Future Is Ours Foreseeing Managing And Creating The Future:

The Future Is Ours Graham H. May, 1996-05-28 Why do we continue to think about imagine and forecast the future despite believing we will probably be wrong Why do we need to do so What does the future mean and how do we relate to it Is it possible that Western societies condition their members into inability to cope with the future These and other fundamental questions are explored in The Future Is Ours which is written as an intermediate text for use in future oriented modules within BA courses in International Business Management Urban Planning and Environmental Politics Lessons for the Future Dr David Hicks, David Hicks, 2003-08-27 Drawing on the latest research in futures studies this book provides new insights into ways of helping both students and teachers think more critically and creatively about their own future and that of wider society It acknowledges the crucial role of education in helping young people understand the nature of local and global change and the social and environmental impacts such change will have on their future Setting out a clear educational rationale for promoting global and futures perspective in education it provides helpful and stimulating examples of futures orientated classroom activities It also includes fascinating research into children s views of the future **Future Matters** Barbara Adam, Chris Groves, 2007 Future Matters concerns contemporary approaches to the future how the future is known created and minded In a social world whose pace continues to accelerate the future becomes an increasingly difficult terrain While the focus of social life is narrowing down to the present the futures we create on a daily basis cast ever longer shadows Future Matters addresses this paradox and its deep ethical implications It locates contemporary approaches to the future in a wider sociological and historical framework of practices traces differences and continuities and shows how contemporary practices of futures construction make taking responsibility for futures all but impossible **The Future Is Ours** Graham H. May, 1996-05-28 Why do we continue to think about imagine and forecast the future despite believing we will probably be wrong Why do we need to do so What does the future mean and how do we relate to it Is it possible that Western societies condition their members into inability to cope with the future These and other fundamental questions are explored in The Future Is Ours which is written as an intermediate text for use in future oriented modules within BA courses in International Business Management Urban Planning and Environmental Politics **Sustainable Urban Development Volume 3** Ron Vreeker, Mark Deakin, Stephen Curwell, 2009-01-21 The third volume of the Sustainable Urban Development Series outlines the BEQUEST toolkit that helps link protocol with the assessment methods currently available for evaluating the sustainability of urban development It details the decision support mechanisms developed for users of the system to guide them in selecting the appropriate assessment methods for a variety of evaluations This book provides case studies drawn from locations across Europe and also provides best practice examples demonstrating those protocols that planners property developers and design and construction professionals have followed and how they have selected the assessment methods they need to best evaluate the sustainability of cities districts neighbourhoods and buildings **World Yearbook of**

Education 1998 David Hicks, Richard Slaughter, 2012-09-10 One of the central roles of education is to prepare students for the future and yet its study is often a neglected issue This work focuses on the futures field as an educational resource using case studies from around the world and on the nature of education for sustainability **Sustainable Urban Development:**

A toolkit for assessment S. R. Curwell, Mark Deakin, Martin Symes, 2005 This book outlines the BEQUEST toolkit that provides the means by which to link the protocols with the assessment methods currently available to evaluate the sustainability of urban development *Recent Developments in Foresight Methodologies* Maria Giaoutzi, Bartolomeo Sapio, 2012-11-28 Foresight is an area within Futures Studies that focuses on critical thinking concerning long term developments whether within the public sector or in industry and management and is something of a sub section of complexity and network science This book examines developments in foresight methodologies and relates in its greater part to the work done in the context of the COSTA22 network of the EU on Foresight Methodologies Foresight is a professional practice that supports significant decisions and as such it needs to be more assured of its claims to knowledge methodology Foresight is practiced across many domains and is not the preserve of specialized futurists or indeed of foresight specialists However the disciplines of foresight are not well articulated or disseminated across domains leading to re inventions and practice that does not make best use of experience in other domains The methodological development of foresight is an important task that aims at strengthening the pool of the tools available for application thereby empowering the actors involved in foresight practice Elaborating further on methodological issues such as those presented in the present book enables the actors involved in foresight to begin to critique current practice from this perspective and thirdly to begin to design foresight practice The present trends towards methodological concerns indicates a move from given expert predicted futures to one in which futures are nurtured through a dialogue among stakeholders The book has four parts each elaborating on a set of aspects of foresight methodologies After an introductory section Part II considers theorizing about foresight methodologies Part III covers system content issues and Part IV presents foresight tools and approaches

Futures Education David Hicks, Richard Slaughter, 1998 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company The Futurist, 2001 *The Five Futures Glasses* P. Micic, 2010-04-28 This is an inspiring and practical book about seeing more of the future markets than the competitors It is the first comprehensive model for analyzing and managing the future systematically and effectively The five futures glasses and the Eltville Model are simple but thorough tools to improve thinking and communicating about the future Framework, Methods and Tools for Acquiring and Sharing Strategic Knowledge of the Competitive Environment Katja Rajaniemi, Tom Wingren, 2005 **Knowing Tomorrow?** Patrick A. Duin, 2007 In *Knowing Tomorrow* well known futures researchers from around the world e g Italy the U K the U S A the Netherlands Taiwan and Australia discuss how the future is being dealt with in different sciences They describe how scientists have incorporated the future in their theories thereby often taking a historical perspective The

findings of this book can offer strong support to the scientific foundations of futures research and thus improve futures research as a scientific discipline

BOOK JACKET *The Cyberunion Handbook: Transforming Labor Through Computer Technology* Arthur B Shostak, 2015-02-24 In his original *CyberUnion* the author presented a bold plan for unions to develop a more significant role in the 21st century by adopting four strategic aids futuristics innovations services and traditions F I S T knit together by cutting edge Info Tech resources *CyberUnions in Action* expands on the F I S T model and looks at gains and setbacks in pioneering efforts to create CyberUnions It highlights relevant websites and features interviews with key CyberUnion advocates and some critics Shostak reviews overseas union efforts for transferable lessons and pays special attention to the AFL CIO campaign to ensure Labor's advances in the use of computer networks the Internet wireless devices and more

***Place-Based Evaluation for Integrated Land-Use Management* Johan Woltjer, Ernest Alexander, Matthias Ruth, 2016-03-03** In recent years there has been an increasing emphasis placed on local and regional integration in major planning projects and infrastructure development including roads rail and waterways This emphasis is not only on integrating various projects but also integrating them with related issues such as housing industry environment and water In other words land use planning and infrastructure management have become more spatially oriented This book brings together experts in the fields of spatial planning land use and infrastructure management to explore the emerging agenda of spatially oriented integrated evaluation It weaves together the latest theories case studies methods policy and practice to examine and assess the values impacts benefits and the overall success in integrated land use management In doing so the book clarifies the nature and roles of evaluation and puts forward guidance for future policy and practice

***Strategic Environmental Assessment and Urban Planning* Giovanni Campeol, 2020-07-06** This volume gathers a selection of research contributions on Strategic Environmental Assessment SEA including theoretical and methodological studies and real world case studies It sheds new light on the respective steps in the procedure defined in the SEA Directive from theoretical and operational standpoints intended to enhance the sustainability of plans and programmes adopted by local regional and national authorities Improving the legitimacy and transparency of decision making in the field of environmental management was one of the goals that led the European Commission EU to adopt Directive 2001/42/EC on the assessment of environmental programmes effects This book provides a multidisciplinary approach to SEA and addresses the demand for policies and strategies to strengthen resilience through concrete measures to reduce energy consumption mitigate pollution promote social inclusion and create urban identity

***Beyond Benefit Cost Analysis* Domenico Patassini, 2017-11-30** Illustrated by case studies from Europe North America and the Middle East this book examines how non market values can be identified measured and incorporated into planning evaluation methodologies The traditional means of assessing planning options benefit cost analysis requires that all effects be expressed in monetary terms and this volume offers alternative approaches It presents strategies for accomplishing the major purposes of planning evaluation including the provision of an

explicit replicable basis for public assessment in alternative ways Growing demand for public involvement and for accountability in decision making requires better means for accommodating a broad range of concerns in planning evaluation Methodologies examined include effectiveness cost and multicriteria analysis and the book explores how these have been applied in practice in developing special issue plans complex regional development strategies and efforts to analyze the environmental justice implications of major infrastructure projects Use of scenarios and problem structuring methods by stakeholder groups are also explored

Transport and Environment Eran Feitelson, E. T. Verhoef, 2001-01-01 The impact of transport on the environment is a major issue of worldwide concern This important new book presents state of the art contributions on spatial and technological aspects of transport in relation to environmental degradation together with analysis of sustainable transport policy

Landscape Interfaces Hannes Palang, G. Fry, 2013-06-29 This book has been initiated by the workshop on Cultural heritage in changing landscapes held during the IALE International Association for Landscape Ecology European Conference that started in Stockholm Sweden in June 2001 and continued across the Baltic to Tartu Estonia in July The papers presented at the workshop have been supported by invited contributions that address a wider range of the cultural heritage management issues and research interfaces required to study cultural landscapes The book focuses on landscape interfaces Both the ones we find out there in the landscape and the ones we face while doing research We hope that this book helps if not to make use of these interfaces then at least to map them and bridge some of the gaps between them The editors wish to thank those people helping us to assemble this collection First of all our gratitude goes to the authors who contributed to the book We would like to thank Marc Antrop Mats Widgren Roland Gustavsson Marion Potschin Barbel Tress Tiina Peil Helen Soovali and Anu Printsmann for their quick and helpful advice opinions and comments during the different stages of editing Helen Soovali and Anu Printsmann together with Piret Pungas thank you for technical help

Community Forestry in Canada Sara Teitelbaum, 2016-07-28 In recent decades community forestry has taken root across Canada Locally run initiatives are lauded as welcome alternatives to large corporate and industrial logging practices yet little research has been done to document their tangible outcomes or draw connections between their ideals of local control community benefit ecological stewardship and economic diversification and the realities of community forestry practice This book brings together the work of over twenty five researchers to provide the first comparative and empirically rich portrait of community forestry policy and practice in Canada Tackling all of the forestry regions from Newfoundland to British Columbia it unearths the history of community forestry revealing surprising regional differences linked to patterns of policy making and cultural traditions Case studies celebrate innovative practices in governance and ecological management while uncovering challenges related to government support and market access The future of the sector is also considered including the role of institutional reform multiscale networks and adaptive management strategies
