Futaba Childrens:

Passages to Modernity Kathleen S. Uno, 1999-04-01 Contemporary Japanese women are often presented as devoted full time wives and mothers At the extreme they are stereotyped as education mothers kyoiku mama completely dedicated to the academic success of their children Children of working mothers are pitied day care users both children and mothers are faintly disparaged for their inadequate home lives hired babysitters are virtually unknown Yet historical evidence reveals a strikingly different picture of Japanese motherhood and childcare at the beginning of the twentieth century In contrast to today child tending by non maternal caregivers was widely accepted at all levels of Japanese society Day care centers flourished and there was virtually no expectation of exclusive maternal care of children even infants The patterns of the formation of modern Japanese attitudes toward motherhood childhood child rearing and home life become visible as this study traces the early twentieth century rise of Japanese day care centers institutions established by middle class philanthropists and reformers to provide for the physical well being and mental and moral development of urban lower class preschool children Day care gained broad support in turn of the century Japan for several reasons For one day care did not clash with widely accepted norms of child care A second factor was the perception of public and private policymakers that day care held the promise of social and national progress through economic and moral betterment of the urban lower classes Finally day care offered working mothers the opportunity to earn a better livelihood with fewer worries about their children In spite of emerging notions that total devotion to child rearing was a woman s highest calling Japanese nationalism a signal force in the genesis of the modern Japanese state economy and middle class culture fed a deep wellspring of support for day care and fostered significant reshaping of motherhood childhood home life and view of the urban lower classes *Passages to Modernity* is an important and original contribution to our understanding of the institutional and ideological reach of the early twentieth century state and the contested emergence of a striking new discourse about woman as domestic caregiver and homemaker *The Japan Magazine* ,1923 **Japan Magazine** ,1921 *Earthquake Children* Janet Borland, 2022-03-07 Japan as recent history has powerfully illustrated is one of the world s most earthquake prone countries Today it is also one of the best prepared to face such seismic risk This was not always the case *Earthquake Children* is the first book to examine the origins of modern Japan s infrastructure of resilience Drawing from a rich collection of previously unexplored sources Janet Borland vividly illustrates that Japan s contemporary culture of disaster preparedness and its people s ability to respond calmly in a time of emergency are the result of learned and practiced behaviors She traces their roots to the 1923 Great Kant Earthquake which killed over 100 000 people when it struck the Tokyo region Beyond providing new perspectives on Japan s seismic past the history of childhood and everyday life in interwar Japan Borland challenges the popular idea that Japanese people owe their resilience to some innate sense of calm under pressure Tokyo s traumatic experiences in 1923 convinced government officials seismologists teachers physicians and architects that Japan must better

prepare for future disasters Earthquake Children documents how children schools and education became the primary tools through which experts sought to build a disaster prepared society and nation that would withstand nature's furies

Civil Affairs Handbook United States. Army Service Forces, 1944 *Down and Out in Late Meiji Japan* James L. Huffman, 2018-04-30 A sweeping work of original scholarship *Down and Out in Late Meiji Japan* examines the daily lives of Japan's hinmin poor people particularly urban slum dwellers in the late 1800s and early 1900s James Huffman draws on newspaper articles official surveys and reminiscences to recreate for readers life as experienced by the poor themselves something not attempted before in scholarship on this era He begins by explaining the causes behind the fast increasing numbers of poor neighborhoods in major cities after the late 1880s and goes on to describe in fascinating detail what those neighborhoods looked like and what their inhabitants did for a living collecting night soil weaving textiles making match boxes and other piecework pulling rickshaws building the structures that made Japan modern and supplying much of the era's entertainment including sex He also explores what hinmin did outside of work what they ate where they did their wash how they stretched their meager budgets by using pawn brokers and how they dealt with illness and other disasters and grappled with the painful necessity of sending children to work rather than to school Huffman argues that despite the tremendous challenge of day to day living hinmin confronted life as energetic agents embracing it as avidly as members of the more affluent classes Reading sources carefully and often against the grain he reveals that many of the poor found meaning in their work took an active and even influential part in their cities politics and nursed ambitions for a better life And nearly all took part in the pleasures and festivities that urban neighborhoods offered Later chapters examine poverty outside the cities and the large scale emigration of indigent farmers to Hawai'i's sugar plantations beginning in 1885 In his conclusion Huffman looks at late Meiji hardship in light of twenty first century poverty and the global income disparity that has captured the public's attention in recent years

What You Are Looking For Is in the Library Michiko Aoyama, 2023-09-05. For fans of *Before the Coffee Gets Cold*, a charming internationally bestselling Japanese novel about how the perfect book recommendation can change a reader's life. What are you looking for? So asks Tokyo's most enigmatic librarian. For Sayuri Komachi is able to sense exactly what each visitor to her library is searching for and provide just the book recommendation to help them find it. A restless retail assistant looks to gain new skills; a mother tries to overcome demotion at work after maternity leave; a conscientious accountant yearns to open an antique store; a recently retired salaryman searches for a newfound purpose. In Komachi's unique book recommendations, they will find just what they need to achieve their dreams. *What You Are Looking For Is in the Library* is about the magic of libraries and the discovery of connection. This inspirational tale shows how by listening to our hearts, seizing opportunity and reaching out, we too can fulfill our lifelong dreams. Which book will you recommend? *Day Care and Family Life in Industrializing Japan, 1868-1926* Kathleen Sue Uno, 1987. *Fragile Kinships* Kathryn E. Goldfarb, 2025-01-15. In *Fragile Kinships*, Kathryn E. Goldfarb shows how child welfare systems do not always generate well-being. This is true across the world as it is in Japan. Policymakers, caregivers and people with experience in state care endeavor to imagine and implement child welfare systems that are genuinely supportive. Yet despite these efforts, social welfare systems too often produce people who are alone. By centering relationality in theorizing social forms of care, *Fragile Kinships* offers key insights into embodied and socioemotional well-being. Goldfarb analyzes both the feelings and effects of lacking kin and the transformative energy people invest in creating new forms of kinship and relatedness. *Fragile Kinships* demonstrates why welfare systems must support relational well-being. In her contributions to anthropological theories of kinship, embodiment and the field of Japanese studies, Goldfarb also speaks to academics, practitioners and policymakers in Japan and globally with ethnographically grounded perspectives suggesting ways that child welfare systems might truly achieve well-being. **A**

People's Curriculum for the Earth Bill Bigelow, Tim Swinehart, 2014-11-14 A People's Curriculum for the Earth is a collection of articles, role plays, simulations, stories, poems, and graphics to help breathe life into teaching about the environmental crisis. The book features some of the best articles from Rethinking Schools magazine alongside classroom-friendly readings on climate change, energy, water, food, and pollution, as well as on people who are working to make things better. A People's Curriculum for the Earth has the breadth and depth of Rethinking Globalization: Teaching for Justice in an Unjust World, one of the most popular books we've published. At a time when it's becoming increasingly obvious that life on Earth is at risk, here is a resource that helps students see what's wrong and imagine solutions. Praise for A People's Curriculum for the Earth: To really confront the climate crisis, we need to think differently, build differently, and teach differently. A People's Curriculum for the Earth is an educator's toolkit for our times. Naomi Klein, author of The Shock Doctrine and This Changes Everything: Capitalism vs. the Climate. This volume is a marvelous example of justice in ALL facets of our lives: civil, social, educational, economic, and yes, environmental. Bravo to the Rethinking Schools team for pulling this collection together and making us think more holistically about what we mean when we talk about justice. Gloria Ladson Billings, Kellner Family Chair in Urban Education, University of Wisconsin-Madison. Bigelow and Swinehart have created a critical resource for today's young people about humanity's responsibility for the Earth. This book can engender the shift in perspective so needed at this point on the clock of the universe. Gregory Smith, Professor of Education, Lewis Clark College, co-author with David Sobel of Place and Community-based Education in Schools.
