over here is Chekhov's work from the 1880s when Chekhov was in his twenties and his writing was sharp witty and innovative. Many of the stories in *The Undiscovered Chekhov* reveal Chekhov as a keen modernist. Emphasizing impressions and the juxtaposition of incongruent elements instead of the straight narrative his readers were used to, these stories upturned many of the assumptions of storytelling of the period. Here is Sarah Bernhardt Comes to Town written as a series of telegrams beginning with Have been drinking to Sarah's health all week. Enchanting She actually dies standing up. In Confession a thirty nine year old bachelor recounts some of the fifteen times chance foiled his marriage plans. In How I Came to be Lawfully Wed a couple reminisces about the day they vowed to resist their parents plans that they should marry. And in the more familiarly Chekhovian Autumn an alcoholic landowner fallen low and a peasant from his village meet far from home in a sad and haunting reunion in which the action of the story is far less important than the powerful impression it leaves with the reader that each man must live his life and has his reasons.

The Oxford Handbook of George Orwell

,2025-01-29 The Oxford Handbook of George Orwell offers a wide ranging reconsideration of Orwell's life and work focusing on the extensive connections between his novels, essays, diaries, columns, letters and reviews. Accessible to general readers and to established scholars alike, forty eight chapters written by an international team of Orwell specialists address familiar topics such as Orwell's journalism, broadcasting, literary criticism and politics as well as less well trodden areas of his output such as his accounts of stupidity, kindness and justice and his connections with contemporaries like Jack Common, Katharine Burdekin, Wyndham Lewis and Victor Serge. Sections on Orwell's professional activities, his main literary influences, his politics, his intellectual fixations, his literary contemporaries and his legacies structure the book which moves thematically and topically through the full scope of his output. The first section looks at how Orwell spent his time as a writer, reader and broadcaster. Chapters on writers from Shakespeare to the modernists investigate the determinants of Orwell's literary practice. The book then turns to a set of political contexts in which Orwell's writing can be understood. The Fixations section covers the familiar such as Orwell's account of Englishness and the unfamiliar such as his account of the absurd. The fifth section relates Orwell to several politically minded contemporaries tracing connections and differences between their writing. The final section of the Handbook reflects on how Orwell sounds through several literary and socio-political legacies and includes innovative considerations of feminism, Afrofuturism and queer speculative fiction.
