Feminism And The Politics Of Difference Sneja Marina Gunew, Anna Yeatman, 1993-12-28 *Feminist Politics* Deborah Orr, 2007 The essays in *Feminist Politics* contest some of the prevailing conceptualizations of identity and difference as well as the functions of these concepts in feminist political discourse and praxis Doing so they amply demonstrate that issues of identity and difference have a central place in contemporary feminist scholarship The authors of these essays have worked to develop new ways of understanding and living out differences which will both preserve and celebrate them while also fostering the necessary conditions for opening dialogue and forming new coalitions The intent of these efforts has been to thereby engender imaginative new strategies for the personal spiritual and sociopolitical changes that will enable human growth wellbeing and flourishing While the focus of the work represented here is understandably on women the issues that are raised are given additional urgency explicitly in some of the papers and implicitly in others by the situation of their concerns in the context of the world created by the Bush administration Because that administration has foregrounded issues of identity and difference in ways that are not only inhumane and often inaccurate but dangerous for all of us the new ways of thinking and acting that are proposed here have a much broader application Thus these papers truly invite not only feminists but all people to move in new directions Taken as a whole this volume represents cutting edge thinking from an international perspective in these important and pressing areas for feminist research and praxis

Feminism and the Politics of Literary Reputation Charlotte Templin, 1995 Soon after its publication in 1973 *Fear of Flying* brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary

reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong s books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of Fear of Flying the invocation of a high culture low culture dichotomy to discredit How to Save Your Own Life the anatomy of literary success with Fanny Jong s reception in a postfeminist age and the trivialization of Jong s works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer Feminism and the Politics of Literary Reputation provides an excellent case study for the literary reception of women writers within a broad cultural context Templin s analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores

Hekman, 1995 In her landmark 1982 study *In a Different Voice* Carol Gilligan argues that there is not only one true moral voice but two one masculine one feminine Moral values and concerns associated with a feminine outlook are relational rather than autonomous they depend upon interaction with others Susan J Hekman argues that the approach to morality suggested by Gilligan's work marks a radically new departure in moral thinking In a far reaching examination and critique of Gilligan's theory Hekman seeks to deconstruct the major traditions of moral theory that have been dominant since the Enlightenment She challenges the centerpiece of that tradition the disembodied autonomous subject of modernist philosophy Hekman argues that the logic of Gilligan's approach entails multiple moral voices not just one or even two and that factors other than gender class race and

Activism, Feminism, Politics and Parliament Margaret Wilson, 2021-08-13 Margaret Wilson has always lived a political life. From her days as a child growing up in the Waikato in a Catholic family attuned to fairness, an unlikely law student in the 1960s in a class with a few other women and an emerging socialist feminist who read radical texts and attended women's conventions, her key concerns became cemented early: the rights of women and equality for all under the law. This is the story of one of New Zealand's most eminent political actors: a policy-focused campaigner reluctant to join a political tribe and uncomfortable with the combative attitudes and personal jockeying that politics seemed to entail. Wilson nevertheless rose to become the president of the Labour Party during the turbulent mid 1980s. Going on to become a central, far-sighted, occasionally controversial minister in the Clark government, Wilson held significant roles as Attorney General and Speaker of the House. **Activism, Feminism, Politics and Parliament** is a powerful analysis of political life in New Zealand over four decades. From pay equity to a home-grown Supreme Court, employment relations legislation to paid parental leave, the policies Wilson championed were based always in the long-held principles of a true conviction politician.
