Future Legal Restraints Arms Proliferat:

Future Legal Restraints on Arms Proliferation Julie Dahlitz, 1996-01-01 The contents of this new volume concentrate on making the legal aspects of arms control feasible in creating new legal approaches innovations of principle practice that encourage more efficient wide ranging forms of arms control together with expansion of the whole range of arms control agenda

The Law of Arms Control and the International Non-proliferation Regime Tom Coppen, 2016-12-08 Nuclear proliferation poses a serious threat to international peace and security The non proliferation regime is the body of public international law that aims to counter this threat It has been a cornerstone of global security for decades This book analyses its main instruments The book focuses on the Nuclear Non proliferation Treaty international trade controls and the International Atomic Energy Agency It describes the internal mechanics of these mechanisms their development and their strengths and weaknesses It shows how they together are the basis of a political legal order that is more than the sum of its parts offering new insights on the role of international law in an area dominated by security driven politics

Legal Resolution of Nuclear Non-Proliferation Disputes James D. Fry, 2013-12-19 James Fry explores the use of international courts and tribunals to settle disputes over nuclear weapons and nuclear material

Realism versus Global Arms Control and Disarmament Carmen Chas, 2025-07-15 This incisive book explores the limits of international law through arms control and disarmament treaties Carmen Chas critically engages with literature on disarmament and classical realist analysis bridging the divide between international law and international relations scholarship

The Law of Arms Control Guido den Dekker, 2001-05-01 This book is about the role of international law in the arms control process It discusses the law of arms control as a special branch of international law and covers the following topics the place of the law of arms control in the system of international law and politics special characteristics of arms control law the international legal framework of supervision in the law of arms control general features of supervisory mechanisms in all multilateral arms control treaties currently in force case studies on the CWC IAEA safeguards system and CTBT and enforcement of the law of arms control As such this study provides a comprehensive theory and model for the analysis of supervisory mechanisms in arms control treaties and offers an in depth overview of the law of arms control as it stands in the post Cold War situation The book will be of interest to international lawyers as well as political scientists and policy makers

Nuclear Non-Proliferation in International Law Jonathan L. Black-Branch, Dieter Fleck, 2015-09-24 This second Volume in the book Series on Nuclear Non Proliferation in International Law discusses the legal interpretation and implementation of verification and compliance with the Treaty of the Non Proliferation of Nuclear Weapons 1968 the Comprehensive Nuclear Test Ban Treaty 1996 and the Treaty establishing the European Atomic Energy Community EURATOM 1957 It specifically examines the question contested in recent academic writings whether the International Atomic Energy Agency IAEA is competent to verify not only the correctness but also the completeness of national declarations Topical legal issues of verification and its technical and

political limits as well as peaceful settlement of disputes and countermeasures are discussed in depth The Series on Nuclear Non Proliferation in International Law provides scholarly research articles with critical commentaries on relevant treaty law best practice and legal developments thus offering an academic analysis and information on practical legal and diplomatic developments both globally and regionally It sets a basis for a further constructive discourse on the topic at both national and international levels A Third Volume to be published in Autumn 2016 will focus on legal issues of safety and security of the use of nuclear energy for peaceful purposes Jonathan L Black Branch is Professor of International Law Royal Holloway University of London a Member of Wolfson College Oxford Chairman of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation and Contemporary International Law Dieter Fleck is Former Director International Agreements Member of the Advisory Board of the Amsterdam Center for International Law ACIL Honorary President International Society for Military Law and the Law of War Rapporteur of the ILA Committee on Nuclear Weapons Non Prolife ration and Contemporary International Law

Nuclear Non-Proliferation in International Law - Volume I Jonathan L. Black-Branch,Dieter Fleck,2014-07-22 The volume discusses the legal interpretation and implementation of the three pillars of the Treaty of the Non Proliferation of Nuclear Weapons 1968 regarding the non proliferation of nuclear weapons the right to develop research production and use of nuclear energy for peaceful purposes and issues relating to nuclear disarmament It examines the status of international law regarding nuclear capacity considering competing legal approaches to the development of nuclear technology non proliferation disarmament and regulating nuclear weapons within a contemporary international context

Disarmament under International Law John Kierulf,2017-01-01 Russia s annexation of Crimea and involvement in the conflict in eastern Ukraine has in many respects set back post Cold War improved relations between Russia the United States and Europe The continued war in Syria threatens the security and stability of many countries in the Middle East and attacks by ISIS and other terrorist organizations are causing increased fear and instability in Iraq and in neighbouring countries In many areas negotiations on disarmament and arms control are at a standstill In Disarmament under International Law John Kierulf examines and discusses how disarmament arms control and non proliferation of both conventional weapons and weapons of mass destruction are regulated in existing treaties and conventions From his perspective as a former disarmament negotiator Kierulf explains the United Nations disarmament machinery and procedures and describes the UN s essential role in promoting disarmament Underlining the continued and serious threat posed by nuclear weapons Kierulf appeals for increased and effective international efforts to reduce their number and ultimately eliminate them Presenting information and analysis on a comprehensive range of issues Disarmament under International Law is an essential guide for anyone interested in gaining knowledge about the current state of international security

International Humanitarian Law: Theory, Practice, Context Daniel Thürer,2011-07-11 This book is about international humanitarian law or as it is also called the law of armed conflict or law of war It emerged from a series of

lectures delivered at the Hague Academy of International Law The author deals with war and the means by which international law attempts to contain and as it were humanize organized violence But the ambitions of the author go beyond the battlefield The book explores the many complex ways in which law functions to regulate warfare in theory and practice The author looks into treaties and other sources of international law but he also tries to step outside the boundaries of black letter law to deal broadly with such matters as the influence of culture in shaping the norms on war the institutions that develop those norms and work for their universal acceptance the networks of humanitarian actors in this area and the legal procedures in which the law of war and its various institutions are embedded The book demonstrates that even wars are in various ways conducted in the shadow of the law

International Conflict and Security Law Richard Burchill, Nigel D. White, Justin Morris, 2005-06-23 Hilaire McCoubrey wrote extensively in the area of armed conflict law and on the issues of collective security law and the law relating to arms control Although he died at the early age of 46 in 2000 he had contributed significantly to the separate study of these areas but also to the idea of studying the issues as a whole subject The collection covers difficult and controversial issues in the area of conflict and security law The contributors drawn both from academe and practice provide expert analysis of many aspects of the law governing armed conflict and collective security As well as providing a fitting tribute to the main aspects of Hilaire's contribution to knowledge the volume provides a coherent reconsideration and development of key aspects of conflict and security law at a time when that law is being applied breached debated or reformed on almost a daily basis

International Humanitarian Law Hilaire McCoubrey, 2019-07-16 First Published in 1998 this book presents an analysis of international humanitarian law the law governing and seeking to mitigate the conduct of armed conflict Since the first edition of this work came out in 1990 there have been important developments in the law and sadly a continuing experience of armed conflict and the humanitarian crises which it represents As a result this is not so much an updating as the offering of a new book International humanitarian law is here taken as coterminous with the *jus in bello* and covers both its Geneva and Hague elements dealing respectively with the humanitarian protection and assistance of victims of armed conflict and the controls and restrictions placed upon methods and means of warfare The rules and principles of international humanitarian law are presented and analysed in the context of their practical application in warfare with emphasis upon recent experience The Work is Primarily dedicated to the law relating to international armed conflict but also includes discussion of the relevant law applicable to non international and low level conflict

Protecting the Environment During Armed Conflict Elizabeth Mrema, Carl Bruch, Jordan Diamond, 2009 This report inventories and analyses the range of international laws that protect the environment during armed conflict With a view to identifying the current gaps and weaknesses in this system the authors examine the relevant provisions within four bodies of international law environmental humanitarian IHL international criminal law ICL international environmental law IEL and international human rights law HRL The report concludes with twelve concrete recommendations on ways to

strengthen this legal framework and its enforcement The Environment and Natural Resources are crucial for building and consolidating peace it is urgent that their protection in times of armed conflict be strengthened There can be no durable peace if the natural resources that sustain livelihoods are damaged or destroyed This report provides a basis upon which Member States can draw upon to clarify expand and enforce international law on environmental protection in times of war

Arms Control in the 21st Century Oliver Meier, Christopher Daase, 2013-05-02 This volume evaluates the impact of coercive arms control efforts to curb the spread of weapons of mass destruction in the twenty first century A new paradigm in arms control is gradually replacing the idea that mutually agreed restrictions on armaments can improve international security Thus Hedley Bull's classic definition of arms control as the cooperation between antagonistic pairs of states in military affairs needs to be amended by a new notion of coercive arms control as the set of non cooperative and non reciprocal measures to restrict the weapons or military capabilities of certain states This volume addresses the topic of how this ongoing paradigmatic shift will affect the effectiveness of arms control as a conflict management instrument While some argue that new instruments can complement and strengthen traditional multilateral and inclusive arms control regimes others maintain that conflicts and contradictions between coercive and cooperative arms control regimes will severely limit their effectiveness This volume provides a forum for academics and practitioners from around the globe to discuss these developments in depth and to assess the specific strengths and weaknesses of these new instruments of arms control This book will be of much interest to students of arms control global governance foreign policy and IR Security Studies in general

Air & Space Power Journal fall 03, International Law Catalogue, 2001 *Nuclear Weapons, Justice and the Law* Elli Louka, 2011-01-01 Dr Elli Louka has written a courageously realistic yet hopeful book on one of the central problems of the twenty first century Louka offers an unflinching examination of the uses and potential abuses of the nuclear instrument currently and in projected futures of the interlocking international war system and global economy She looks squarely at the practice and inevitability of pre-emptive action in many of the contexts she projects This is an important and timely study for anyone practicing or trying to understand international law and politics From the foreword by W Michael Reiman Yale Law School US It is often argued that the nuclear non proliferation order divides the world into nuclear weapon haves and have nots creating a nuclear apartheid Employing a careful and nuanced discussion of this claim Elli Louka examines the architecture of the nuclear non proliferation order the fairness and effectiveness of international and regional institutions and scenarios for the future of nuclear weapons A sophisticated study of a complex issue this book is a must read for policymakers and those who wish to understand the intricacies and challenges of developing institutions to address the

nuclear weapon threat
