Women Warriors in Romantic Drama Wendy C. Nielsen, 2013 Women Warriors in Romantic Drama advances scholarship on late eighteenth and early nineteenth century theater by bringing together for the first time female and male dramatists as well as British German Irish and French writers thinkers actors and philosophers This transnational perspective allows Women Warriors in Romantic Drama to make the provocative claim that in some instances the violence of the French Revolution and especially women s participation in it advances proto feminist concerns *Writing Time* Sean Franzel, 2023-11-15 Cowinner of the Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures Writing Time shows how serial literature based in journals and anthologies shaped the awareness of time at a transformative moment in the European literary and political landscapes Sean Franzel explores how German speaking authors and editors write time both by writing about time and by mapping time itself through specific literary formats Through case studies of such writers as F J Bertuch K A B ttinger J W Goethe Ludwig B rne and Heinrich Heine Franzel analyzes how serial writing predicated on open ended continuation becomes a privileged mode of social commentary and literary entertainment and provides readers with an ongoing history of the present or Zeitgeschichte Drawing from media theory and periodical studies as well as from Reinhart Koselleck s work on processes of temporalization and untimely models of historical time Writing Time presents smaller literary forms the urban tableau cultural reportage and caricature as new ways of imagining temporal unfolding recentring periodicals and other serial forms at the heart of nineteenth century print culture **Serial**

Revolutions 1848 Clare Pettitt, 2022 Shows how a series of revolutions that erupted across Europe in the mid to late 1840s were crucial to the creation of modern ideas of constitutional democracy citizenship and human rights A Sociology of Seeking Kieran Flanagan, 2023-01-30 A response to the depletion of the rhetoric of sociology and the spiritual capital of theology this volume explores the remains of Christianity that still lurk as portents in a progressively de Christianised society seeking replacements for belief With the sociologist set in the role of an oracle seeking traces of Christianity in a discipline in which the intrusion of theological understandings has become harder to resist it offers a narrative of belief following the direction of an exemplary portent the finger Through the exploration of broad trends in culture and modern history this study

informed by interactionist thought examines both the place of sociology in Christian theology and the failure of theology to connect to its surrounding culture asking how the two disciplines might meld profitably together As such it will appeal to social theorists and theologians as well as sociologists with interests in religion culture and secularisation Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The Total Work of Art in European Modernism** David Roberts,2011-12-15

In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution The total work of art is usually understood as the intention to reunite the arts into the one integrated whole but it is also tied from the beginning to the desire to recover and renew the public function of art The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarmé The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century The total work of art indicates the need to revisit key assumptions of modernism such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts and cuts across the neat equation of avant gardism with progress and deconstructs the familiar left right divide between revolution and reaction the modern and the antimodern Situated at the interface between art religion and politics the total work of art invites us to rethink the relationship between art and religion and art and politics in European modernism In a major departure from the existing literature David Roberts argues for twin lineages of the total work a French revolutionary and a German aesthetic which interrelate across the whole epoch of European modernism culminating in the aesthetic and political radicalism of the avant garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward **Backyard Revolution** Péter Apor,2025-03-15 Backyard Revolution contributes in depth sociocultural histories of the popular antisemitic pogroms that shook Hungary in the spring and summer of 1946 Expanding the scope of investigation of serial mass violence toward Jewish communities beyond the cases in Poland suggests that antisemitic violence was general in postwar Central and Eastern Europe and that it spoke to central components of popular notions of society and politics Péter

Apor gives new impetus to rethink the explanations of collective violence including antisemitic ones. He considers collective violence as a particular form of political participation and examines post Holocaust antisemitic violence as one of its perverse ways. Drawing on previously unknown archival sources, *Backyard Revolution* explores how collective violence produced categories and divisions in society and how these in turn attempted to shape the institutions of the state. It further addresses the political participation of powerless groups and highlights components of everyday life and resistance that engendered power structures and hierarchies. These important theoretical premises concerning the subaltern politics provide a new template for understanding the emergence of communist dictatorships in Central and Eastern Europe. Setting the genesis of communist dictatorships at the crossroads of popular expectations toward the state anchored to the culture of the everyday and elites attempts to mobilize mass support, *Backyard Revolution* has implications beyond regional borders and adds to the understanding of growing populist governance worldwide.

First Things Mary Jacobus, 2020-04-03 In *First Things*, Mary Jacobus combines close readings with theoretical concerns in an examination of the many forms taken by the mythic or phantasmic mother in literary, psychoanalytic, and artistic representations. She carefully explores the ways in which the maternal imaginary informs both unconscious processes and signifying practices at all levels. Her fierce analysis of specific texts and paintings raises questions about the symbolic and biological maternal body and how they relate to each other in literary and psychoanalytic terms. The invocation of writings by Kleist, Wollstonecraft, Mary Shelley, Malthus, and de Sade, along with analysis of French revolutionary iconography and Realist and Impressionist paintings by Eakins and Morisot, make this wide-ranging text a truly interdisciplinary study. *First Things* sees literary theory and psychoanalysis as mutually illuminating practices. The work of Freud, Klein, Kristeva, and Bion shape an inquiry into such topics as population discourse, surrogate motherhood, AIDS, mastectomy, and psychoanalysis itself. In addition, Jacobus elaborates on Freud's oedipal preconceptions, Klein's missing theory of signs, memory, melancholia, narcissism, and maternal reverie.

Training the Body for China Susan Brownell, 1995-08 Competing in the 1986 National College Games of the People's Republic of China, Susan Brownell earned both a gold medal in the heptathlon and fame throughout China as the American girl who won glory for Beijing University. Now an anthropologist, Brownell draws on her direct experience of Chinese athletics in this fascinating look at the culture of sports and the body in China. *Training the Body for China* is the first book on Chinese sports based on extended fieldwork. By a Westerner, Brownell introduces the notion of body culture to analyze Olympic sports as one element in a whole set of Chinese body practices: the old people's disco dancing craze, the new popularity of bodybuilding following reluctant official acceptance of the bikini, mass calisthenics, martial arts, military discipline, and more. Translating official and dissident materials into English for the first time and drawing on performance theory and histories of the body, Brownell uses the culture of the body as a focal point to explore the tensions between local and global organizations, the traditional and the modern men and women. Her intimate knowledge of Chinese social and cultural life and her wide range of historic examples

make *Training the Body for China* a unique illustration of how gender the body and the nation are interlinked in Chinese culture

The Politics of the Provisional Richard Taws, 2015-09-22 In revolutionary France the life of things could not be assured War shortage of materials and frequent changes in political authority meant that few large scale artworks or permanent monuments to the Revolution's memory were completed On the contrary visual practice in revolutionary France was characterized by the production and circulation of a range of transitional provisional ephemeral and half made images and objects from printed paper money passports and almanacs to temporary festival installations and relics of the demolished Bastille Addressing this mass of images conventionally ignored in art history *The Politics of the Provisional* contends that they were at the heart of debates on the nature of political authenticity and historical memory during the French Revolution Thinking about material durability this book suggests was one of the key ways in which revolutionaries conceptualized duration and it was crucial to how they imagined the Revolution's transformative role in history *The Politics of the Provisional* is the first book in the Art History Publication Initiative AHPI a collaborative grant from the Andrew W Mellon Foundation Thanks to the AHPI grant this book is available on a variety of popular e book platforms

State Symbols Margarete Myers Feinstein, 2021-10-25 After World War II Germans not only

had to rebuild they had to redefine their national political identity as well This book traces how state symbols such as national colors anthems holidays capital cities and postage stamps were used to legitimize the two Germanies from 1949 to 1959 Although the Federal Republic of Germany and the German Democratic Republic GDR developed distinct post war identities the one cannot be understood apart from the other for they were in direct competition to define the same state symbols The study of symbols offers valuable insights into the realms of identity formation and of politics that is how symbols can promote political integration By examining the creation of state symbols and the processes by which they were established in the public realm Feinstein evaluates the extent to which German political culture overcame the Nazi past to legitimize both a republican and a socialist system This book is especially relevant to scholars who want to understand the common ground upon which the citizens of today s unified Germany can construct a shared identity
