critics still today beg the interpretative engagement of clinicians, scholars, philosophers, and cultural theorists. The three volumes of *Reading Lacan's Critics* offer just this: a series of systematic paragraph-by-paragraph commentaries by some of the world's most renowned Lacanian analysts and scholars on the complete edition of the critics, inclusive of lesser-known articles such as Kant with Sade, *The Youth of Gide*, *Science and Truth*, *Presentation on Transference*, and *Beyond the Reality Principle*. The originality and importance of Lacan's critics to psychoanalysis and intellectual history is matched only by the text's notorious inaccessibility. *Reading Lacan's Critics* is an indispensable companion piece and reference text for clinicians and scholars exploring Lacan's magnum opus. Not only does it contextualize, explain, and interrogate Lacan's arguments, it provides multiple interpretative routes through this most labyrinthine of texts. *Reading Lacan's Critics* provides an incisive and accessible companion for psychoanalysts and psychoanalytic psychotherapists in training and in practice, as well as philosophers, cultural theorists, and literary, social, science, and humanities researchers who wish to draw upon Lacan's pivotal work.

Female Sexuality Russell Grigg, 2018-04-17. Undoubtedly, *Contributions to the Masculinity Complex in Women* is an underrated paper. This may be due to its not being published in English until 1924, well after Freud introduced the term *masculinity complex* into his own writings. However, Van Ophuijsen's paper was originally presented to the Dutch Psychoanalytical Society much earlier, on 23rd June 1917. It was published in German the same year and in Dutch the following year. The term *masculinity complex* is, in fact, van Ophuijsen's invention, and Freud acknowledges his debt in his 1919 paper *A Child is Being Beaten*. It is also in the present paper that various manifestations and possible consequences of penis envy are first clearly expressed, just as the libidinal investment in the virile erogenous zone is linked to the attachment to the mother. This last point is particularly important, and Freud will later appeal to it in explaining the phallicism of the little girl. The material van Ophuijsen draws on derives from five case studies of obsessional women. One of the cases, who is here simply referred to as H, is subsequently discussed by Jeanne Lampl de Groot in her 1928 paper *Evolution of the Oedipus Complex in Women*, a discussion Freud alludes to in his *Female Sexuality* of 1931. The analysand was referred to Lampl de Groot because of difficulties encountered in the transference to a male analyst. It is also worth noting that van Ophuijsen takes her to be an obsessional, while Lampl de Groot diagnoses hysteria. Van Ophuijsen's starting point concerns one aspect of the theory of penis envy, namely that it derives from the sense a woman has of having been injured in infancy through no fault of her own, and hence she will blame her mother for having brought her into this world as a woman instead of a man. This matches some character types encountered in analysis, van Ophuijsen conjectures. He also points out that this turning against the mother is, as with the castration complex, founded on a belief in the possibility of possessing the penis. The difference between the castration and masculinity complexes is that the sense of guilt attached to the former is absent from the masculinity complex, in which on

the other hand what predominate are the sense of having been wronged and accompanying bitterness and reproaches Moreover the term is intended to connote the presence of a form of rivalry with men rather than the presence of any overt masculine characteristics Finally one should note the connection between the masculinity complex and the urethral erotism which van Ophuijsen explains in terms of a regression to the auto erotic stage later tackled by other analysts such as Karen Homey

Women's Bodies in Psychoanalysis Rosemary M Balsam, 2012-07-26

Why has the female body been marginalised in psychoanalysis with a focus on female problems and pains only How can we begin to think about body pleasure power competition and aggression as normal in females In Women s Bodies in Psychoanalysis Rosemary Balsam argues that re tracing theoretical steps back to the biological body s attributes is fruitful in searching for the clues of our mental development She shows that the female biological body across female gender variants and sexual preferences including the vanished pregnant body has been largely overlooked in previous studies It is how we weave these images of the body into our everyday lives that informs our gendered patterning These details about being female free up gender studies in the postmodern era to think about the body s contribution to gender rather than continuing the familiar postmodern trend to repudiate biology and perpetuate the divide between the physical and the mental There are four main areas explored clinical contributions on female development assessments of past and present psychoanalytic theories in relation to the body inner portraits of gender building blocks a conscious and unconscious focus on the potentially procreative female body Women s Bodies in Psychoanalysis will be of particular interest to psychodynamic psychotherapeutic and psychoanalytic practitioners teachers students feminist academicians college undergraduates graduates and faculty in women s studies and gender studies Rosemary Balsam is Associate Clinical Professor of Psychiatry Yale School of Medicine Staff Psychiatrist Yale University Student Mental Health and Counselling Services Training and Supervising Analyst Western New England Institute for Psychoanalysis

Ship of Thought Duncan Barford, 2018-05-08 Learning is the most basic means by which we can change ourselves Of all the activities of the mind learning is perhaps the most fundamental yet one of the most provocative and difficult to understand In this fourth volume of the Encyclopaedia of Psychoanalysis ten new essays by an interdisciplinary array of educationalists psychoanalysts and academics confront head on the many problems associated with the mystery of learning What is learning How are ideas transmitted from the mind of one person to the mind of another What makes a good teacher Like all the preceding volumes in The Encyclopaedia of Psychoanalysis ideas and opinions are presented from a contrasting variety of viewpoints within contemporary psychoanalytic theory Individual chapters are devoted to the theories of learning implicit in the work of Freud Jung Klein Bion Winnicott and Lacan Other topics explored in this extremely comprehensive and thought provoking collection include how to teach psychoanalytically the relationship between learning difficulty and writer's block and the problems inherent in teaching psychoanalysis itself

Sex Changes with Kleist Katrin Pahl, 2019-05-15 Sex Changes with Kleist analyzes how the dramatist and poet Heinrich von Kleist 1777 1811 responded to the change in the conception of sex and gender that occurred in the eighteenth century Specifically Katrin Pahl shows that Kleist resisted the shift from a one sex to the two sex and complementary gender system that is still prevalent today With creative close readings engaging all eight of his plays Pahl probes Kleist's appreciation for incoherence his experimentation with alternative symbolic orders his provocative understanding of emotion and his camp humor Pahl demonstrates that rather than preparing modern homosexuality Kleist puts an end to modern gender norms even before they take hold and refuses the oppositional organization of sexual desire into homosexual and heterosexual that sprouts from these norms Focusing on the theatricality of Kleist's interventions in the performance of gender sexuality and emotion and examining how his dramatic
