Gender and the Law of the Sea Irini Papanicolopulu, 2019-05-07 Listen to the podcast with Nilufer Oral on Climate Change Oceans and Gender In Gender and the Law of the Sea a distinguished group of law of the sea and feminist scholars critically engages with one of the oldest fields of international law While the law of the sea has been traditionally portrayed as a technical gender neutral set of rules of concern to States rather than humans authors in this volume persuasively argue that critical feminist perspectives are needed to question the underlying assumptions of ostensibly gender neutral norms Coming at a time when the presence of women at sea is increasing the volume forcefully and successfully argues that legal rules are relevant to ensure gender equality and the empowerment of women at sea in an effort to render law for the oceans more inclusive See inside the book Gender at Sea Marleen Reichgelt e.a., 2022-12-14 For centuries seafaring people thought that the presence of women on board would mean bad luck rough weather shipwreck and other disasters were sure to follow Because of these beliefs and prejudices women were supposedly excluded from the maritime domain In the field of maritime history too the ship and the sea have predominantly been perceived as a space for men This volume of the Yearbook of Women's History challenges these notions It asks to what extent were the sea and the ship ever male dominated and masculine spaces How have women been part of seafaring communities maritime undertakings and maritime culture How did gender notions impact life on board and vice versa From a multidisciplinary perspective this volume moves from Indonesia to the Faroe Islands from the Mediterranean to Newfoundland bringing to light the presence of women and the workings of gender on sailing whaling steam cruise passenger pirate and navy ships As a whole it demonstrates the diversity and the agency of women at sea from ancient times to the present day **Sea Changes** Cora Kaplan, 1986 Radical feminism and literature Wild nights The feminist politics of literary theory Language and gender The indefinite disclosed The thorn birds Pandora's box Keeping the color in the color purple Wicked fathers Red Christmases Speaking writing feminism

Fairy Tales and Feminism Donald Haase, 2004 In the 1970s feminists focused critical attention on fairy tales broke the spell that had enchanted readers for centuries by exposing the role of the fairy tale in the cultural struggle over gender This book revisits feminist criticism offers a new evaluation of its merits Fashioning Feminism in Cuba and Beyond Brigida M. Pastor, 2003 Though open public discussion of the oppression of women was precluded by the nature of Hispanic societies during the nineteenth century some Hispanic women among them the Cuban writer Gertrudis Gomez de Avellaneda subtly sought to promote ideas of emancipation Focusing upon her autobiographical letters and a selection of her novels and drawing on contemporary psychoanalytical feminist theory this book traces the evolution of Avellaneda's feminism showing how she developed a series of narrative techniques and stylistic resources to explore male and female self representation and subvert the existing textual tradition Fashioning Feminism in Cuba and Beyond establishes Avellaneda at the forefront of both Cuban and Hispanic nineteenth century literature and feminist thought *Ecofeminist Perspectives from African*

Accounting for Feminism Kathryn Haynes, 2025-04-25 Although gender challenges in accounting are widely acknowledged research often addresses the position of men and women in relation to various issues without necessarily challenging the underlying structures and social constructions of gender In contrast this book takes a much more overtly feminist position informed by feminist theory feminist methodology and feminist activism to challenge these constructs and resulting inequalities The book addresses contemporary global feminisms and their potential emancipatory implications for accounting as a profession and as a tool or technology It explores feminist theorisations of accounting

offering new insights into their relevance and provides a rich theoretical and practical resource to advance knowledge in the discipline and stimulate further interdisciplinary research Rather than being issue driven with chapters organised to address particular concerns that relate to gender and accounting such as parenthood career progression accountability etc the structure of this book is such that the feminist theoretical position is the starting point for each chapter The book highlights the range of ways that feminism in its various forms and from numerous theoretical perspectives can contribute to an understanding of the challenges relating to gender race and class occurring within accounting and the ways of overcoming them In this way the book provides an integrated discussion of feminist theories and the emancipatory potential of applying them to accounting that will appeal to readers whatever their orientation to feminism **Feminist Ecocriticism** Douglas A.

Vakoch,2012-08-09 After uncovering the oppressive dichotomies of male female and nature culture that underlie contemporary environmental problems Feminist Ecocriticism focuses specifically on emancipatory strategies employed by ecofeminist literary critics as antidotes asking what our lives might be like as those strategies become increasingly successful in overcoming oppression Thus ecofeminism is not limited to the critique of literature but also helps identify and articulate liberatory ideals that can be actualized in the real world in the process transforming everyday life Providing an alternative to rugged individualism for example ecofeminist literature promotes a more fulfilling sense of interrelationship with both community and the land In the process of exploring literature from ecofeminist perspectives the book reveals strategies of emancipation that have already begun to give rise to more hopeful ecological narratives *Transnational Feminism in Film and Media* K. Marciniak,A. Imre,2007-12-09 This collection of interdisciplinary essays examines current cinematic and media landscapes from the perspective of transnational feminist practices and methodologies Focusing on film media art and video essays the contributors chart innovative strategies for exploring contemporary visual cultures **Suffragist Artists in**

neglected female figures in creative partnerships to challenge longstanding perceptions of them as the submissive or subordinate wives of famous Victorian artists and of their marriages as representatives of the traditional gender binary. Shows how male and female writers and artists engaged with mid to late Victorian feminism together and individually reclaiming them as influential early feminists. *Fighting for the River* Özge Yaka, 2023-08-15 *Fighting for the River* portrays women's intimate embodied relationships with river waters and explores how those relationships embolden local communities' resistance to private run of the river hydroelectric power plants in Turkey. Building on extensive ethnographic research, zge Yaka develops a body centered phenomenological approach to women's environmental activism and combines it with a relational ontological perspective. In this way the book pushes beyond the natural resources frame to demonstrate how our corporeal connection to nonhuman entities is constitutive of our more than human lifeworld. *Fighting for the River* takes the human body as a starting point to explore the connection between lived experience and nonhuman environments, treating bodily senses and affects as the media of more than human connectivity and political agency. Analyzing local environmental struggles as struggles for coexistence, Yaka frames human-nonhuman relationality as a matter of socio-ecological justice.
