Funding Clean Water

**New Hampshire. Clean Water
Revolving Loan Fund, New Hampshire.
General Court**

Funding Clean Water:

Funding Clean Water Herman Clyde Reeves, Scott Ellsworth, 1984 **The Clean Water State Revolving Fund**, 1997

Water Quality Financial Assistance Program Washington (State). Department of Ecology, 2001 *Clean Water*

Infrastructure: Design Issues and Funding Options for a Clean Water Trust Fund Anu K. Mittal, 2010-02 Many of the wastewater systems that Americans rely on to protect public health and the environment are reaching the end of their useful lives The EPA has estimated that a potential gap between future needs and current spending for wastewater infrastructure of 150 billion to 400 billion could occur over the next decade Various approaches have been proposed to bridge this potential gap One is to establish a clean water trust fund This testimony summarizes findings of a May 2009 report which examined 1 stakeholders views on the issues that would need to be addressed in designing and establishing a clean water trust fund and 2 potential options that could generate about 10 billion annually in revenue to support a clean water trust fund Ill **Clean**

Water State Revolving Fund United States. Environmental Protection Agency. Office of Water, 2003 *Clean Water Infrastructure* Anu Mittal, 2009-12 The EPA has estimated that a potential gap between future needs and current spending for wastewater infrastructure of 150 billion to 400 billion could occur over the next decade A number of entities are involved in planning financing building and operating this infrastructure Some of these stakeholders have suggested a variety of approaches to bridge this potential gap One such proposal is to establish a clean water trust fund In this context the auditor was asked to 1 obtain stakeholders views on the issues that would need to be addressed in designing and establishing a clean water trust fund and 2 identify and describe potential options that could generate about 10 billion in revenue to support a clean water trust fund Charts and tables *Staff Report, Clean Water Grant Funding for Solids Disposal Projects* California. Division of Clean Water Grants, 1987

Funding of Small Community Needs Through the Clean Water State

Revolving Fund United States. Environmental Protection Agency. Office of Water, 1999 **The Clean Water State**

Revolving Fund, 1995 *Clean Water Infrastructure* United States. Government Accountability Office, 2009 The Environmental Protection Agency EPA has estimated that a potential gap between future needs and current spending for wastewater infrastructure of 150 billion to 400 billion could occur over the next decade A number of entities are involved in planning financing building and operating this infrastructure Some of these stakeholders have suggested a variety of approaches to bridge this potential gap One such proposal is to establish a clean water trust fund In this context GAO was asked to 1 obtain stakeholders views on the issues that would need to be addressed in designing and establishing a clean water trust fund and 2 identify and describe potential options that could generate about 10 billion in revenue to support a clean water trust fund In conducting this review GAO administered a questionnaire to 28 national organizations representing the wastewater and drinking water industries state and local governments engineers and environmental groups and received 22 responses reviewed proposals and industry papers interviewed federal state local and industry officials and used the most

current data available to estimate the revenue that could potentially be raised by various taxes on a range of products and activities GAO is not making any recommendations While this report identifies a number of funding options GAO is not endorsing any option and does not have a position on whether or not a trust fund should be established In designing and establishing a clean water trust fund stakeholders identified three main issues that would need to be addressed how a trust fund should be administered and used what type of financial assistance should be provided and what activities should be eligible to receive funding from a trust fund While a majority of stakeholders said that a trust fund should be administered through an EPA partnership with the states they differed in their views on how a trust fund should be used About a third of stakeholders responded that a trust fund should be used only to fund the existing Clean Water State Revolving Fund CWSRF which is currently funded primarily through federal appropriations while a few said it should support only a new and separate wastewater program A few stakeholders supported using a trust fund to support both the CWSRF and a separate program while others did not support the establishment of a trust fund at all In addition more than half of the stakeholders responded that financial assistance should be distributed using a combination of loans and grants to address the needs of different localities Finally although a variety of activities could be funded most stakeholders identified capital projects as the primary activity that should receive funding from a clean water trust fund A number of options have been proposed in the past to generate revenue for a clean water trust fund but several obstacles will have to be overcome in implementing these options and it may be difficult to generate 10 billion from any one option by itself Funding options include a variety of excise taxes In addition Congress could levy a tax on corporate income An additional 0.1 percent corporate income tax could raise about 1.4 billion annually Congress also could levy a water use tax A tax of 0.01 cent per gallon could raise about 1.3 billion annually Regardless of the options selected certain implementation obstacles will have to be overcome These include defining the products or activities to be taxed establishing a collection and enforcement framework and obtaining stakeholder support for a particular option or mix of options

Funding Water Conservation and Reuse with the Clean Water State Revolving Fund, 1999 **Federal Stimulus Funding for Oregon's Clean Water State Revolving Fund**, 2009 *Implementation of Transfers in the Clean Water and Drinking Water State Revolving Fund Programs*, **Water Infrastructure Needs and Investment** Claudia Copeland, 2010 Contents 1 Intro 2 Background History of Fed Involvement Wastewater Drinking Water USDA Assistance Programs 3 Water Infrastructure Debate Invest Needs EPA Needs Surveys Drinking Water and Wastewater Needs Future Investment Gap Analysis Report 4 Issues a Priorities What are the Problems to be Solved Infrastructure Replace Security Funding Other Priorities b Fed Role c Delivering Fed Support Admin Entity Type of Assistance Provided Grants and Loans Fed Funds for Private Infrastructure Systems Fed Tax Issues Fed Cross Cutting Requirements Set Asides Allotment of Funds and Congress Directed Project Grants d Res on New Technol 5 Congress and Admin Activity 107th 110th Congress Tables *Funding Nonpoint Source Activities with the Clean Water State Revolving*
