Memoirs of a Fen Tiger Ernie James, Audrey James, 1988 Ellie Peter Hawkins, 2016-08-26 Chris hadn't had much success with ladies until he met Ellie someone older than him but still beautiful and young looking From the start Ellie found herself deeply in love with Chris He believed he felt the same way about her Their time together taught him much about pleasing females how to talk to them and give them physical pleasure They experienced full sex together but he never felt the completion of the act In attempts to ensure he stayed with her she gave him gifts although without telling him she had As time passed the need to keep Chris with her became too strong and the gifts became more and more extreme until Chris realized what she had done He knew that there was more to Ellie than he'd imagined Finally Chris knew that they must separate He came to the conclusion that there was only one way he could manage to get safely away from her But would he be able to put into effect his plan of escape **Street on Torts** Christian A. Witting, 2015 Street on Torts provides a scholarly and incisive treatment of the law of torts with a focus upon key concepts and clear explanations This book builds upon the learning of its previous celebrated authors and nearly 60 years after publication of the first edition is considered a classic exposition of the law of torts *Valued Environments* John R. Gold, Jacquelin Burgess, 2019-03-21 First published in 1982 People care about places Inhabitants demand more participation in the changes proposed for their local environments activists urge greater protection of countryside and natural environments decision makers feel threatened by the antagonism aroused by their powers and plans The essays in this book have been drawn together to discover what lies behind these expressions of concern and discontent Valued environments are places for which people feel commitment and affection places which support a sense of personal identity and well being The authors explore the character and constituents of valued environments asking how our experiences of environments may be enhanced What is the impact of environmental change How can the future be accommodated in both rural and urban environments without destroying their essential qualities The reader will find substantive evidence from case studies of environments valued by inhabitants and outsiders which answer these questions Examples are taken from wilderness areas fenland market towns and large cities commercial streets and residential neighbourhoods environments of the past and those imagined in science fiction The essays are united in their focus on the meaning of places and landscapes The subtle but highly significant role of valued environments is examined thoroughly in the book It will be of interest to all who care deeply about their surroundings reflecting perhaps some of their own experiences as well as conveying information about the environmental experiences of others Students of geography environmental planning and conservation should also find the book directly relevant to their interests in man environment relationships **Confessions of the Fox** Jordy Rosenberg, 2019-03-05 A New York Times Editors Choice A mind bending romp through a gender fluid eighteenth century London a joyous mash up of literary genres shot through with queer theory and awash in sex crime and revolution NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker

The War against the Commons Ian Angus, 2023-05-02 A unique historical account of poor peoples self defence strategies in the face of the plunder of their lands and labor For five centuries the development of capitalism has been inextricably connected to the expropriation of working people from the land they depended on for subsistence Through ruling class assaults known as enclosures or clearances shared common land became privately owned capital and peasant farmers became propertyless

laborers who could only survive by working for the owners of land or capital As Ian Angus documents in *The War Against the Commons* mass opposition to dispossession has never ceased His dramatic account provides new insights into an opposition that ranged from stubborn non compliance to open rebellion including eyewitness accounts of campaigns in which thousands of protestors tore down fences and restored common access to pastures and forests Such movements he shows led to the Diggers call for a new society based on shared ownership and use of the land an appeal that was more sophisticated and radical than anything else written before the 1800s Contrary to many accounts that treat the reorganization of agriculture as a purely domestic matter Angus shows that there were close connections between the enclosures in Britain and imperial expansion The consolidation of some of the largest estates in England and Scotland was directly financed by the forced labor of African slaves and the colonial plunder of India This unique historical account of ruling class robbery and poor peoples resistance offers answers to key questions about the history of capitalism Was enclosure a necessary evil that enabled economic growth What role did deliberate promotion of hunger play in the creation of the working class How did Marx and Engels view the separation of workers from the land and how does resistance to enclosure continue in the 21st century

Orchid Summer Jon Dunn, 2018-03-08 A heady celebration of the beauty and history of the wild orchid species of the British Isles embraced in one glorious and kaleidoscopic summer long hunt by naturalist Jon Dunn From the chalk downs of the south coast of England to the heathery moorland of the Shetland Isles and from the holy island of Lindisfarne in the east to the Atlantic frontier of western Ireland *Orchid Summer* is a journey into Britain and Ireland s most beautiful corners The flowers that are the focus of this treasure hunt are exquisite and diverse Some resemble insects and develop scents that mimic the smell of a virgin female wasp in order to lure male wasps to sample their unsatisfying charms Some tower above the surrounding vegetation others are vanishingly small and discrete Some are sweetly scented others smell of ripe billy goats Some can be readily found but some will prove more elusive none more so than the last to flower the rarest of them all the ghost orchid Capturing the intoxicating beauty of these rare and charismatic flowers *Orchid Summer* is also an exploration of their history their champions their place in our landscape and the threats they face Combining infectious enthusiasm and a painterly eye with a deep knowledge that comes from a lifetime s passionate devotion to their study Dunn sweeps us up on his adventure one from which it is impossible not to emerge enchanted and enriched

The Law of Rights of Light Michael Barnes KC, 2016-04-21 The book provides the authoritative statement on the current law on rights of light in England and Wales The protection of the access of natural light to properties has been a part of our property law for centuries but in recent years has come into particular prominence This is due to a number of reasons including the existence of easements of light being regarded as an inhibition on new development and the unsatisfactory nature of parts of the law on this subject This has given rise to two reports in recent years by the Law Commission one on easements generally in 2011 and one on rights of light specifically in 2014 both containing major proposals for law reform The purpose of this

legal textbook is to explain the law as clearly as possible In practice rights of light issues and disputes involve technical subjects and inevitably answers to these questions require the expertise of technical experts such as light surveyors An attempt is made in the book to explain from a non technical point of view the way in which measurements and calculations are carried out in this area It is therefore hoped that the book will be of use to lawyers as well as to landowners who may not always understand these technical subjects and to surveyors who may not always be familiar with the legal concepts and difficulties involved in the area of the law of rights of light *Outing Magazine* Poultney Bigelow, James Henry Worman, Ben James Worman, Caspar Whitney, Albert Britt, 1889 **Outing** ,1889 History After Hobsbawm John Arnold, Matthew Hilton, Jan Rüger, 2018 What does it mean and what might it yet come to mean to write history in the twenty first century History After Hobsbawm brings together leading historians from across the globe to ask what being an historian should mean in their particular fields of study Taking their cue from one of the previous century s greatest historians Eric Hobsbawm and his interests across many periods and places the essays approach their subjects with an underlying sense of what role an historian might seek to play and attempt to help twenty first century society understand how we got here They present new work in their sub fields but also point to how their specialisms are developing how they might further grow in the future and how different areas of focus might speak to the larger challenges of history both for the discipline itself and for its relationship to other fields of academic inquiry Like Hobsbawm the authors in this collection know that history matters They speak to both the past and the present and in so doing introduce some of the most exciting new lines of research in a broad array of subjects from the medieval period to the present **Private Law and Power** Kit Barker, Simone Degeling, Karen Fairweather, Ross Grantham, 2017-01-12 The aim of this edited collection of essays is to examine the relationship between private law and power both the public power of the state and the private power of institutions and individuals It describes and critically assesses the way that private law doctrines institutions processes and rules express moderate facilitate and control relationships of power The various chapters of this work examine the dynamics of the relationship between private law and power from a number of different perspectives historical theoretical doctrinal and comparative They have been commissioned from leading experts in the field of private law from several different Commonwealth Jurisdictions Australia the UK Canada and New Zealand each with expertise in the particular sphere of their contribution They aim to illuminate the past and assist in resolving some contemporary difficult legal issues relating to the shape scope and content of private law and its difficult relationship with power **Thompson's Modern Land Law** Mark P. Thompson, Martin George, 2017 Doctrinal and critical Thompson s Modern Land Law looks at the core areas of this subject area through a theoretical lens The authors excel at explaining difficult rules and concepts clearly but without oversimplification guiding students around the common pitfalls in areas where there is typically misunderstanding or confusion Straightforward accounts of the law are underpinned by insightful author commentary on areas of debate exposing students to critical reasoning Examples of the
