Modern and Ancient Greece Evy Johanne Håland, 2014-10-02 Winner of the AFS Elli K ng s Maranda Prize 2016 Multidisciplinary or post disciplinary research is what is needed when dealing with such complex subjects as ritual behaviour This research therefore combines ethnography with historical sources to examine the relationship between modern Greek death rituals and ancient written and visual sources on the subject of death and gender The central theme of this work is women s role in connection with the cult of the dead in ancient and modern Greece The research is based on studies in ancient history combined with the author s fieldwork and anthropological analysis of today s Mediterranean societies Since death rituals have a focal and lasting importance and reflect the gender relations within a society the institutions surrounding death may function as a critical vantage point from which to view society The comparison is based on certain

religious festivals that are dedicated to deceased persons and on other death rituals Using laments burials and the ensuing memorial rituals the relationship between the cult dedicated to deceased mediators in both ancient and modern society is analysed The research shows how the official ideological rituals are influenced by the domestic rituals people perform for their own dead and vice versa that the modern domestic rituals simultaneously reflect the public performances As this cult has many parallels with the ancient official cult the following questions are central Can an analysis of modern public and domestic rituals in combination with ancient sources tell the reader more about the ancient death cult as a whole What does such an analysis suggest about the relationship between the domestic death cult and the official Since the practical performance of the domestic rituals was and still remains in the hands of women it is crucial to discover the extent of their influence to elucidate the real power relations between women and men This research represents a new contribution to earlier presentations of the Greek reality but mainly from the female perspective which is highly significant since men produced most of the ancient sources This means that the principal objective for this endeavour is to question the ways in which history has been written through the ages to supplement the male with a female perspective perhaps complementing an Olympian Zeus with a Chthonic Mother Earth The research brings both ancient and modern worlds into mutual illumination its relevance therefore transcends the Greek context both in time and space

Off the Street W.A.

Bogart,2016-11-12 An unflinching analysis of one of the major issues of our time the shift from criminalization to regulation of recreational drugs The war on drugs has failed The cost of trying to control the production sale and use of recreational drugs through the criminal law is too high unjust incarceration illicit markets tainted substances exploited children and an untaxed industry But there is an alternative The watchwords for governments controlling the consumption of alcohol tobacco junk food and gambling are permit but discourage All are legal but harmful consumption is decreased by targeted regulatory strategies That same approach should be adopted for drugs Legalization and regulation can attack the underground economy drive down excessive use provide revenue for prevention treatment and counselling and better protect children Off the Street Legalizing Drugs calls for a thoughtful national discussion of the legalization and regulation of recreational drugs the least bad way forward
