Character Revelations of Mind and Body Gerald Elton Fosbroke, 1922 *Feminisms* Robyn R. Warhol, Diane Price Herndl, 1997 In the landmark 1991 edition of *Feminisms* Robyn Warhol and Diane Price Herndl assembled the most comprehensive collection of American and British feminist literary criticism ever to be published In this revised edition the editors have updated the volume in keeping with the expanded parameters of feminist literary discourse With the inclusion of more than two dozen new essays along with a major reorganization of the sections in which they appear Warhol and Price Herndl have again established the measure for representing the latest developments in the field of feminist literary theory Believing that the feminist movement can only move forward where difference commands attention not dismissal or negativism they have continued the original collection's mission of providing a multiplicity of perspectives and approaches This anthology contains three new sections Conflict Gaze and Practice and includes more selections by and about women of

color and lesbians Aimed at academics and the general public alike this collection is an indispensable guide to the range of practice on campus today in the field of feminist literary criticism

Women's Agency in the Dune Universe Kara Kennedy, 2022-01-01 This book undertakes the first large scale analysis of women's agency in Frank Herbert's six book science fiction Dune series Kara Kennedy explores how female characters in the Bene Gesserit Sisterhood from Jessica to Darwi Odrade secure control and influence through five avenues of embodied agency mind body synergy reproduction and motherhood voices education and memory and sexuality She also discusses constraints on their agency tensions between individual and collective action and comparisons with other characters including the Mentats Bene Tleilaxu and Honored Matres The book engages with second wave feminist theories and historical issues to highlight how the series anticipated and paralleled developments in the women's liberation movement In this context it addresses issues regarding sexual difference and solidarity as well as women's demand to have control over their bodies Kennedy concludes that the series should be acknowledged as a significant contribution to the genre as part of both New Wave and feminist science fiction

The Thin Woman Helen Malson, 2023-12-21 The First Edition of The Thin Woman first published in 1998 provides an in depth discussion of anorexia nervosa from a critical feminist social psychological standpoint In the original text the author argues that the notion of anorexia as a medical condition limits our understanding of anorexia and the extent to which we can explore it as a socially and discursively produced problem The book now has a new introduction that discusses some of the major cultural and academic developments that have occurred since its first publication In considering our changing cultural landscapes the introduction goes on to discuss the so called obesity crisis the emergence of post feminism the massive global expansion of digital and social media and most recently the Covid 19 pandemic Turning to academic developments it focuses on the increasing recognition of intersectional feminism and reflects on how intersectional perspectives are now beginning to shape critical feminist research and theory in this field The new introduction also highlights the significant growth in the last 25 years of critical feminist research on eating disorders which has brought with it a greater awareness of intersectional theory and a more inclusive agenda an expansion of research foci a diversification of methodologies and the emergence of more egalitarian models of research in which those with lived experience of eating disorders are becoming valued research team members who help to shape research aims designs and processes Based on original research using historical and contemporary literature on anorexia nervosa and a series of interviews with women who identified as anorexic this book offers critical insights into this problem It is an invaluable read for anyone interested in eating disorders and gender developments in feminist post structuralist theory and discourse

analytic research in psychology **Louise Dupin's Work on Women** Louise Dupin, 2023 The eighteenth century text *Work on Women* by Louise Dupin also known as Madame Dupin 1706 1799 is the French Enlightenment's most in depth feminist analysis of inequality and its most neglected one Angela Hunter and Rebecca Wilkin here offer the first ever edition of selected translations of Dupin's massive project developed from manuscript drafts Hunter and Wilkin provide helpful introductions to the four sections of *Work on Women* Science History and Religion Law and Education and Mores which contextualize Dupin's arguments and explain the work's construction including the role of her secretary Jean Jacques Rousseau Dupin's central claim in *Work on Women* is that French jurists have gradually disenfranchised women through reductive interpretations of Roman law As a result modern marriage is founded on an abusive illegitimate contract that enriches one party and impoverishes the other This manifest injustice is enabled by the masculine vanity that aggrandizes men diminishes women and distorts all realms of knowledge Dupin shows how the most reputable scientists incorporate old notions of women's weakness into new understandings of the body while historians denigrate female rulers or erase them altogether Even in everyday conversation men assert their entitlement to social dominance through casual misogyny Thus although Dupin advocates for meaningful education for girls she insists that the upbringing of boys must also be reformed This volume fills an important gap in the history of feminist thought and will appeal to readers eager to hear new voices that challenge established narratives of intellectual history **Women and Bullfighting** Sarah Pink, 2020-07-12 This book investigates the popularity and success of contemporary women performers in bullfighting culture which has been framed by a discourse of traditionalist masculinity This examination of the changing situation of women in the bullfighting world is used to explore the ways in which gender is represented enacted and negotiated in contemporary Spain The bullfight in the 1990s is in an ambiguous position it is a traditional performance in a changing consumer society In order to survive it needs to adapt itself to a wider social context and in particular to international media coverage It is in this context that the current success of women performers is located However women performers are a contested phenomenon in the bullfighting world there is heated debate over their acceptability much of which focuses on the body Moreover the entry of women into the bullfight questions existing definitions of the sport's ritual structure and of gender relations in Spain Thoroughly researched and compelling to read *Women and Bullfighting* addresses these issues and argues that existing traditionalist approaches to gender bullfighting and ritual in Spain need to be revised in order to locate women bullfighters in the context of a richly varied culture which is increasingly affected by the media and contemporary patterns of consumption This provocative book will be of interest to researchers and students of anthropology gender studies sociology cultural studies media studies and Spanish studies ***The Female Body in the Looking-Glass*** Basia Sliwinska, 2016-06-29 In his theory of the mirror stage the psychoanalyst and psychiatrist Jacques Lacan argued that the female body is defined by its lack of male attributes Within this framework he described female sexuality primarily as an absence and assumed female subordination to the male gaze

However what happens if one follows Jean Baudrillard's advice to swallow the mirror and go through the looking glass to explore the reflections and realities that we encounter in the cultural mirror which reflects the culture in question its norms ideals and values What if the beautiful is inverted and becomes ugly and the ugly is considered beautiful or shape shifts into something conventionally thought of as beautiful These are the fundamental questions that Basia Sliwinska poses in this important new enquiry into gender identity and the politics of vision in contemporary women's art Through an innovative discussion of the mirror as a metaphor Sliwinska reveals how the post 1989 practices of woman artists from both sides of the former Iron Curtain such as Joanna Rajkowska Marina Abramovic Boryana Rossa Natalia LL and Anetta Mona Chisa and Lucia Tkacova go beyond gender binaries and instead embrace otherness and difference by playing with visual tropes of femininity Their provocative works offer alternative representations of the female body to those seen in the cultural mirror Their art challenges and deconstructs patriarchal representations of the social and cultural other associated with visual tropes of femininity such as Alice in Wonderland Venus and Medusa *The Female Body in the Looking Glass* makes a refreshing radical intervention into art theory and cultural studies by offering new theoretical concepts such as the mirror and genderland inspired by Alice's adventures in Wonderland as critical tools with which we can analyse and explain recent developments in women's art *Fantasies of Female Evil* Cristina León Alfar, 2003 Focuses on Romeo and Juliet King Lear Macbeth Antony and Cleopatra and The winter's tale UkBU *Reinventing Mom* Kelly Pryde, Ph.D., 2013-12 You're on demand 24/7 juggling children home management work relationships and never ending to do lists You perform superhuman feats of multitasking to get it all done but the harder you strive for life balance and happiness the more tired frustrated and underappreciated you feel Like many moms today you are simply running on empty In this guide Kelly Pryde Ph.D. combines real life experiences with extensive research to help you step out of the hurried foggy of everyday juggling into a deeper more joyful experience of motherhood Her seven pathways of reinvention will help you learn how to turn around self limiting beliefs and practices reclaim your feminine wisdom and restore your energy and mood rethink balance and priorities find joy meaning and peace of mind amidst the chaos slow down and reconnect with what matters most to you and your family Filled with practical advice inspiring stories and a wealth of resources *Reinventing Mom* will support nurture and guide you toward becoming the Mom and woman you are meant to be **Body/Politics** Mary Jacobus, Evelyn Fox Keller, Sally Shuttleworth, 2013-02-01 *Body Politics* demonstrates how many of the controversies in modern science involve or invoke the feminine body as their battleground This groundbreaking collection addresses such scientific issues as artificial fertilization the crisis in childbirth management and the medical invention of female maladies and the debates surrounding them In the process it makes an important attempt to remedy the traditional division between science and non science by focusing on the interconnection of literary social and scientific discourses concerning the female body The editors have brought together noted feminist scholars and critics from various fields Contributors include Susan Bordo Mary Ann Doane Donna Haraway
