**Gender and Development** M. Murayama, 2005-10-06 Although Japanese economic development is often discussed less attention is given to social development and much less to gender related issues By examining Japanese experiences related to gender the authors seek insights relevant to the current developing countries Simultaneously the book points out the importance for

Japanese society to draw lessons from the creativity and activism of women in developing countries *Genders, Sexualities, and Complexities in Africa* Gabi Mkhize, Stanley Osezua Ehiane, Lupenga Mphande, 2025-02-20 This book's significance is in its African centred border crossing overt and covert forces working against genders and sexualities reinforcing endemic gender and sexual based complexities Pragmatically sexualities and genders in Africa remain contested and an area of power and control contestations in both the private and public spheres Gender based violence and femicide GBVF in particular continue to escalate particularly during the COVID 19 pandemic Such GBVF at most affects young women migrants LGBTIQIA people sex workers informal street traders and widows amongst others This is happening at a time when the feminist and women's movements in Africa are experiencing fragmentations and factions that pull and push organising to the margins of prejudice internally thereby exacerbating an act of subordinated inclusion In this context the term subordinated inclusion connotes another form of complexity where the subaltern has been brought inside a room as an act of inclusion yet systemically subordinated through structure and obedience thereby compromising agency This complexity occurs in private and public domains where a continuum of contestations between structure and agency is sustained Consequently power struggles emerge and proliferate unabated into gendered and sexualised complexities including relations of state coloniality apartheid prejudice marginalization capitalism and democracy This book thus strives to surface these contestations and complexities and how they continue to thrive in an era that seeks another way possible a way out a jump off a manner of dealing and an exit from the status quo *Encyclopedia of Motherhood* Andrea O'Reilly, 2010-04-06 In the last decade the topic of motherhood has emerged as a distinct and established field of scholarly inquiry A cursory review of motherhood research reveals that hundreds of scholarly articles have been published on almost every motherhood theme imaginable The Encyclopedia of Motherhood is a collection of approximately 700 articles in a three volume A to Z set exploring major topics related to motherhood from geographical historical and cultural entries to anthropological and psychological contributions In human society few institutions are as important as motherhood and this unique encyclopedia captures the interdisciplinary foundation of the subject in one convenient reference The Encyclopedia is a comprehensive resource designed to provide an understanding of the complexities of motherhood for academic and public libraries and is written by academics and institutional experts in the social and behavioural sciences **Untold Histories of Nigerian Women** Tayo Agunbiade, 2023-12-07 This book is a curation of insightful and engaging narrations aimed at freeing women from the margins of Nigeria's history It chronicles their protest movements against colonial administrations including monster petitions on taxation and food price controls It details a string of remarkable political landmarks which highlight women's historical credentials as nationalists as well as their voice in early male dominated legislative institutions It also narrates more contemporary episodes in women's resistance against oil exploitation environmental pollution and anger over the mass abduction of school girls This timely preservation of the voice and agency of Nigerian women from a wide variety of colonial

and contemporary documents will benefit readers interested in African history and gender and women's studies

*Decolonization* Pierre Singaravélou, Karim Miské, Marc Ball, 2023-01-03 Full of gripping historical vignettes and evocative photographs an accessible overview of the dynamic figures who resisted colonization from India Senegal and Algeria to Vietnam Kenya and Congo Decolonization started on the very first day of colonization From the arrival of the Europeans the peoples of Africa and Asia rose up No one willingly accepts subjugation but in order to one day regain freedom you first and foremost need to stay alive Faced with the Europeans machine guns the colonized hit back in other ways from civil disobedience to communist revolution by way of soccer and literature It was a struggle marked by infinite patience and unlimited determination fought by heroic men and women now largely unknown Condensing a wealth of scholarly research into short lively chapters Decolonization brings their extraordinary stories to light Manikarnika Tambe the Indian queen who led her troops into battle against the British Mary Nyanjiru the Kenyan activist who spearheaded a protest in Nairobi Lamine Senghor the Senegalese infantryman who became an anti colonial militant in Paris and many more With them a current of resistance swept the world culminating in the independence of almost all the colonies in the 1960s But at what price In the atomic India of Indira Gandhi in the Congo subjected to Mobutu's dictatorship or in a London shaken by the rioting of young immigrants we can see just how crucial it is that we understand and learn from this painful history **Black African**

*Sorting Africa's Developmental Puzzle* Almaz Zewde, 2010-06-02

*Sorting Africa's Developmental Puzzle* The Participatory Social Learning Theory as an Alternative Approach is a comprehensive exploration of why Africa has not managed to achieve a sustainable and self regenerating development over the past half century of effort The work situates the problems of Africa's persistent underdevelopment in the practices employed by national political elites donors and lenders to African development that played roles in determinant policy and planning Unlike many newly developed countries and regions and contrary to the historical experiences of developed countries where ordinary people were full stakeholders and drivers of development Africa's development has been top down expert and capital driven mechanical and typically externally designed Ordinary Africans were made marginal to development This approach to Africa's development was devoid of building the people and their institutions as the legitimate means of development The entrusting of Africa's development to local and international elites to the exclusion of the people from decision making and full participation has led to grievous deficits in the formation of human and social capital and legitimate economic social and political institutions for development The book offers a studied alternative that can positively change Africa's development direction The Participatory Social Learning Approach The philosophical theoretical historical and heuristic origins of this alternative are offered in detail within this book

*African Women's Studies, 1980-2001* Desiree Lewis, 2002

**Black Iconography and Colonial (re)production at the ICC** Stanley Mwangi Wanjiru, 2022-11-25 This book explores the reproduction of colonialism at the International Criminal Court ICC and examines international criminal law ICL vs the black body through an immersive format of art music poetry and architecture and post colonial critical race theory lens Taking a multi disciplinary approach the book interrogates the operationalisation of the Rome Statute to detail a Eurocentric hegemony at the core of ICL It explores how colonialism and slavery have come to shape ICL exposing the perpetuation of the colonial and warns that it has ominous contemporary and future implications for Africa As currently envisaged and acted out at the ICC this law is founded on deceptive and colonial ideas of what is wrong in with the world The book finds that the contemporary ICL regime is founded on white supremacy that corrupts the law's interaction with the African The African is but a unit utilised by the global elite to exploit and extract resources From time to time these alliances disintegrate with ICL becoming a retaliatory tool of choice What is at stake is power not justice This power has been hierarchical with Eurocentrism at the top throughout modern history Colonialism is seen not to have ended but to have

regerminated through the foundation of the independent African state The ICC reproduces the colonial by use of European law and ultimately the over representation of the black accused To conclude the book provides a liberated African forum that can address conflicts in the content with a call for the end of the ICC s involvement in Africa The demand is made for an African court that utilises non colonising African norms which are uniquely suited to address local conflicts Multidisciplinary in nature this book will be of great interest to students and scholars of international criminal law criminal justice human rights law African studies global social justice sociology anthropology postcolonial studies and philosophy **African Studies Review** ,2001 **International Labour Documentation** International Labour Office.
