Feminism The Essential Historical Writings:

Feminism Miriam Schneir, 1994-06-28 This essential volume brings together more than forty of the most important historical writings on feminism covering 150 years of the struggle for women's freedom. Spanning the American Revolution to the first decades of the twentieth century, these works—many long out of print or forgotten—are finally brought out of obscurity and into the light of contemporary analysis and criticism. This richly diverse collection contains excerpts from books, essays, speeches, documents, and letters, as well as poetry, drama, and fiction by major feminist writers including Elizabeth Cady Stanton, George Sand, Mary Wollstonecraft, Abigail Adams, Emma Goldman, Friedrich Engels, Sojourner Truth, Susan B. Anthony, John Stuart Mill, Margaret Sanger, Virginia Woolf, and many others. The pieces in *Feminism: The Essential Historical Writings* cover the crucial challenges faced by women, including marriage as an instrument of oppression, a woman's desire to control her own body, the economic independence of women, and the search for selfhood, and extensive commentaries by the editor help the reader see the historical context of each selection. **Feminism** Miriam Schneir, 1992 **Feminism** Miriam Schneir (Comp), 1972

The Many and the One Richard Madsen, Tracy B. Strong, 2009-01-10 The war on terrorism says America's leaders is a war of Good versus Evil. But in the minds of the perpetrators, the September 11 attacks on New York and Washington were presumably justified as ethically good acts against American evil. Is such polarization leading to a violent clash of civilizations, or can differences between ethical systems be reconciled through rational dialogue? This book provides an extraordinary resource for thinking clearly about the diverse ways in which humans see good and evil. In nine essays and responses, leading thinkers ask how ethical pluralism can be understood by classical liberalism, liberal egalitarianism, critical theory, feminism, natural law, Confucianism, Islam, Judaism, and Christianity. Each essay addresses five questions: Is the ideal society ethically uniform or diverse? Should the state protect, ban, or otherwise intervene in ethically based differences? How should disagreements on the rights and duties of citizens be dealt with? Should the state regulate life and death decisions such as euthanasia? To what extent should conflicting views on sexual relationships be accommodated? This book shows that contentious questions can be discussed with both incisiveness and civility. The editors provide the introduction and Donald Moon the conclusion. The contributors are Brian Barry, Joseph Boyle, Simone Chambers, Joseph Chan, Christine Di Stefano, Dale F. Eickelman, Menachem Fisch, William Galston, John Haldane, Chandran Kukathas, David Little, Muhammad Khalid Masud, Carole Pateman, William F. Scheuerman, Adam B. Seligman, James W. Skillen, James Tully, and Lee H. Yearley. *Feminism in Our Time* Miriam Schneir, 1994-06-28 Gathers a selection of modern feminist writings by Simone de Beauvoir, Betty Friedan, Kate Millett, Susan Brownmiller, Germaine Greer, Gloria Steinem, and Andrea Dworkin. **A Study Guide for Charlotte Perkins Gilman's "Three Thanksgivings"** Gale, Cengage Learning, A Study Guide for Charlotte Perkins Gilman's *Three Thanksgivings* excerpted from Gale's acclaimed *Short Stories for Students*. In the Embrace of God Ann O. Graff, 2005-01-26 Since Karl Rahner posited the importance of the nature of the human as the starting point for theological reflection the field of Christian anthropology has been one where very basic questions and much creative theologizing have been focused For example liberation theologians have had much to say about the presumptions inherent in classical definitions of human being and have pointed up the vital idea of social location as an integral part of human experience Theological anthropology has come to be of vital interest to Christian feminists as well As in other disciplines the study of what is human tends to either ignore gender or to favor one as normative In the quest to understand the totality of human experience it is necessary to view it from lived experience At the same time and deeply embedded in the Christian tradition is the recognition that human beings come from God are going to God and dwell in the embrace of God In the Embrace of God provides a well organized clearly focused volume of original essays by North American feminist theologians encompassing the major areas of theological anthropology In addressing the meaning of creation and end time fall and redemption sin and grace pain and suffering sexuality and ecology these contributors offer fresh insights and helpful new ways to approach the rich complexities of human experience

Ungrateful Daughters Justyna Wlodarczyk, 2010-08-11 Has the third wave of feminism in the United States spawned a literary movement Is there a third wave equivalent of the consciousness raising novel A lot has been written about the relationship of the third wave of feminism in the United States to the second wave yet no one has examined works by young female writers as belonging to the third wave of feminism This book fills the gap Using tools of literary criticism to analyze the literary output of third wave feminism in the United States Ungrateful Daughters looks at the main anthologies of third wave writings paying attention to their structure production process and narrative forms used in the individual pieces It also attempts to define third wave fiction and analyze the memoirs and novels coming from writers who could be classified as third wave specifically Rebecca Walker Danzy Senna and Michelle Tea tracing how these books exhibit third wave sensibility and reflect generational experiences of third wave writers A lot of attention is devoted to comparisons of second and third wave feminism and the ambivalent relationship of third wave feminism to postfeminism Wendy Kaminer wrote in True Love Waits If it ultimately fails as a liberation movement feminism will at least have achieved considerable literary success Ungrateful Daughters examines whether the literary success helps or hinders the cause of women s liberation

Canon Fodder Penny A. Weiss, 2015-11-09 This book is an exercise in the recovery of historical memory about a set of thinkers who have been forgotten or purposely ignored and as a result never made it into the canon of Western political philosophy Penny Weiss calls them canon fodder recalling the fate of soldiers in war who are treated by their governments and military leaders as expendable Despite some real progress at recovery over the past few decades and the now frequent references to a few female thinkers like Mary Wollstonecraft Hannah Arendt and Simone de Beauvoir the surface has only been scratched and the rich resources of women's writings about political ideas remain still largely untapped Included here and intended to further whet the palate are figures from Sei Shonagon Christine de Pizan and Mary Astell to Elizabeth Cady Stanton Anna Julia Cooper and Emma Goldman Restoring female thinkers to the conversation of political philosophy is the primary goal of this book Part I deploys a range of these thinkers to discuss the nature of political inquiry itself Part II focuses on alternative approaches to and visions of core political ideas equality power revolution childhood and community While mainly an intellectual act of revival this book also affects practical political life because remote and academic as they sometimes appear debates about what to include in the canon ultimately touch almost everyone students handed texts from lists of great books to guide them and citizens whose governments justify their actions with ideas from political texts deemed classic

The Artistry of Anger Linda M. Grasso, 2003-04-03 In this compelling interdisciplinary study Linda Grasso demonstrates that using anger as a mode of analysis and the basis of an aesthetic transforms our understanding of American women's literary history Exploring how black and white nineteenth century

women writers defined expressed and dramatized anger Grasso reconceptualizes antebellum women's writing and illuminates an unrecognized tradition of discontent in American literature She maintains that two equally powerful forces shaped this tradition women's anger at their exclusion from the democratic promise of America and the cultural prohibition against its public articulation Grasso challenges the common notion that nineteenth century women's writing is confined to domestic themes and shows instead how women channeled their anger into art that addresses complex political issues such as slavery nation building gender arrangements and race relations Cutting across racial and genre boundaries she considers works by Lydia Maria Child Maria W Stewart Fanny Fern and Harriet Wilson as superb examples of the artistry of angry expression Transforming their anger through literary imagination these writers bequeathed their vision of an alternative America both to their contemporaries and to subsequent generations

A valuable and rich source of information on women's studies, literature, and history, *Women Writers in the United States* will enable readers to locate familiar and unfamiliar women's texts and to place them in the context out of which they emerged.

The Cambridge Companion to Nineteenth-Century Thought

Gregory Claeys, 2019-08-22

The nineteenth century was seemingly a period of great progress. Huge advancements and achievements were made in science, technology, and industry that transformed life and work alike. But a growing pride in modernity and innovation was tainted by a sense of the loss of the past and the multiple threats which novelty posed. *The Cambridge Companion to Nineteenth Century Thought* provides an impressive survey of the period's major ideas and trends. Leading scholars explore some of the most influential concepts and debates within philosophy, history, political thought, economics, religion, and the social sciences, as well as feminism and imperialism. Some of these debates continued into the following century and many still remain relevant in the present day. This Companion is an excellent tool for readers seeking to understand the genesis of modern discourse across a range of humanities and social science subjects.
