Feminism And Men Reconstructing Gender Relations:

Feminism and Men Steven Schacht, Doris Ewing, 1998-10 Too often feminism has been defined as a woman only arena or in competitive terms of male versus female privilege rather than a cooperative effort to improve the quality of life for everyone Contributors to FEMINISM AND MEN argue that the feminist movement should no longer view with suspicion those men who have proved themselves sympathetic to issues of gender equity **Feminism with Men** Steven P. Schacht, Doris W. Ewing, 2004-10-08 How can men participate in feminism as a full and equal partner respecting gender differences yet sharing a common vision with women for an oppression free future This book provides both male and female perspectives academic insights and practical suggestions for pro feminist men seeking new ways to increase mutual understanding and to create cooperative efforts with feminist women **Men and Feminism** Shira Tarrant, 2009-05-12 A latest installment in a successful series that includes *Feminism and Pop Culture* and *Women and Violence* evaluates feminism as a human issue counseling male readers on key topics in historical and modern feminism and women s studies Original Forging Radical Alliances Across Difference Jill M. Bystydzienski, Steven P. Schacht, 2001 As we enter the twenty first century scholars activists and others concerned with social change increasingly realize that in order to transform society effective coalitions among different groups working for social justice need to be created and maintained However most of the research and writing about coalitions provide rather limited approaches to the study and understanding of radical alliances i e coalitions whose goals are to fundamentally change interpersonal relations and social structure in order to achieve equality and true social justice This anthology challenges dominant approaches of explaining social movements and coalition building Based on numerous case studies of alliances created between disparate peoples and among a variety of groups the authors show that both resource mobilization theories and identity politics frameworks for the most part are inadequate for conceptualizing how alliances have been and can be created across boundaries of gender race ethnicity class nationality ideology sexual orientation and age The theoretical approach we propose suggests that coalitions are fluid sites of collective behavior where the blending of multiple identities with political activism interact with structural conditions to influence the development of commitments strategies and specific actions This analogy makes a contribution to a body of knowledge that aims to understand and explain how radical coalitions work in order to enable the development of visions and plans for change that advance and sustain political and social activity Third Wave Feminism S. Gillis, G. Howie, R. Munford, 2007-04-17 This revised and expanded edition new in paperback provides a definitive collection on the current period in feminism known by many as the third wave Three sections genealogies and generations locales and locations politics and popular culture interrogate the wave metaphor and through questioning the generational account of feminism indicate possible future trajectories for the feminist movement New to this edition are an interview with Luce Irigaray a foreword by Imelda Whelehan as well as newly commissioned chapters Gendered Futures in Higher Education Becky

Ouzgane, R. Morrell, 2005-03-15 While masculinity studies enjoys considerable growth in the West there is very little analysis

of African masculinities This volume explores what it means for an African to be masculine and how male identity is shaped by cultural forces The editors believe that to tackle the important questions in Africa the many forms of violence wars genocides familial violence and crime and the AIDS pandemic it is necessary to understand how a combination of a colonial past patriarchal cultural structures and a variety of religious and knowledge systems creates masculine identities and sexualities The work done in the book particularly bears in mind how vulnerability and marginalization produce complex forms of male identity The book is interdisciplinary and is the first in depth and comprehensive study of African men as a gendered category

Cross, 2008 When did maturity become the ultimate taboo Men have gone from idolizing Cary Grant to aping Hugh Grant shunning marriage and responsibility well into their twenties and thirties Gary Cross renowned cultural historian identifies the boy man and his habits examining the attitudes and practices of three generations to make sense of this gradual but profound shift in American masculinity Cross matches the rise of the American boy man to trends in twentieth century advertising popular culture and consumerism and he locates the roots of our present crisis in the vague call for a new model of leadership that ultimately failed to offer a better concept of maturity Revenge Capitalism Max Haiven, 2020-05-20 Capitalism is in a profound state of crisis Beyond the mere dispassionate cruelty of ordinary structural violence it appears today as a global system bent on reckless economic revenge its expression found in mass incarceration climate chaos unpayable debt pharmaceutical violence and the relentless degradation of common life In Revenge Capitalism Max Haiven argues that this economic vengeance helps us explain the culture and politics of revenge we see in society more broadly Moving from the history of colonialism and its continuing effects today he examines the opioid crisis in the US the growth of surplus populations worldwide and unpacks the central paradigm of unpayable debts both as reparations owed and as a methodology of oppression Revenge Capitalism offers no easy answers but is a powerful call to the radical imagination **Feminist Solidarity at the Crossroads** Kim Marie Vaz, Gary L.
