Ferdinand Boberg Arkitekten Som Konstnar:

Ferdinand Boberg, Architect Ann Thorson Walton, 1994 Ferdinand Boberg 1860 1946 was the preeminent architect of Sweden at the turn of the century He was judged the dominant architectural force even by international standards His many faceted work was an elegant expression of the contemporary search for a new architectural form that occupied young American and European architects of his era This is the first comprehensive scholarly work to place Boberg s contributions within an international context The text and several hundred illustrations a considerable number in full colour including some material never before shown in print cover the entire range of this output from architecture and interior design to exhibition design and graphic art *Recognising European Modernities* Allan Pred, 2014-02-25 For over a century Europe has been characterised by a plurality of capitalist modernities At any moment each country possesses its own distinctly modern qualities which are partly shaped through interrelationships with other countries Each European commodity society has experienced successive but different overlapping periods of industrial modernity large scale factories and urban growth high modernity social modernization promoted by social engineering and hypermodernity the acceleration of modernity yielding new circumstances and sensibilities Interrogating contemporary hypermodern Europe thus requires an exploration of industrial and high modern Europe *Recognising European Modernities* explores a century of civilisation through a critical examination of the extreme case of Sweden Using montage relayering multiple pasts and on going present the book challenges the contemporary obsession with postmodernity demanding a deeper more connective understanding of the pleasures and dangers of the European present The author visits three spectacular spaces the Stockholm Exhibition of 1897 the Stockholm Exhibition of 1930 and the Globe a contemporary multi purpose arena Analysis of these pivotal spaces reveals the on going process of modernization as new forms of consumption are repeatedly entangled in changing discourses of power to be reworked and translated into cultural politics *Attributing Excellence in Medicine*, 2019-07-01 *Attributing Excellence in Medicine* discusses the aura around the prestigious Nobel Prize in Physiology or Medicine It analyzes the social processes and contingent factors leading to recognition and reputation in science and medicine This volume will help the reader to better understand the dynamics of the attribution of excellence throughout the 20th century Contributors are Massimiano Bucchi Fabio De Sio Jacalyn Duffin Heiner Fangerau Thorsten Halling Nils Hansson David S Jones Gustav K llstrand Ulrich Koppitz Pauline Mattsson Katarina Nordqvist Scott H Podolsky Thomas Schlich and Sven Widmalm *Gustaf VI Adolf : regenten som räddade monarkin* Roger Älmeberg, 2017-10-16 Gustaf VI Adolf bidrog personligen till att r dda monarkin i Sverige n r han 1918 1919 tillsammans med bland andra Hjalmar Branting som kronprins pressade Gustaf V och h gern att g med p en demokratisk r str ttsreform Hans personlig popularitet gjorde senare att republikfr gan avf rdades fr n v r nuvarande f rfattning Barndomen och relationen till f r ldrarna s rskilt till drottning Victoria var sv r F rsta hustrun kronprinsessan Margareta p verkade honom att bli ppnare och socialt engagerad men ktenskapet slutade i tragedi en av flera
