Linse, 1993-01-01 New Technologies for Archaeology Markus Reindel, Günther A. Wagner, 2009-02-07 This heavily illustrated book covers recent developments in archaeometry and offers a multidisciplinary approach to reconstructing complex cultural histories It also presents a detailed history of human development in South America s Nasca region **The Oxford Handbook of the Archaeology of Indigenous Australia and New Guinea** Ian J. McNiven, Bruno David, 2023 The Oxford Handbook of the Archaeology of Indigenous Australia and New Guinea reviews and brings together the latest findings on the archaeology of the Australia New Guinea region In 42 new chapters commissioned for this book 77 leading researchers present the archaeological evidence for Australia and New Guinea s deep time history The stories told reveal the astounding richness of Australia and New Guinea s Indigenous cultural history stories of tens of thousands of years of Aboriginal Torres Strait Islander and New Guinean adaptation cultural know how and creative ingenuity Electrochemistry for Cultural Heritage Antonio Doménech-Carbó, María Teresa Doménech-Carbó, 2023-07-05 This monograph overviews the importance of electrochemistry in the field of cultural heritage including archaeology conservation and restoration topics The application of electrochemical techniques in these domains have experienced a notable growth during the last ten years in particular with regards to the elucidation of composition manufacturing techniques and chronology of archaeological artefacts This book describes the application of solid state electrochemistry techniques for the use of samples at the nanogram level from paintings metallic ceramic glass glazed wooden and other objects and it also includes the description of new dating procedures for archaeological objects made of these materials It is a valuable contribution to the field of cultural heritage and will be of great interest to archaeologists conservators and restorers as well as to physicists and chemists working on the scientific examination of works of art *An Introduction to Archaeological Chemistry* T. Douglas Price, James H. Burton, 2010-10-17 Archaeological chemistry is a subject of great importance to the study and methodology of archaeology This comprehensive text covers the subject with a full range of case studies materials and research methods With twenty years of experience teaching the subject the authors offer straightforward coverage of archaeological chemistry a subject that can be intimidating for many archaeologists who do not already have a background in the hard sciences With clear explanations and informative illustrations the authors have created a highly approachable text which will help readers overcome that intimidation Topics covered included Materials rock pottery bone charcoal soils metals and others Instruments microscopes NAA spectrometers mass spectrometers GC MS XRF XRD Case Studies Provenience Sediments Diet Reconstruction Past Human Movement Organic Residues The detailed coverage and clear language will make this useful as

an introduction to the study of archaeological chemistry as well as a useful resource for years after that introduction

*Archaeomagnetic Dating* Jeffrey L. Eighmy, Robert Saul Sternberg, 1990 Archaeomagnetic dating dating archaeological and geological materials by comparing their magnetic data with known changes in the earth's magnetic field has proved to be of increasing reliability in establishing behavioral and social referents of archaeological data Now this volume presents the first book length treatment of its theory and methodology in North American archaeology The sixteen original papers in many cases represent the work of individuals who have been intimately involved with the development and refinement of archaeomagnetic dating techniques They discuss the geophysical underpinnings of archaeomagnetism general methodological problems associated with present archaeomagnetic studies such as sample collection data measurement and analysis and experimental control and advances in experimental archaeology Case histories consider both successful and unsuccessful applications of the technique in New World fieldwork Raw data is provided in an appendix While the volume deals specifically with problems of archaeomagnetic direction dating in the Americas it should prove useful in constructing exact chronologies in other archaeological sites as well and in the geologic record at large As the only single volume devoted to the subject it will serve as the standard reference in the field

*Scientific Examination of Art*, 2005-01-01 Examines the application of scientific methods to the study and conservation of art and cultural properties This work addresses scientific topics of broad interest cutting across the boundaries of traditional disciplines and attracting up to 250 leading researchers in the field
