

GOP Jesus and Trump: an Exploration of the Usage of Evangelical Christianity by Donald Trump

Fiona Schieve

Advisor: Jeremy Rapport
Religious Studies Department

Abstract

This project intends to analyze the overwhelming support Donald Trump generated from Evangelical Americans during the 2016 presidential election. It is proposed that Trump achieved this using an augmented version of Christianity alongside the use of rhetorical tools to specifically gain the support of the Evangelical right. The project isolates and unpacks two identity models, that of the protector and the provider, which emerge as a result of the patriarchal nature of Evangelical Christianity. It is argued that Trump used these models to gain the voter support of a population that, at first glance, would not be assumed supporters. The Protector stands as a model for the strong male image that has permeated through the American psyche, the man who is able to care for his home, family, and community. The Provider is a model for the economic power a man should hold in order to be able support his family. These models are broken down to understand their origins, persistence in political culture, and how they worked to create the perfect environment for Trump to exploit what they mean to the Evangelical community. This project will explore how Trump was able to prime this audience, despite not possessing any of the actual values the models allowed him to project.

Constructed Theology

I constructed a theology used by the modern-day Evangelical right that diverges from biblical understanding of Christianity. This theology can be traced back to the Civil Rights movement as a way for white Evangelical pastors to keep control over their congregations. This was later shifted to women's rights after a Supreme Court case sped up the process of integration.

There is a difference between this political version of religion and its biblical foundation that was used by Donald Trump in the 2016 election in order to gain the votes of the Evangelical right. This is done by constructing two identity types the "Protector" and "Provider" that are patriarchal expectations of this community.

"Protector"

This chapter outlines the way that men within the Evangelical faith are expected to be protectors of their families, communities, and ultimately nations as well. This is seen in the 2016 electoral patterns of Trump in the following issues:

- Treatment of women – they were either weakened or vilified depending on how easy they could be controlled in the eyes of the Evangelical right
 - This was primarily seen in Trump's treatment of Hillary Clinton throughout his campaign and political debate process

"Provider"

This chapter outlines the financial burden placed on men in order to support their families, this was linked to by Trump with his status as businessman before being the Republican nomination for president.

This chapter also explores the title of "Provider" when it comes to providing safety to a nation, in the treatment of foreign affairs Trump proved that he had a very America first attitude. This led him to turn even further from the traditional understanding of Christianity.

Future Of Evangelical Christianity:

The Future of Evangelical Christianity Donald G. Bloesch, 1988 *The Future of Evangelicalism in America* Candy Gunther Brown, Mark Silk, 2016-04-26 In *The Future of Evangelicalism in America* thematic chapters on culture spirituality theology politics and ethnicity reveal the sources of the movement's dynamism as well as significant challenges confronting the rising generations A collaboration among scholars of history religious studies theology political science and ethnic studies the volume offers unique insight into a vibrant and sometimes controversial movement the future of which is closely tied to the future of America **After Fundamentalism** Bernard Lawrence Ramm, 1983 The Enlightenment of the eighteenth century brought into existence modern learning and modern attitudes at the same time it created the most serious challenge to Christianity since the early days of the Church Liberal Christianity was created to formulate a way of living with the aftermath of the Enlightenment but made the fateful mistake of surrendering the substance of Christianity as historically understood At the same time orthodoxy evangelicalism and fundamentalism have struggled to respond properly to the Enlightenment Now Bernard Ramm's groundbreaking *After Fundamentalism* offers a way of doing theology using Karl Barth's methodology as a model that allows a Christian to both be a child of the Enlightenment and maintain the historic substance of Christianity *After Fundamentalism* reconciles the great gains of the Enlightenment with authentic Christianity to show how a Christian can without compromising his or her beliefs live fully as a modern person in the modern world

Karl Barth and the Future of Evangelical Theology Christian T. Collins Winn, John L. Drury, 2014-11-17 The theology of Karl Barth has been a productive dialogue partner for evangelical theology For too long however the dialogue has been dominated by questions of orthodoxy The present volume seeks to contribute to the conversation through a creative reconfiguration of both partners in the conversation neither of whom can be rightly understood as preservers of Protestant Orthodoxy Rather American evangelicalism is identified with the revivalist forms of Protestantism that arose in the post Reformation era while Barth is revisited as a theologian attuned both to divine and human agency In the ensuing conversation questions of orthodoxy are not eliminated but subordinated to a concern for the life of God and God's people This volume brings together seasoned Barth scholars evangelical theologians and some younger voices united by a common desire to rethink both Karl Barth and evangelical theology By offering an alternative to the dominant constraints the book opens up new avenues for fruitful conversation on Barth and the future of evangelical theology **A Future for American Evangelicalism** Harold Heie, 2015-04-15 This book proposes that participation in God's Project of Reconciliation is the Center that can hold evangelical Christians together in the midst of great diversity in belief and ecclesiastical practices The author envisions a vibrant future for the Evangelical movement if professing evangelicals can model that rare combination of deep commitment to their own beliefs openness to listening to the beliefs of others and willingness to engage in respectful conversation with those who disagree with them in place of the combativeness that has characterized too much of

The Variety of American Evangelicalism Donald W. Dayton,2002-05 Those labeled as evangelicals commonly are assumed to constitute a large and fairly homogeneous segment of American Protestantism This volume suggests that in fact evangelicalism is better understood as a set of distinct subtraditions each with its own history organizations and priorities

The differences among groups are so important that the question arises Is the term evangelical useful at all This book attempts to enter as sympathetically as possible into the self understandings of movements usually grouped under the evangelical umbrella For each of twelve major traditions a leading scholarly interpreter first articulates the group s theological orientation and then explores the relationship between that movement and broader evangelical issues and organizations Contributors develop remarkably useful and diverse conceptual strategies for charting the complex evangelical landscape In crisp summary chapters the editors draw differing conclusions from the many perspectives offered Donald Dayton wants to abandon the category evangelical altogether Robert Johnston sees the varied traditions as an extended family whose members embody common characteristics to greater or lesser degrees *When Did We Start Forgetting God?* Mark Galli, 2020 Senior Managing Editor of Christianity Today Mark Galli provides a fresh prospective on God and culture

find points of contact between classical Christianity and postmodern thought Classical Christianity was shaped in a pagan and relativistic society much like our own Classical Christianity was not an accommodation to paganism but an alternative practice of life Christians in a postmodern world will succeed not by watering down the faith but by being a counter cultural community that invites people to be shaped by the story of Israel and Jesus A substantial appendix explores the development of authority in the early church an important issue for evangelicals in a society that shares many features with the Roman world of early Christians Students professors pastors and laypeople concerned with the churchs effective response to a postmodern world will benefit from this paradigmatic volume Informative tables and extensive bibliographies enhance the books educational value Amazon
