Torres, Paula Campos Pinto, Tamara Shefer, Jeff Hearn, 2024-11-29 This Handbook is an important contribution to the recent history of and contemporary debates on feminist gender and women's studies seen in a global perspective. It tackles current developments in the area by examining their multiple configurations in different countries across the world and taking stock of the tensions and controversies that have recently emerged against and within the field. The volume brings together essays from renowned feminist and gender studies academics from the Global North and Global South together with early stage emerging scholars. The diversity of the geopolitical and disciplinary locations and the quality of their reflections provide rich wide ranging and interdisciplinary discussions that are rarely found in similar collections making this an essential resource for advanced students and academics in the field. **Feminism at a Millennium**, 2000 *Fictional Feminism* Kim A.

Loudermilk, 2013-08-21 This book focuses on the ways in which second wave feminism has been represented in American popular culture and on the effects that these representations have had on feminism as a political movement. Kim Loudermilk provides close readings of four best selling novels and their film adaptations. According to Loudermilk each of these novels contains explicitly feminist characters and themes yet each presents a curiously ambivalent picture of feminism. These texts at once take feminism seriously and subtly undercut its most central tenets. This book argues that these texts create a kind of fictional feminism that recuperates feminism's radical potential thereby lessening the threat it presents to the status quo.

Contemporary Feminisms in Social Work Practice Sarah Wendt, Nicole Moulding, 2016-01-29 Contemporary Feminisms in Social Work Practice explores feminism as core to social work knowledge practice and ethics. It demonstrates how gender neutral perspectives and practices obscure gender discourses and power relations. It also shows feminist social work practice can transform areas of social work not specifically concerned with gender through its emphasis on relationships and power. Within and outside feminism there is a growing assumption that equality has been won and is readily available to all women. However women continue to dominate the ranks of the poor in developed and developing countries around the world. Male perpetrated violence against women and children has not reduced. Women outnumber men by up to three to one in the diagnosis of common mental health problems and women continue to be severely underrepresented in every realm of power decision making and wealth. This worrying context draws attention to the ways gender relations structure most of the problems faced by the women, men and children in the day to day worlds in which social work operates. Drawing together key contemporary thinking about feminism and its place in social work, this international collection looks at both core curriculum areas taught in social work programs and a wide range of practice fields that involve key challenges and opportunities for future feminist social work. This book is suitable for all social work students and academics. It examines the nuanced nature of power relationships in the everyday and areas such as working with cross cultural communities, mental health, interpersonal violence and abuse, homelessness, child protection, ageing, disability and sexuality. *Feminism and International Relations* J. Feminism Reframed Alexandra M. Kokoli, 2009-10-02 *Feminism Reframed* Reflections on Art and Difference addresses the on going dialogue between feminism art history and visual culture from contemporary scholarly perspectives Over the past thirty years the critical interventions of feminist art historians in the academy the press and the art world have not only politicised and transformed the themes methods and conceptual tools of art history but have also contributed to the emergence of new interdisciplinary areas of investigation including notably that of visual culture Although the impact of such fruitful transformations is indisputable their exact contribution to contemporary scholarship remains a matter for debate not least because feminism itself has changed significantly since the Women s Liberation Movement *Feminism Reframed* reviews and revises existing feminist art histories but also reasserts the need for continuous feminist interventions in the academy the art world and beyond With contributions by Anthea Behm Alisia Grace Chase Jennifer G Germann Catherine Grant Joanne Heath Ruth Hemus Alexandra Kokoli Beth Anne Lauritis Griselda Pollock Karen Roulstone Anne Swartz and Sue Tate Coming at the moment when contemporary art practices are themselves involved in re cycling re evaluating and re enacting the past this collection asks how feminism s own troubled histories can be reframed productively in the present The questions that feminism raised in the 1970s and 80s are still pertinent and are addressed in a number of original essays What does gender equality mean in the arts How can women s subjectivities be articulated or performed differently in art practices Can attention to gender enable us to engage with complex differences of race sexuality and class of age and generation Do we need new interpretative and conceptual models for writing about art Alexandra Kokoli s thoughtful and illuminating introduction reminds us that reframing is a risky but exciting business if it makes us ask these questions anew with attention to the politics and aesthetics of the present Rosemary Betterton Lancaster University
